A Salem woman, Mrs. Scott Bozorth, who was on the Great Northern train, recently held up by train robbers, hid her money which was in greenbacks, in her hair. Fortunately the robbers did not molest the passengers.

Fraser river canners have made the following offer to the unions: "Fifteen cents a fish if 400,000 cases are packed; 12½ cents if 500,000 cases are packed; 11 cents a fish for a pack of 600,000; 9 cents for a pack of 700,000, and 8 cents for a pack of 800,000 or over."

A cannery for handling clams is to be established at South Bend by H. M. Burpee, of Portland, and associates. The plant will cost in the neighborhood of \$40,000 and the estimated pack for the first season will be about 10,000 cases. As there is a ready market for canned clams throughout the East the venture will probably prove profitable.—Astorian.

He states that the output of the Klondike this season will be between \$25,000,000 and \$30,000,000. Notwithstanding this vast amount of money that passes through Dawson, the town is comparatively speaking, dead as there is less building now than at any other time in the history of the camp.

THE CONSIDINE MURDER CASE

Testimony shows Meredith Was Helpless When Shot.

Seattle, July 10.—The state's evidence in the Considine hearing closed today. Eight witnesses testified and showed the first shot to have been fired by Meredith. Superior Judge Giffin testified that Meredith was helpless when shot. Police Sergeant Heer stated that Considine made threats to him on the chief's life. The defense will introduce twenty-five witnesses, principally to discredit the sixth shot theory. The fight is now for alibi. It is almost certain ball will be given.

STRIKE TROUBLE TO BE ADJUSTED

Meeting Between Labor and Capital Officials Tomorrow.

A VERY IMPORTANT CONFERENCE

End of the Great Industrial Trouble in Sight.

Vice Presidents Flocking to Pittsburg.

Shaffer Confident of Success.

Pittsburg, Pa., July 10.—As the result of the preliminary conference between President Shaffer of the Amalgamated association and Warner Arms, representing the combine's interests, last evening, the Wellsville trouble, which yesterday threatened to obstruct the peaceable settlement of the strike, was not referred to today and everything pointed to an amicable adjustment of all differences at the general conference next Thursday in this city.

Shaffer's Statement.

Pittsburg, Pa., July 10.—"That which I believe will prove the most important conference in history between capital and labor will open in the Hotel Lincoln, Pittsburg, tomorrow morning when the highest officials of the Amalgamated association will meet with high officers in the iron and steel industries to settle grave questions," said Theodore Shaffer.

"Every vice president of the Amalgamated association from Alabama north is hurrying toward Pittsburg tonight on my telegraphic order. I have considered it best that they be called to confer at this time, instead of the regular conferences who have usually met with us to adjust differences."

"As yet I am in ignorance as to who will constitute the committee representing the steel people, the employers. I have been informed that President Charles M. Schwab of the United States Steel corporation will be present in person, but do not know this to be a fact. The laboring man is at present confronted with some peculiar conditions, which I hope will be adjusted at the coming conference."

"I believe the strike will be speedily settled."

The above is the statement made by President Shaffer of the Amalgamated association as he emerged from the Carnegie building with a party of Amalgamated association officials and officers of the American Sheet Steel company. It was at the end of one of the most eventful days of the history of organized labor, made so by the decided stand taken by President Shaffer in the Wellsville case.

Still Holding Out.

Reading, Pa., July 10.—Not a single Philadelphia and Reading striking employe in this city returned to work. The freight handlers are still out, but the prices of many men have been filled. The clerks at the freight depot have asked for an advance, but have received no reply.

Sweeping Injunction.

Cleveland, Ohio, July 10.—Judge Wing of the United States circuit court issued a sweeping injunction against striking iron molders on the application of the Otis Steel company of this city. Commenting on the claim of the workers that their strike had been entirely confined to persuasion, the court said: "Persuasion of itself, long continued, may become a nuisance and unlawful."

Trains Collide.

Marshall, Mo., July 10.—The last Chicago and Alton passenger train from Chicago collided here early this morning with a freight. Two passengers are reported killed, and twenty-five injured.

Reports from the scene of the wreck, which occurred three miles from Norton, the first station west of here, are conflicting. One says six are dead others say nine.

Three passengers, two engineers, one conductor and a baggage-master were killed in the collision of a freight train with the Chicago and Alton passenger train, near Norton this morning. The passenger carried many Epworth Leaguers on their way to San Francisco. Thirty passengers were injured. The passenger coaches caught fire and were burned this morning.

Minneapolis, July 10.—A special to the Times from Great Falls, Mont., says: "In a deep canyon, about 60 miles north of Helena and five miles north of the Missouri river, Sheriff Grigg has at last cornered the Great Northern robbers. The canyon is a veritable fortress, and it is full of caves where the robbers can hide and keep an entire army at bay if need be."

Dallas, Texas, July 10.—A severe gulf storm is raging in Galveston. Thus far no lives are reported lost, but there is consternation among the inhabitants. The water is reported to be over half of the island. Many of the inhabitants were hurrying to the mainland last night and the remainder are quartered in the upper parts of the city in the stronger buildings. Considerable property is reported lost or damaged. Telegraphic communication is badly interrupted. A bulletin reported Port Lavaca, on Lavaca bay, destroyed by the gulf storm. No details of the loss of life is given, but it is feared it will be heavy. Wire communication to that part of the coast is entirely cut off.

Condition of People on Kiowa and Comanche Lands Unfavorable—Two Oklahoma Land Offices Crowded.

El Reno, Oklahoma, July 10.—Registration for applicants for lands in the Kiowa and Comanche reservations began this morning, several thousand were in line when the registration office opened. The situation here as a result of the influx of homeseekers is becoming serious. Ice and water famine is threatened, the food supply is short and scores of people are forced to sleep in the streets. The other place of registration is Fort Sill, a much smaller place than El Reno, and the conditions there may become worse than they are here.

DEFENDER THE BETTER BOAT

With a Bad Start She Passes the Constitution and Independence.

Bronx, N. Y., July 10.—Wind and water again favored the Constitution in today's race. The oft-repeated rumor that the Independence was leaking badly was confirmed today. During all of her races she sailed in a water-logged condition. Her plates were sprung during the trip from Boston. The course today was fifteen miles to windward and return. The start was made at 12:40 o'clock, with the Independence leading, Constitution second and Columbia third. In a half hour's sail, the Constitution was slightly in the lead.

BRITISH ROWERS ASTOUNDED

Fippant Remark of a Pennsylvanian Causes Breach.

London, July 10.—Both Americans and British have been congratulating themselves on the fact that the Henley regatta passed off without international friction of any kind. These congratulations were premature. At the banquet one of the American crew said he wished to say that their treatment at Henley was splendid. They had found all arrangements in regard to races perfectly fair, "contrary to what they had been told." The British rowers were dumfounded. The leaders are bitterly indignant and say they will not row against the Pennsylvanians again.

Christian Endeavorers.

Cincinnati, July 10.—The twentieth annual convention of the Christian Endeavorers, which comes to a close today, is pronounced one of the most successful in the history of the organization. The session this morning was devoted to a discussion of the methods which have made the organization a success. The afternoon will be given over to mission workers. In the evening a farewell meeting will be held.

Pursuers Starving.

London, July 10.—The Times publishes the following, dated June 28, from Geribogy, in the Somali country: "The Abyssinian army campaigning against the Mad Mullah has failed to find him.
