It may be that the claims made for Dr. Pierce's Favorite Prescription seem most to great to women who in years of suffering have found no help in doctors or medicines. But it is to be remembered that no claim is made for "Favorable Prescription" which is not substantiated by thousands of women cured by its use. Its effects are truly wonderful. It wipes out past years of pain and a sponge wipes a slate. Favorite Prescription is the great medicine for women. It establishes regularity, dries up catarrhs, drains the system, heals inflammation and ulceration and cures female weakness. It is the best preparation for maternity, making the baby's advent practically painless.

"When I wrote to you in March asking advice as to what to do for myself," says Mrs. E. M. Grace, "I was expecting to become a mother in June, and was sick all the time. Had been sick for several months. Could not get anything to stay in my stomach, not even water. Had threatened all the time with this one. Had female weakness for several years. My hips, back and lower bowels hurt me all the time. Had numbness from my hips down. Had several hard cramping spells, and was not able to do any work at all. I received your answer in a few days, telling me to take Dr. Pierce's Favorite Prescription. I took three bottles and before I had taken it a week I was better, and before I had taken it a month I was able to help do my work. On the 5th of May my baby was born, and I was only sick three hours, and had an easy time. We praise Dr. Pierce's medicine for it has cured me."
