**THE INTER-HIGH SCHOOL**

will provide a Cinder Path for the Track Events.

The high schools of Eastern Oregon have perfected an organization, known as the Inter-High School Athletic Association, says the Baker City Republican.

The schools composing the association are Pendleton, Baker City, Union, La Grande, and Madras.

The officers are Roy McKelvie, of Baker City, president; Roy Conklin, of Pendleton, secretary; John Dobbins, of Union, treasurer.

The next meeting of the association will be held in Baker next week, in the interval the Baker City team will make every effort to provide suitable accommodations, and will endeavor to bear the cost.

The local team will endeavor to construct a quarter mile cinder path in the new baseball field, and provide a cinder coach.

The new professor of physical education will probably fill this position. It is hoped that the boys will succeed in building the cinder path with good records to be made.

It is more than probable that the men did "seconds" on the slow dirt track at Pendleton, could on a cinder track in 10:5.

**SUPREME COURT OPINIONS**

CASE OF HOUSER VS. WEST WAS AFFIRMED.

Three Other Opinions of Interest to Lawyers and Litigants of Eastern Oregon.

The following causes have been passed upon and opinions handed down by the supreme court of the state of Oregon. The opinions have been filed with Lew Morrison, deputy clerk of the supreme court.

Zoeth Houser, respondent, vs. Peter West, appellant; appeal from Umatilla county; Hon. Stephen A. Lowell, judge. Peter West for appellant; M. A. Butler, for respondent; affirmed.

This action was originally instituted to recover upon a bond given to the plaintiff, as sheriff, by defendant and his sureties to indemnify him against any liability he might incur in selling two stacks of wheat hay at the request and by the direction of defendant under an execution issued by his direction against the property of Charles Campbell. The trials of the cause have been had. Verdict and judgment were for plaintiff. As a separate defense the defendant avers that he directed the plaintiff to levy up two certain stacks of wheat hay upon the west half of the northwest quarter of section fourteen; that the plaintiff levied thereon in accordance with instructions and sold them under the writ all prior to the giving of the undertaking, which when executed was without consideration and void. The reply admits the sale of the property before the execution of the undertaking, but alleges that West, at the request of the plaintiff for indemnity, first deposited county scrip therefor, but subsequently withdrew it and gave the undertaking in its stead.

The Crown Point Gold Mining company, a corporation, respondent, vs. S. C. Crismon and F. J. McCarver, appellants. Appeal from Baker county; Hon. Robert Eakin, judge; H. E. Courtney for appellants; William Smith for respondent. Affirmed.

On January 1, 1899, A. H. Huntington, J. C. Young, and A. Olsen posted a discovery notice on the Crown Point quartz claim in Baker county and during the following summer marked the boundaries thereof on the ground so that they could be readily traced. Their interest in the claim was subsequently sold and transferred to the plaintiff corporation. On July 1, 1899, the defendants, deeming the mine forfeited on account of failure to perform the annual assessment work relocated the same ground under the name of the "Alice" claim. Plaintiff alleges that at the time of the defendants' entry the plaintiff's were in possession of the property and that the defendants wrongfully and unlawfully entered upon the claim and began to dig and carry away ore therefrom, which they will continue to do unless restrained. It is urged that, because Huntington, Young and Olsen did not mark the boundaries of the claim on the ground for six months after the posting of their discovery notice, their location is invalid. On that point the opinion is: "But a subsequent locator cannot object that the first location was not marked in time, provided it was sufficiently marked before his location." 11 Fed. 666.

T. H. Crawford, respondent, vs. James H. Hutchinson and W. R. Hutchinson, partners doing business under the firm name of Hutchinson Brothers, appellants. Appeal from Union county; Hon. Robert Eakin, judge; Leroy Lomas, for appellants; C. E. Cochran and F. S. Ivanhoe, for respondent. Affirmed.

This is an action upon an account stated. Balance sued for was \$470.50. A statement of account was rendered by plaintiff to defendants, but they paid no attention to it. The defendants claimed something on prior account. Mr. Justice Clifton says: "If the account of the plaintiff alone be stated showing the amount due, an acknowledgment, or admission of such account is sufficient to constitute it an account stated, though the defendant may have counter claims which are not deducted." Ware vs. Manning, 86 Ala. 238.

M. S. Hughes, appellant, vs. H. E. McCullough, respondent. Appeal from Baker county; Hon. Robert Eakin, judge; F. M. Saxton for appellant; William Smith for respondent. Reversed.

This is an action to recover a commission as a real estate broker. The defendant in his answer and as a witness having admitted that he sold the land, the court in effect told the jury to find a verdict in his favor. It follows that the judgment is reversed and a new trial ordered.

**POSSIBILITIES OF CHEHALIS**

FRAZIER WRITES THE RURAL SPIRIT REGARDING THE BLACK PACER.

Some Comment on Pendleton Horses and Their Prospects for the Coming Season.

Frank Frazier writes as follows to the Rural Spirit, of Portland: Pendleton, Or., May 26.—Yours of the 24th to hand, enclosing articles on Chehalis and myself, written by Lowe, I know him personally and talked to him about Chehalis, but never made any such assertions about Chehalis as he stated. Even if I thought Chehalis could go one heat in 2:02, I would be a fool to say he could go three heats in any such time. I know the horse could at one time have gone in 2:03 or better, but don't know about 2:02. I also know that up to the present time O'Neal has not given the horse a chance, and I don't think he can drive him in a race any where near what the horse is capable of doing. I know the horse was outside the money in races he should have won and it was not the horse's fault. There is no horse easier to drive than Chehalis when he is right and driven by one who has horse sense.

As for me going East to drive him there is nothing in it, as I have not been asked to do so and do not think I am likely to, as no one would pay me enough to justify me in going. I don't know that the horse could win in his class, but if I owned him and he was as good as he is capable of being, I should be perfectly willing to take a chance in any field of horses on earth. I don't think there are four horses living that can put him outside the money when he is good and going good. He is a better horse than the public thinks he is.

The letter was in answer to one written by Allen Lowe to the Boston News, asserting that Frazier was to go east to drive Chehalis this season. Frazier ignored the intimation of Lowe that he (Frazier) was not the real owner of Chehalis when he had the handling of the black pacer. As a matter of fact, he did own Chehalis.

**AMERICA ADVANCING.**

American locomotives are hauling English trains, and the English trains and Englishmen are rolling over American steel rails. Our machinery is sold all over the world. A great American remedy, Hostetter's Stomach Bitters, is gradually working its way to all parts of the globe where dyspepsia and indigestion thrive. Like all American products, it is honest, and does just what it claims to do. The most stubborn cases of constipation, biliousness, nervousness, liver and kidney troubles yield to it. It is the most perfect remedy ever devised for weak stomachs. For fifty years it has been famous for its astonishing efficacy. It is a perfectly natural remedy, and there is nothing to equal it. See that a private revenue stamp covers the neck of the bottle.

**He Kept His Leg.**

Twelve years ago J. W. Sullivan, of Hartford, Conn., sprained his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 1½ boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them. Tallman & Co.

Professor Gentry coming.

Gentry's dog and pony show will exhibit here Friday, June 14, afternoon and evening. The large tents with a seating capacity of 2000 will be erected south of the O. R. & N. depots.

Professor Gentry and his admirable company of dogs, ponies and monkeys have for a long time been very popular with our amusement-goers—especially among the younger element.

This season the Gentry entertainment has been greatly enlarged and improved and at present the company consists of 124 dogs, 57 ponies, 25 monkey actors and 3 small elephants.

"Alec and Little Jim, all of which under the careful tuition of Professor Gentry have been educated to give a most wonderful performance.

Among the many acts the professor has added this season, is one that eclipses all of his former efforts and one which he terms the "Night Alarm." It is a fire scene, an every day episode in metropolitan life, in which animal actors take the place of firemen, the dogs and monkeys portraying the parts of life and property savers in a most exciting and amusing manner.

This is but one of the new features, and the program is said to be nearly all original.
