A BROKERAGE FIRM GOES TO THE WALL.
 Marquand & Co., One of the Best Known in the Street.
 FAILURE RUNS INTO THE MILLIONS
 Their Financial Troubles Largely Responsible for the Suspension of the Seventh National Bank of New York.
 New York, June 28.—Henry Marquand & Co., the brokerage firm whose \$1,000,000 loan from the Seventh National bank caused the suspension of that concern yesterday, failed this morning. The firm was one of the most substantial in Wall street and, until quite recently, not a breath of suspicion was raised as to its financial stability. The firm prospered until after it agreed to finance the Pittsburg, Shawsut and Northern railroad, designed to tap some independent coal fields in Western Pennsylvania. The firm is said to have \$6,000,000 tied up in this project, which needs nearly as much more to be carried out successfully. Because of this independent one project, in which Marquand & Co. were engaged, brought on, so it is claimed, the emphy of the coal trust. The failure is a large one and will run up into millions.
 Assignees Appointed.
 Frank Sullivan Smith is assignee. The counsel for Smith when asked for a statement of the firm's affairs, said nothing definite has been determined, but as far as can be judged from the general views of the situation matters look favorable all around.
 Statement Seventh National.
 New York, June 28.—The statement of the condition of the Seventh National bank, which closed its doors to business yesterday, is as follows: Resources, \$5,165,590; Liabilities: Capital stock, \$300,000; surplus, \$150,000; profit and loss account, \$87,794; circulation, \$300,000; deposits, \$4,127,786; total, \$5,165,580. William Cromwell, special counsel for the bank stated that he was engaged in preparing a plan for a complete reorganization of the affairs of the bank.
 In banking circles it was said that the Seventh National bank's heavy debit balance yesterday was the result of the news of the bank's embarrassment on Tuesday being telegraphed throughout the country. Interior institutions having money deposited with the Seventh drew on the bank and these drafts, all coming in at the same time, were too much for the institution.
 Bankers Not Alarmed.
 New York, June 28.—The bankers here do not believe the financial trouble will go any further. With the failure of Marquand & Co., and the Seventh National bank they say the worst is past.
 Bank Director Arrested.
 Leipzig, June 28.—Dr. Gontsch, a director of the defunct Leipziger bank, was arrested this morning. The panic in consequence of the failure and arrest of Manager Exner, of the bank, has abated.

"I lingered between life and death."
 "I think Dr. Pierce's Favorite Prescription and Golden Medical Discovery" the best medicines in the world."
 writes Mrs. Amelia Dougherty, of Kerrigan, Wayne Co., Mo. "I gave birth to a baby last summer and after undergoing a surgical operation for tubercular peritonitis. Deceased was born in Wisconsin in 1860. He was educated at the university of Wisconsin, McCormick theological seminary and Chicago university. He came to Oregon about a year ago for his health.
 "I lingered between life and death."
 After confinement I became very ill, had the best physician that could be got, and he diagnosed my case as uterine trouble tending to dropsy. Medicine seemed to do me no good. I lingered between life and death for quite a while, every day growing weaker until I could not walk across the room. My friends were looking for my death every minute. A friend wrote and told me about Dr. R. V. Pierce and I at once wrote to him for medical advice. He replied immediately, giving me full instructions as to what to do. I at once followed his advice, and when I had taken his medicine about a week I felt a good deal stronger. When I had taken it about one month I felt as strong as I do to-day. I took four bottles of each kind and two vials of "Pleasant Pellets." Many thanks for the medicine. It has permanently cured me."
