"I saw an advertisement in the paper of Doctor Pierce's Favorite Prescription. I began the use of it about a year ago. I took five bottles of it, and one bottle of Golden Medical Discovery, and my health is better now than it was for years. I have also recommended these medicines to some of my friends, who suffered from female weakness, and good results have followed."

STEAMER LUCITANIA RUNS ASHORE ON REEF.

Five Hundred Passengers and Crew in Danger.

PASSENGERS ALL SAVED IN BOATS

Officers and Crew Acted Admirably, Preventing the Women and Children From Being Trampled Upon.

St. Johns, N. F., June 26.—The steamer Lucitania, with five hundred passengers aboard, went ashore off Cape Bellard last night. Assistance was dispatched from here as soon as the news of the disaster was received. The Lucitania was bound for Montreal from Liverpool. Cape Bellard is sixty miles south of here.

The Passengers Saved.
St. Johns, June 26.—The vessel ran out of her course in a dense fog and before the error was discovered ran into a reef. The women and children were landed first and then the men had their turn. The crew, at last accounts, were standing by the ship which is thought will be a total loss. Steamers have started from here and hope to save a part of the cargo. Early reports had it that twenty persons were drowned by the capsizing of a boat, but this proves to be untrue.

Passengers Became Panic Stricken.
St. Johns, June 26.—When the vessel struck the five hundred passengers became panic stricken and men, women and children flew up and down the decks like maniacs. The officers and crew behaved admirably and before many of the passengers were out of their berths, the life boats had been manned and everybody was at his station prepared to land the passengers, the latter, however, made a mad rush for the boats and were beaten off only after a desperate struggle with the crew. Order was finally restored, thanks to the fine discipline displayed by the officers and crew, and all on board were safely taken away in the boats.

Protected Women and Children.
St. Johns, June 26.—During the panic following the accident some of the male emigrants, said to be Frenchmen, drew knives and tried to cut their way to the boats. The ship's officers, with drawn pistols, overawed them. The crew drove some of the cowards, who had taken possession of the boats, from their places with handspikes, as on the La Bourgoyne, which went down a few years ago off Sable Island with great loss of life, the men on board of her seeming to give no thought to the women and children, flinging them aside and trampling on them in their first mad rush for the boats. A boat, with twenty aboard is missing. It is believed she is lost in a fog.

EX-CHIEF OF POLICE KILLED
John Considine, Gambler, Kills L. Meredith in Seattle.

Seattle, June 26.—At 5:25 o'clock yesterday afternoon John Considine, one of the proprietors of the Standard gambling house and People's theatre in this city, shot and killed ex-chief of Police W. L. Meredith. The shooting occurred in Guy's drug store on the corner of Second avenue and Yeeler Way, in the heart of the city.

Considine was also wounded slightly in the head by a ball from a double-barrelled shot gun in Meredith's hands. Stories of the shooting are conflicting and it cannot yet be said who was the aggressor. The men had threatened to shoot one another at sight and were both prepared for trouble. One bystander was shot through the arm by a stray bullet.

Meredith had spent the afternoon walking about the streets armed with a "sawed off" double-barrelled shotgun loaded with buckshot in search of his man. In order to avert suspicion he had wrapped the weapon in a large sheet of butcher's paper and tried it with a coil of string. It bore a little resemblance to an instrument of death.

He found Considine in front of the drug store shaking hands with Policeman A. H. Mefford. Thrusting the barrel of the gun over Mefford's shoulder he discharged the weapon full in Considine's face. The paper wrapping prevented him from taking accurate aim and the charge went wild. Considine ran into the store and Meredith followed firing the second barrel just as he entered the door. Then Meredith dropped the gun and drawing his heavy revolver continued the pursuit.

Considine found himself cornered on reaching the rear of the store and turning grappled with his enemy. Tom Considine, the gambler's brother, who had been standing with him in front of the store, had followed Meredith and he also grappled with him. Considine was at once arrested by Constables and two police officers who were in the drug store when the fatal shots were fired. He is now in jail.

BAD WRECK ON WABASH
ENGINE AND NINE CARS PILE UP IN A WASHOUT.

Pan-American Express From Buffalo Narrowly Escapes Same Fate.
Peru, Ind., June 26.—One of the worst wrecks in the history of the state occurred at a point seven miles east of here early this morning on the Wabash, when the westbound express from Buffalo plunged into a washout and rolled down a high embankment. Fourteen passengers were killed and fifty, according to the latest estimates, were injured. The train was running at a high rate of speed to make up for lost time when it ran into the washout. The engine and nine cars went over the embankment and were piled into a shapeless mass. The engine turned over and over but the fireman and engineer miraculously escaped death. Both were badly injured. Ambulances were hurried to the scene from this city and Logansport and the work of rescue was immediately begun.

The Pan-American express from Buffalo, heavily loaded, followed closely behind the unfortunate train, but was warned in time and thus the second and a more disastrous wreck was averted. Most of the killed and injured are Italian immigrants.

Reported Dead But Still Alive.
Logansport, June 26.—Fourteen bodies have been taken from the wreck and two others have died at the hospital. All of the dead are Italians. Both Clough and Miss Muhlig were reported dead are still alive but badly injured.

Led the Work of Rescue.
Logansport, June 26.—It is now positively known that sixteen persons were killed. The only identified dead are: E. P. Clough, express messenger, and Fannie Muhlig, of New York. The coolest man after the wreck was P. W. White, the negro cook for Superintendent Carter of the railroad. Although bruised and cut he set the pace in the work of rescue and pulled many of the unfortunates from the wreck. All of the injured are now in the Wabash hospital.

The Wheat Outlook in France.
Secretary Green of the American chamber of commerce in Paris has investigated the wheat outlook in France. He says the present conditions point to a yield not exceeding 304,000,000 bushels, against 309,000,000 bushels in 1900. Fine weather may increase the yield somewhat, but the stocks on hand are much less than in 1900. With a crop of 309,000,000 bushels France needed to purchase nearly 40,000,000 bushels.

Odd Fellows in Oregon.

FELL A DISTANCE OF FORTY FEET TO SIDEWALK.

J. P. Jones, Well Known Walla Walla Contractor, Killed.

SCAFFOLD GAVE WAY UNDER HIM

Died While Being Taken to the Hospital—Bob Saddler Fell With Him, But Caught on a Board and Saved Himself.

Walla Walla, June 26.—J. P. Jones, the well known contractor, met with a fatal accident this morning while working on the old Day building, corner of Third and Main streets, this city. A scaffold had been erected to repair the cornice of the building and the unfortunate man was at the extreme top of it when the brace gave way, precipitating him to the stone sidewalk below, a distance of forty feet. A fellow workman, Bob Saddler, fell at the same time, but at a point six feet below he caught to a projecting board and saved his life. Mr. Jones died while being taken to the hospital. He leaves a wife, a son and two daughters.

Mr. Jones was Eminent Commander, Washington Commandery, Knights Templar, of Walla Walla.

Mr. Jones was well known in Pendleton, where, when a member of the firm of Henderson & Jones, he constructed several buildings. Norval Jones, one of his sons, was, for a year or more, a salesman in the shoe department of the Peoples Warehouse in Pendleton and left here for Baker City a few months ago where he is occupying a similar position. He will pass through Pendleton on tonight's train for Walla Walla, in response to the sad news of his father's death.

Reports Greatly Exaggerated.
Bluefield, W. Va., June 26.—The story of Sunday's flood in the Elkhorn valley was greatly exaggerated. The loss of life will not exceed fifty or sixty and nearly all of the unfortunates were colored miners or members of their families. The trains are expected to be running through by next Sunday. There is comparatively little lawlessness. The path of the flood is marked by great heaps of debris. Everywhere are wrecked houses, demolished railroad cars, broken and splintered household furniture and occasionally the body of a victim.
