WASP WAISTS

Are not much in evidence among American women. The women of America are workers, and a weak waist handicaps a worker. But woman has a greater handicap than a weak waist. She may have a perfect form, beautiful and strong in all its lines, and yet be weak because her strength is undermined by diseases peculiar to her sex.

There is no room for argument as to the weakening effect of these diseases. There is also no room for argument as to the power of Dr. Pierce's Favorite Prescription to cure them. It regulates the periods, stops unhealthy drains, heals inflammation and ulceration, and cures female weakness. It is a purely vegetable preparation, and cannot disagree with the weakest constitution. There is no alcohol in "Favorite Prescription," and it is entirely free from opium, cocaine and all narcotics.

Sick women suffering from chronic forms of female diseases are invited to consult Dr. Pierce by letter free, and so obtain the invaluable advice of a specialist in the diseases of women. All correspondence strictly private and answered confidentially. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Words cannot tell how grateful I am for your kind advice and good medicine," writes Mrs. John Cook, Hastings, Northumberland Co., Ontario. "I had been in poor health for four years back, and this spring the doctor said I had ulceration and falling of the internal organs, but I thought I would try your Favorite Prescription. I took five bottles and three of the 'Golden Medical Discovery' and one trial of Dr. Pierce's Pleasant Pellets, and I can safely say that I never felt better in my life. I have gotten well of my medicines wherever I have used them."

Dr. Pierce's Pleasant Pellets keep the liver healthy. They assist the action of "Favorite Prescription" when a laxative is required.

DENY BILLION DOLLAR BANK TO BE FORMED

Rothschild and Young Morgan Make a Statement.

REPORT TO THE WORLD FROM LONDON

Alleged the Big American Financier Was Engaged in Organizing the Biggest Trust Ever Conceived.

London, June 10.—Baron Rothschild and J. P. Morgan, jr., the latter being the great financier's London representative, deny that Morgan is negotiating with the Rothschilds for the establishment of a billion-dollar international bank.

What They Denied. The denial here made is of a report sent to the New York World from London as follows:

It is rumored that J. Pierpont Morgan is engaged in arranging for the establishment of a great Anglo-American bank, with a capital of \$1,000,000,000. It is said that it is proposed to abolish all of the principal financial agencies and banks already engaged in Anglo-American business. The proposed institution, it is said, is intended to be the practical agency for the already vast and rapidly growing banking transactions between Europe and America. Mr. Morgan is understood to have associated with him in the stupendous undertaking not only the principal capitalists who aided in the organization of the United States Steel corporation, but also the Rothschilds.

Greatest in History.

Locally, the World says: "Several times since the panic of May it has been reported in Wall street that Mr. Morgan intended to organize a bank with \$100,000,000 capital. These reports have been invariably denied at the office of J. P. Morgan & Co. The creation of a bank with a capitalization of a billion dollars is an undertaking of a nature so colossal that nothing approaching it has ever been hinted at before. The aggregate of the capitalization of the 64 national banks in Greater New York is barely \$100,000,000.

Two banks only are capitalized at \$10,000,000 each—the National city and the National bank of commerce. The greatest bank in the world—the bank of England—has a capitalization of \$24,563,000 or about \$27,000,000. The bank of France has a capital of 182,000,000 francs or about \$36,600,000.

Would Be a Big One. The combined capitalizations of the bank of France, the Deutsche bank of Berlin, the Bank of Spain, the Bank of England, and the Bank Imperiale Ottomane, the government bank of Turkey, falls far short of \$100,000,000. When it was reported last month that Mr. Morgan intended to organize a bank in this city with a capital of \$100,000,000 the project was declared to be impracticable by conservative banking men because of the national banking laws, which impose a tax on the capitalization of such institutions.

August Belmont, the New York representative of the Rothschilds, who, according to the London dispatch, are associated with Mr. Morgan in the vast banking scheme, is not at home in Hampstead, L. I., and nothing could be learned in New York city concerning the rumored organization of the mammoth bank.

France-Russian Bank.

St. Petersburg, June 10.—Official announcement will be made tomorrow of the formation of a Franco-Russian bank here with a capital of six million roubles.

C. ROHRMAN.

PROTECTIONISTS

ARE NOW AFTER MR. HENDERSON

Opposed to His Re-election as Speaker of the House.

THEY IMPEACH HIS POSITION

Say He is of the Babcock Stripe of Republicans, Who Want Tariff Revision.

Washington, June 10.—Protectionists are said to be after Speaker Henderson's scalp. They do not want him to be re-elected as presiding officer of the house. They prefer some man who they are sure will uphold the policy of protection at a hazard. The reason for this projected attack on Henderson is that he is suspected of sympathizing with Representative Babcock, of Wisconsin, in his complaint for tariff revision.

THE CUBANS ARE THINKING

May and Probably Will Accept the Ultimatum Sent Them.

Washington, June 10.—The Cuban constitutional convention was in session today, considering the ultimatum of President McKinley sent on Saturday to the effect that the Platt amendment must be adopted without modification, interpretation or interpolation, before American troops will be withdrawn, or any further steps taken toward the establishment of the Cuban republic. News from Havana today indicates that the president's ultimatum has had good effect. The fact that it came from the president himself has brought the radicals to a realization of the situation, and it is now predicted that the amendment will be adopted without change.
