Beware of Ointments for Catarrh that Contain Mercury

Contain Mercury as morcury will surely destroy the sense of smell and completely derange the whole sys-tem when entering it through the mucous sur-faces. Such articles should never be used ex-cept on prescriptions from reputable physi-cians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testi-monials free. Sold by all druggists, price 75c, per bottle. pronounced to be the prettiest exhibition of the great national game ever witnessed in Morrow county, and perhaps as fine a contest as has been seen in Eastern Oregon this season. It was no one-sided contest, but a battle

royal between teams of equal strength It was one of those good-natured games, with no jarring on either side and where spectators cheered good

plays, no matter which side made them. Pendleton won the game squarely and fairly, and her team is composed of perfect gentlemen, good clean players, anyone of whom would rather take the worst of it than to raise a roar which might engender un pleasant feelings. The same can be applied to the Heppner boys, and let it be said to the credit of our entire populace that Heppner enjoys victory as much as anyone but she can and does always accept defeat in a graceful and friendly manner also. WALLA WALLA FRUIT INJURED. All Excepting Apples, Hurt by the Late

Frosts.

After a careful investigation of the condition of the fruit crop in this locality, says the Walla Walla Union, men who are best posted have reached the conclusion that damage has been done to almost everything but apples. This is not very good news, but from all that can be ascertained it is a fact nevertheless.

So far as pears are concerned, it is said along the foothills they are safe, crop shows indications of being short largely because of last year's blight. Some of this still shows, but not to any extent yet on account of the moisture. It may develop more and may not, but the bright sanshine will soon tell.

Peaches have been quite badly damaged in some sections by frost and sore over the result of Tuesday's game, "borers." R. Y. Fiinn says he has lost 17 out of 20 young trees.

Many young cherry trees have been damaged also, both by frost and "borers." But apples, so far as can be ascertained, are free from damage and promise a large yield. This is at bas

least satisfactory to fruit growers. As to the berry crop it can be stated

that strawberries are very short, but the raspberry and blackberry crops are in splendid condition. The climatic conditions have had a serious effect upon strawberries, and they are any-
