The situation in South Africa is far from satisfactory, just now to Englishmen, says the New York Tribune's London correspondent. It is believed that the Boers are gaining many recruits from the Dutch districts of Cape Colony.

The agents of the Northern Pacific road are authorized to purchase cattle and sheep in Montana and deliver them to farmers on a share basis. The plan will be especially appreciated by the Russian, Swedish and Norwegian homeseekers, who have come in recent years and taken up claims.

Amateur golfers, with some pretensions to a mastery over the ball, have planned a trip to Great Britain, which will extend at all events until August, and maybe later. The party will include W. A. Travis, H. Robertson, J. M. Robertson, Devereaux Emmett and Arden M. Robbins.

John G. Woolley, prohibition candidate for president in 1900, started Sunday on a trip around the world for the purpose of collecting data on the liquor traffic, preparatory to issuing a book on the results of the prohibition movement. Mr. Woolley will sail from San Francisco on the steamer Mariposa June 20. At Honolulu he will endeavor to organize a party.

Officials of the war department are very well pleased with the prospective surrender of General Cailles, the Filipino insurgent leader. Advice received at the department indicated that this would occur soon. Cailles is a man of considerable influence, who, with his backing of some hundred soldiers, has been a menace to the efforts of the artillery authorities to stamp out the rebellion in Luzon.

CHECKED SOUTH.

When the first kern winds of winter begin to be felt in the North, many an invalid is hurried to the sunny clime of the milder climate of the South. The cause is apparent as you look at the hollow cheeks and listless and languid expression of the traveler.

Persons suffering with lung, obstinate cough and severe hemorrhage even, have found the Golden Medical Discovery of climate made unnecessary by the use of Dr. Pierce's Golden Medical Discovery. It strengthens weak lungs, cures obstinate cough, and restores the body with sound, healthy flesh. It contains no alcohol, and is, therefore, a safe remedy for all ages. It is a friend for recommending your friends to use it. It is a friend for preparing such grand remedies for chronic diseases.

Golden Medical Discovery failed to reach a doctor writes I. K. Steiner, M.D., of Berkeley, Orange Co., Calif. "I started on the good word along for the benefit of others who need your medicine. I am a railroad engineer, and about twenty days ago I was laid up in a warm room and stepping out into the cold air gave me bronchitis. I was unable to reach my case and advised me to try a slight rest, but fortunately for me, a friend advised me to try Dr. Pierce's Golden Medical Discovery. I commenced taking your Golden Medical Discovery and by the time I had taken the first bottle I was better, and after taking about four bottles my cough was entirely gone. This medicine is a great relief to me. I have found no necessity for seeking another climate."

PHILIPPINES TO BE THE ISSUE
The Democratic National Chairman Says All This in an Interview Given Out Today.

Washington, June 18.—Senator Jones, chairman of the democratic national committee, has submitted to a formal interview on the issue of the next campaign. He says:

It will be fought on the Philippine question. The supreme court has decided that congress will take to deal with the Philippines. Until then, the question is 'does the constitution follow the flag?' If the republican majority says not, then there will be a day of reckoning at the polls." Senator Jones said that W. J. Bryan would not again be nominated for president. He gave no reasons for this opinion.

PROFITS ON PHILIPS CORN DEAL.

Chicago, June 18.—Checks for approximately \$1,000,000 were sent out by the George H. Phillips company to points from Maine to Mexico. The disbursement was in the nature of a dividend on the celebrated May corn deal, the pool account having been written up to 45 cents, this being the average price which the leader of the campaign has been able to figure out up to this time. These checks go out to about 300 individuals who had an interest in the pool of about 15,000,000 bushels of corn. The lowest man "got in" at \$5 7-8 cents. The average profit so far demonstrated is 8 cents per bushel. This may be increased when the cash corn now on hand in various positions is disposed of, or there may be 10 cent profit. It will depend entirely on the state of the market when the cash corn is sold. The largest individual interest in the pool as \$40,000 and the smallest \$200 bushels.
