## SECOND LARGEST PRIMARY WOOL MARKET HERE

Pendleton Now Has 4,231,412 Pounds on Hand.

LARGEST WOOL SCOURER IN WEST

Handiers Tell About the Foli Warehouses and the State of the Traffic at This Point.

Pendleton has in warehouses 4,231,412 pounds of wool.

From figures obtained from F. E. Judd, of the Pendleton wool scouring mills; W. J. Furnish, president of the Pendleton Savings bank; and Fred W. Hendley, of the Independent Warehouse company, the year 1901 is the banner year for Pendleton as regards its prominence as a wool market and a wool shipping center. There had been received at the Pendleton warehouses this season up to and including June 12, the following amounts:

At the Pendleton wool scouring mills, 1,947,812 pounds which have been received for and 20 cars on the tracks awaiting disposal in the different warehouses; at the Furnish warehouse, 1,750,000 pounds, with several cars which have not had their contents transferred; at the Independent warehouse, 1145 sacks, or 376,000 pounds of this year's clip; 495 sacks or 157,000 pounds of clip of 1900, or 533,600 pounds all told. Added together it makes a total of wool thus far received for of 4,231,412. Some of the wool reported at the Furnish warehouse, afterwards sold by Mr. Furnish, on commission, to E. Y. Judd, may be doubled in the above figures, as there was no way to segregate the different amounts.

F. W. Hendley's Talk.

F. W. Hendley had just received 305 sacks, or 112,000 pounds of C. B. Wade's wool from Barnhart station. This was packed under the supervision of Jimmy Hackett, and Mr. Hendley said a finer lot of wool had never come to Pendleton, so far as the manner in which it had been marked and packed was concerned. Each sack was clean and stuffed full, and plainly marked as to which of the 11 different bands it came from. Mr. Hendley has stored in the Independent Warehouse 1200 sacks, 350 pounds to the sack, of wool purchased by E. Y. Judd, the scouring mill warehouses being too full to store it. This wool is included in the 1,947,812 pounds above referred to.

W. J. Furnish's Belief.

F. E. Judd expressed the opinion that Pendleton this year would stand second in the list of cities of the United States as a wool shipping center. The Dalles will remain in the lead. The wool situation is satisfactory and large quantities are being bought and sold at prevailing prices. E. Y. Judd has already purchased 2,500,000 pounds of wool, of which 1,750,000 pounds will come to Pendleton to be scoured.

Of the wool thus far received at the mills, 80 per cent will be scoured as rapidly as possible.

Mr. Furnish said that the indications were that 2,900,000 pounds of wool would pass through his warehouse this year. The receipts thus far have been much heavier than in any previous year. But a small percentage of the wool clipped in Umatilla county is of the 7 to 8-cent kind. That price is quoted for the heavy wools, full of sand.

## THE NEW YORK MARKET

Reported by I. L. Ray & Co., Pendleton, Chicago Board of Trade and New York Stock Exchange Brokers.

New York, June 13.—The wheat market was active today and made one of those moves which looks as though prices had reached a turning point, after a break of six cents at New York and ten cents in Chicago in little more than a week's time. Liverpool closed 5-9 1-8. New York opened at 77c, broke sharply to 76, from which point there was an advance to 77 1/2, closing, 77 3-8.

## THE CUBANS MUST DO MORE

ACCEPTANCE OF PLATT AMENDMENT NOT ENOUGH.

Uncle Sam Demands Further Compliance With His Commands Before Coming Away.

Washington, June 13.—Unqualified acceptance of the Platt amendment by the Cuban constitutional convention does not mean that American soldiers will be immediately withdrawn from the island, nor that the trusteeship of the United States will be ended at once. Before this is effected the convention must outline and adopt the election laws, officers must be chosen and the actual government must be in smooth operation. October 1 has been set by the cabinet members as the earliest possible date on which Cuba may be left to work out her destiny unaided. The selection of the first officers of Cuba will be carefully undertaken. It is intimated at the war department that General Wood will have much to do with the choice of the Cuban leaders.

## ARMY OFFICERS MAKE LIGHT

But the Inspector Had Previously Reported a Shortage.

San Francisco, June 13.—The inspectors who are locating the stolen government supplies this morning found the places handling the same closed or the material spirited away. Abe Abrams has not yet been located. No discoveries have been made public.

Army officials affect to make light of the whole affair. It does not appear that very strenuous efforts are being made to investigate.

Secret Service Agent Hesse states that he reported to Col. Maus several months ago that government supplies were being offered for sale.

No action was taken until this week, when the agitation by the daily papers caused disclosures.

The air is full of rumors that the alleged systematic looting has been going on ever since the war, especially in the transport service where the vessels spent a large part of the time in the repair shops. This is strenuously denied by the army officials.

## GRAND ATHLETIC CARNIVAL

## America Advancing.

American locomotives are hauling English trains, and the English trains and Englishmen are rolling over American steel rails. Our machinery is sold all over the world. A great American remedy, Hostetter's Stomach Bitters, is gradually working its way to all parts of the globe where dyspepsia and indigestion thrive. Like all American products, it is honest, and does just what it claims to do. The most stubborn cases of constipation, biliousness, nervousness, liver and kidney troubles must yield to it. It is the most perfect remedy ever devised for weak stomachs. For fifty years it has been famous for its astonishing efficacy. It is a perfectly natural remedy, and there is nothing to equal it. See that a private revenue stamp covers the neck of the bottle.

## SEVENTEEN AWAITING LYNCHING

Shreveport, La., Mob Thirsts for Negro Blood.

PLANTATION HAND KILLED PLANTER

Wife of the Murderer, Edwards, Confesses He Was the Man—Trouble Expected Today. Edwards Reported to Have Been Burned.

Shreveport, La., June 13.—The murder yesterday of John Foster, a wealthy planter and brother-in-law of Gov. McMillan, of Tennessee, by Prince Edwards, a plantation hand, may be followed today by the wholesale lynching of negroes. A mob of whites has surrounded the Kinnebrew store, Rossier parish, the scene of the trouble, since last night, in which seventeen negroes, said to have been implicated in the crime, are huddled together awaiting their fate.

Edwards is still at large. Some believe he succeeded in fleeing. The mob, which is heavily armed, are impatient for the blood of the seventeen, and it would be no surprise if lynchings took place before the day is over.

The murder was the result of a long standing trouble between the hands and the overseers. Foster believed he could settle the matter by giving it his personal attention and started toward the negro quarters. As he approached a cabin, the fatal shot was fired.

Edwards' wife says he was the murderer.

Report of Edwards' Capture.

Word came from Kinnebrew this morning that Edwards had been captured, and was being taken back to the scene of his crime, where he would be burned at the stake.

Up to 10 o'clock no news of the lynching had been received.

There is no doubt that it is the intention of the mob to kill all those implicated in the murder.

All the highways entering Shreveport this morning bear a warlike appearance.

"Prophet" Smith, a negro, who predicted the disasters, is one of the surrounded men and there is no doubt that he will be put to death.

Two women are among the prisoners, and it is not likely that their lives will be spared.

Y. M. C. A. Jubilee.
