GENERAL NEWS.

President McKinley has been compelled to abandon his visit to the Buffalo exposition Thursday, by reason of the serious illness of Mrs. McKinley. Major W. H. Daly, surgeon on the staff of General Miles in Porto Rico, committed suicide at his home in Pittsburgh, by shooting himself in the right temple. In an article in the forthcoming Leslie's Weekly, General Frederick D. Grant will say that the value of the Philippines to the United States cannot be overestimated. An attempt to run a street car through a religious procession of Italians at Eighteenth and Clark streets, Chicago, precipitated a riot in which the windows of the car were smashed and one man injured. The stock of the Kentucky breeders' Trotting association in October closed with a large list of entries, 648 horses, comprising 473 entries, having been received, an average of 50 to each race. Of the 59 candidates who reported for entrance at the West Point academy examinations last week only 22 passed successfully. These, together with 105 others who qualified last March, took the oath of allegiance and were admitted to the military academy. The stock exchange committee for general purposes in London decided that the buying in Northern Pacific may proceed on and after June 17. The decision was anticipated and is not expected to have any effect on the market. All accounts in Northern Pacific are practically settled and there is no further difficulty in borrowing shares. A sensation has been created in Berlin by the publication of a dispatch in the Kleines Journal, saying: "Queen Wilhelmina's recent visit to Berlin was for the purpose of obtaining Emperor William's assistance to end the South African war, both the weland and the dreadland being willing to do so through the Hague arbitration court." A most encouraging report on the financial prospects of the Pan-American exposition has been issued by the executive committee of the department of admissions, it showing that the average expenditures by the crowds within the grounds during May was 17 cents per capita compared with an average of 18 cents during the first month of the world's fair.

PACIFIC NORTHWEST NEWS.

It is reported at Prairie City that "rustlers" are stealing stock in the vicinity of Grub Creek range. Orders have been received for the Fourth regiment, O. S. G., to go into camp of instruction near Eugene for seven days, beginning June 27. Magdalena Becker, wife of John C. F. A. Becker, a contractor and builder, of Portland, committed suicide Saturday afternoon by swallowing carbolic acid. Gov. Rogers of Washington issued a proclamation which calls in extra session the legislature for the first time in the history of the state of Washington to convene June 11. "You might not believe it," said a freight official recently to the St. Paul Globe, "but this month the boats leaving Seattle will have on board at least 1000 tons of bottled beer." A permanent organization has been perfected of the Spanish-American war veterans, at Salem, under the title of Hal Hibbard camp, No. 226. Fifteen enrolled as charter members. Professor W. J. Spillman, of the Washington agricultural college and experiment station, at Pullman, is originating new varieties of wheat particularly adapted to Eastern Washington. The charter has been granted for the First National bank of Payette with a capital of \$25,000. The stockholders named in the application are: Geo. V. Longdon, Albert Wilson, W. S. Rundage, J. J. Toole, P. E. Short and P. A. Divers. The Yakima Good roads club has been organized with a large membership. The officers are: E. G. Peck, president; A. J. Willis, secretary and treasurer; W. L. Steinweg, F. C. Hall, Dell Hiscock, John Rudkin and E. G. Peck, trustees.

Life at Stake
Somewhere in the world life is at stake every minute of the day. Right at our own doors, perhaps, is going on a struggle as grim and fierce as any fight or fight on record. You hear the hollow tearing cough; see the cone of blood which tells of the wounded lungs; mark the emaciated body and hectic cheek, and know a life is at stake.

The use of Dr. Pierce's Golden Medical Discovery has saved many a life in just such a crisis. It cures obstinate, deep-seated coughs, stops the hemorrhage, strengthens "weak" lungs, and restores the emaciated body to its normal weight and strength. There is no alcohol in the "Discovery," and it is absolutely free from opium, cocaine, and all other narcotics. I desire to send you this brief, unadorned testimonial written by Joseph E. Pepperman, Madison Springs, Ireland Co., N. Y. "In 1896 one of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs. I promptly gave her Dr. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This experience caused me to recommend Dr. Pierce's medicine to my neighbors, who without exception, send them with favorable results." Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or if cloth bound volume is desired send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

WM. M'KINLEY WANTS NOT A THIRD TERM Made an Unequivocal Statement Today.

THE CABINET ENDORSES HIS POSITION He Said That Consideration of Current Issues Should Not Be Compromised by His Candidacy. Washington, June 11.—The following personal statement was given out by President McKinley at noon: "I regret that a suggestion of a third term has been made. 'I don't whether I am called upon to give it any notice, but there are now questions of grave importance before the administration the country, and their just consideration should not be prejudiced in the public mind by even the suspicion of a thought of a third term. 'In view, therefore, of the reiteration of the suggestion of it, I will say now, once for all, expressing a long settled conviction, that I am not and will not be a candidate for a third term and would not accept the nomination for it if tendered me. 'My only ambition is to see through my second term to the acceptance of my countrymen, whose generous confidence I so deeply appreciate, and then with them do my duty in the ranks of private citizenship.' The statement has caused quite a sensation in political circles. It is the first political declaration directly from the president since the campaign. It was for this purpose the meeting of the cabinet was called. Members of the cabinet gave the statement their unqualified approval. It is said that Senator Hanna had been informed of Mr. McKinley's intentions in the matter, and fully approved them. The act of the president is regarded as a severe rebuke to Senator Depew and Congressman Grosvenor, the two men who are responsible more than any others for the present discussion of the third term. Some Booms Launched. One result of the announcement doubtless will be to launch a number of presidential booms for senators from various states. The Fairbanks boom will be among the first to come before the public in a prominent aspect. Other booms besides that of the Indiana senator are those of Senator Foraker of Ohio, and Odell and Roosevelt, of New York, that will amount to something.

MYSTERIOUS CABINET MEET

Members Conferred in Night Session on Some Important Matter. Washington, June 11.—This morning, deep mystery surrounded the special meeting of the cabinet last night. The members, with the exception of Secretary Root, who is in Buffalo and who had a conference with the president before the others arrived, met at the executive mansion at 8 o'clock. They were in the cabinet room more than an hour and when they departed, intimated that the president had joined them to secrecy. It was the first night session since the Spanish war. The members volunteered the information that they did not discuss the Boer war, the situation in Cuba, the Philippines, Porto Rico or China, or the supreme court decisions. Some believed the president was in receipt of disquieting news from Cuba, and wished to advise with the cabinet before replying to General Wood.

P. & I. N. ROAD WAS OPENED

DIGNITARIES HONOR THE OCCASION WITH THEIR PRESENCE. It Penetrates a Region Rich in Ores and Promising to Develop Rapidly in the Near Future.

Boise, June 11.—Special.—The formal opening of the Pacific & Idaho Northern railroad from Weiser, on the Oregon Short Line, to Council, near the famous Seven Devils mining region, took place yesterday at Council. Many distinguished people were present, including Governor F. W. Hunt, Mayor J. H. Richards, of Boise, and a dozen prominent bankers and capitalists. It was one of the most representative gatherings of men ever assembled in the state of Idaho, and the capital represented many millions of dollars. The completion of the P. & I. N. railroad into the Seven Devils country marks a new era in that celebrated copper and gold producing region. It is rich in mineral wealth and timber, and thousands of tons of ore have been piled upon the dumps of the mines for years past, because there were no adequate means of transportation. So rich is the copper ore that many tons have been freighted for 40 or 50 miles and then shipped to the smelters at a good profit. An Extension Planned. All of these ores will hereafter be treated at the Weiser smelter as soon as it is completed. The Pacific & Idaho Northern will extend its line northward across the divide and down the Little Salmon to the mouth of the Snake, and will certainly construct branches from Cambridge into the Heath district and from Council into the Seven Devils proper. Lewis A. Hall and associates of New York built and control the road and P. P. Shelby is the general manager.

A PENNSYLVANIA HORROR

A Mine Explosion at Fort Royal With Loss of Life. Jacobs Creek, Pa., June 11.—An explosion last night in the Fort Royal mine may prove as disastrous as the Dunbar horror of a decade ago. How many lives were lost could not be at first ascertained. All the rescuing parties came out of the mine, as black-damp made the work impossible. They give up hopes of finding any of the missing men alive. A number of wounded were brought in. In several instances, the victims' eyes were destroyed.

HENRY BRAUER'S PROMISE

He Will Return to Pendleton and Stop the Gambling. Shortly after receiving his sentence on Monday to one year in the penitentiary, Henry Brauer registered a solemn promise to the effect that he would cut his time as short as possible by good behavior while in the state penitentiary, and at the end of nine or ten months would return to Pendleton and stop gambling. He said: "I have five acres of land south of Portland and two lots in East Portland. This is the first time I have ever gotten into trouble. I have earned my money honestly, by hard work, and up to this case, nothing could be said against me. When I come back I am going to keep the law on my side. And it is no reason why a gambler should not sit behind the bars. I propose to make it expensive for the gamblers. If they don't kill me, or hire some person to kill me, I am going right after open gambling until it is closed. I will swear out the information and the district attorney will have to take notice of it."
