J. W. Maloney, county recorder, arrived home from the trip early this week, and says that the newspaper account of the accident is none too thrilling. The party intended to re-main at Canyon City one day, so their plans were not greatly interfered with. They would have had to remain there anyway for a day on account of the accident. The mishap attracted many to the scene, who rendered all possible assistance. For a time the rescuing party looked like a Red Cross hospital corps, so anxious were they to alleviate the sefferings of the distinguished visitors.

MINERS CAN HAVE TIMBER

Congress Passed An Amendment

the Mining Law of 1878. Baker City, June 28.—It has been communicated to the mine operators of Eastern Oregon that the last congress made an amendment to the mining items:

The purpose a good operators of this amendment is to give operators of this amendment is to give operators of the control of effect of this amendment is to give operators of this state the right to cut timber on government land for mining purposes, under certain regulations. Announcement of the fact is very timely, as many of the large operators thought Judge Bellinger's decision in the U. S. district court some time ago, in the case of the United States vs. the Golconda mining company, had left Oregon mines without adequate timber supplies. The Golconda company was fined for cutting timber on ground taken up ostensibly for placer work, but really for its timber. A clamor was at once raised to have this clamor was at once raised to have this state given the same privileges that were accorded Colorado, Nevada, New Mexico, Arizona, Utah, Wyoming, Dakota, Idaho, Montana and California, which has been done by the amendment mentioned.
