LA GRANDE, 19; FONTELLA, 18

Thursday's Baseball Game at La Grande Was a Corker. The Fontella baseball team of Portland played its opening game at La Grande on Tuesday, July 9, and lost by the score of 19 to 18, ten innings being required. The Chronicle says that the game was a corker, notwithstanding the score.

Whitehouse is a good little pitcher, but he was up against the real thing. It is to his credit, however, that he took his bumps like a gentleman. The high wind, which filled the infielders' eyes with dust, and a very rough diamond were responsible for the majority of the errors made, 13 of the 18 being charged to the two short stops and third baseman. There were many pretty plays and the hitting was terrific.

The errors were even, nine on each side. Waters struck out 4 and gave 7 bases on balls; Whitehouse struck out 8, gave 1 base on balls and hit two men with pitched ball. R. Parrott made a home run; three-base hits, Eaton, Almslie and Fay; two base hits, Castner, Ray, Mitchell, O. Parrott, Almslie 2. Earned runs, La Grande 5; Fontella 3.

The game between the same teams on Wednesday, July 10, resulted in another victory for La Grande by the score of 19 to 11. PERSONAL MENTION. Tom Johnson is in the city from Walla Walla, Idaho.

Will Penland, the youngster, who had one of his legs broken a few weeks ago by being run over by a wagon loaded with hay, is improving satisfactorily and will be taken out to the farm on Tuesday, July 16.

George Utt, sr., aged 73 years, who had his left leg broken by an accident at Pilot Rock on Sunday, June 30, is a patient at the Pendleton sanitarium and is recovering as rapidly as could have been expected. The usual length of time for recovery from a fracture of that kind is six weeks, so it will be about five weeks before Mr. Utt will be able to walk around to any great extent, even with the aid of crutches.

Telegraphing to Mars. The experiments in wireless telegraphy have met with such success that we can soon hold communication with our planetary neighbors. Science made wonderful strides in the last half of the 19th century, and probably will advance further in the next few years. There is one thing however, that science cannot improve upon, that is, the human stomach. Stomach Bitters. It is the best remedy in the world for stomach, liver and bowel complaints. Fifty years of cures stand back of it, and a fair trial will convince you it has no equal as a cure for indigestion, dyspepsia, constipation, biliousness or liver and kidney trouble. It also prevents malaria, fever and ague. Be sure to have the Bitters always on hand, and thus avoid any serious illness.

Think About It. If you will only think it over you will go to see Martin when you want to buy groceries. His motto is "best goods at lowest prices." His stock is very large and well selected. "Nerve Waste." One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer of San Francisco, now in its fifth thousand. The work of an experienced and reputable physician is in agreeable contrast to the vast sum of false advertising which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity. It is endorsed by both the religious and secular press. The Chicago Advance says: "A person of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment." The book is \$1.00 by mail postpaid. One of the most interesting chapters—chapter 22, on Nerves and Nerve Tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, THE PACIFIC PUBLISHING CO., Box 206, San Francisco.
