Rail Road Men

In all departments of active service in need of the readiness of mind and promptness of action which depend on a healthy nervous system. Let a railroad man be "rattled," and every life depending on him is in danger. A great many railroad men have found in Dr. Pierce's Golden Medical Discovery a valuable tonic for the overstrained nervous system. It builds up the body, purifies the blood, nourishes the nerves, and induces a healthy appetite and refreshing sleep.

I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me; could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery and the 'Pellets' and improved from the start. After taking twelve bottles of the 'Discovery' was able to do light work, and have been improving ever since."

LIKE HISTORIC HOMESTEAD

Workers in the Billion-Dollar Steel Trust Are Out.

SEVENTY-FIVE THOUSAND AFFECTED

Jubilant at Headquarters of Men—Question of Unionism and Not of Wages. Shaffer is Confident.

Pittsburg, Pa., July 15.—What promises to be the greatest labor war in the history of American industries went into effect this morning with a strike of the steel workers in three big branches of the billion dollar steel trust. These are the American Steel company with 28,000 men, the American Steel Hoop company with 24,000 men, and the American Tin Plate company with 23,000. Thus, at the outset, 75,000 are affected, and should the strike extend to all other plants of the combine a quarter of a million workers would be idle. Around the headquarters of the Amalgamated association a general air of jubilation is noticed. With but one possible exception all of the men ordered out on a strike Saturday obeyed the call. President Shaffer is confident that the Amalgamated association will make such a strong showing on this preliminary suspension of work that a general strike of all the mills in the United States belonging to the steel corporation will not be necessary. This strike bears a resemblance to the historic Homestead strike in that unionism and not wages is the question at issue. The association insists upon unionizing all plants of the three companies in question, but the manufacturers refuse to grant this demand.

Shaffer Complacent. Pittsburg, July 15.—President Shaffer is resting on his oars today and announces he will make no new move for a day or two. He says his plans are laid for the future, but the time for making them known has not arrived. It is intimated the men employed by the National and Federal companies would be called out before many days, if it was found necessary. Shaffer said the association is stronger financially now than it had been for years. Tinplate men have had an unusually prosperous season and they are thought to be practically independent, therefore will not have to share in the benefit fund for some time at least.

Will Fight to a Finish. Pittsburg, July 15.—This morning Secretary Williams of the Amalgamated association told of the statement made by one of trust's representatives at last week's conference. This man said it was the object of the manufacturers to keep the balance of power in its own hands, and said if the demand of the Amalgamated association was not met, the labor organization would be supreme as regards labor matters in United States, and that is the one thing the trusts wished to avoid, and while willing to concede a part of the Amalgamated association demands, it would fight the matter to a finish rather than to recognize the association in all the mills.

Machinists at Work. Cincinnati, July 15.—The striking machinists in nearly sixty shops in Cincinnati and vicinity returned to work today. Although thousands are still out, having decided to fight for the nine-hour day to a finish.

WAR BETWEEN RUSS AND JAP

Russia Enlisting 300,000 Men—Activity in Army and Navy. London, July 15.—Fragmentary dispatches from St. Petersburg tell of unusual activity in Russian army and navy circles. The czar, according to these dispatches, has ordered the enlistment of 300,000 men for the army and navy, and at the navy station work is being pushed night and day. A St. Petersburg news agency says this activity is caused by imminence of war with Japan, and that Russian railroads have been ordered to hold themselves in readiness to transport troops on four hours' notice.

Excitement on the Board. Chicago, July 15.—More excitement than usual characterized the last days of the big Phillips deal at the opening of the board of trade this morning. The report of damage to crops and lack of rain in growing sections started a mad scramble to buy soon as the market opened and prices went up with a rush. Corn jumped from 50 1/2 to 52, oats from 31 to 32 and wheat from 67 1/2 to 68 1/2. Trading at the advance was enormous.

INSURANCE MEN IN TOWN

They Went to Bingham Springs on an Outing, Sunday, July 14. The following special agents, chaperoned by Lee Moorhouse of this city, had their fifth annual outing at Bingham Springs on Sunday, July 14: Frank L. Hunter, representing the Northern and London Insurance companies; W. A. Thompson, the Merchants' Insurance company; Chas. K. Thompson, the German American company; Joseph Wane, the Phoenix of Hartford Ins. Co.; O. R. Indahl, the London and Lancashire and Orient Ins. Co.

The outing to Bingham Springs has become a time honored custom by the insurance men who visit Pendleton yearly and they feel as though their visit would not be complete if they omitted this annual pilgrimage to Bingham. The fire insurance losses throughout the country have been so great and this coupled with the sickness of several of the boys has somewhat reduced their number, but what they lacked in quantity they made up in hilarity, which was largely due to the effervescent wit of Max Thompson.

The party left Pendleton Saturday evening, remaining over night at the springs and after spending a very pleasant Sunday, returned home on the 10:40 train Sunday evening.

The Sea, the Sea, the Open Sea. It costs but \$10 to go down to the seaside and return, from Pendleton. This is by far the lowest rate ever in effect from east of the Cascade mountains. The trip is a most delightful one, either to Long Beach or Olatsop. Tickets sold any day and are good until September 15. Call at the O. R. & N. ticket office for descriptive folders and maps.

The piles that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. Tallman & Co.

WEARY OF THE SOUTH AFRICAN WAR

Bitterness Between Outlanders and Capitalists—Outlands Say They Will Not Give Up Their Rites.

Manchester, July 15.—The Guardian says the reason the government is anxious to conclude the South African war is the bitterness arising between the bulk of the outlanders and capitalists. The former declare that Johannesburg, after the war, will not be run like Kimberly, with black labor. The question of disarmament of the outlanders makes the movement critical. The outlanders say they will not give up their rites.
