The St. Joe store has adopted a plan that will be greatly appreciated by the public and might be followed with profit by others. Mining interests are attracting attention of Seattle Press.

It would seem from reports that mining men on the sound are not all flocking to the Klondike. Many of them are becoming interested in Eastern Oregon. A. W. Anderson of Seattle made a few locations in Sumpter a few years ago and induced others to become interested with him. He is enthusiastic over his holdings. To a Times reporter he said: "The beauty of mining in Oregon is that work can be done winter or summer and there is an abundance of timber for mining purposes. It is also convenient to rail transportation, and mining can be carried on at a minimum cost. So far as I am able to learn all of the ledges in that country improve in value with depth."

TAKEN TO THE ASYLUM

Walter Clark, of Milton, Adjudged insane on Saturday afternoon.

Walter Clark, aged 21 years, who was brought down from his home on Saturday, June 13, by Deputy Sheriff Joe Blackley, was adjudged insane that same afternoon and taken to Salem the following day by the same deputy. Walter Clark is the son of John M. Clark, of Escwator, and this is the first time he has given any evidence of being of unsound mind. His desire is to run away from home, and he has been acting in that way for more than a week. He keeps telling those within his hearing that he wants "to go to jail to be with Bob Ferguson." Justice of the Peace Fitz Gerald handled the case and issued the commitment in the absence of County Judge Hartman.

HOSTILITY TO UNCLE SAM

Depew on Commercial Competition—Praises Newspaper Work.

Senator Chauncey M. Depew, now in Paris, is quoted in a Journal and Advertiser dispatch as saying:

"The basis of future wars is commercial competition. Commercial competition excites the passions as competitive progress in other departments. Germany is now our most hostile competitor. The conclusion is obvious:

"The issue is to be fought out on the sea; the newspapers that are advocating a mighty navy are doing most patriotic work."

"Continental Europe entertains hostility against the United States. England does not, but we do not reciprocate her sympathetic feeling. Notwithstanding commercial competition, all classes believe that if the country were in jeopardy we would come to its assistance."

"France will not become hostile, for most of her products are consumed by her own people. Austria seeks a market for her surplus and is influenced by Germany. Italy will stand with her allies. Our difficulty with Russia will be settled by our administration."

"The hostility against us in the various countries of continental Europe differs only in degree. Nevertheless an industrial alliance against us is impossible. The countries could not agree as to percentages. We are their best customer and could retaliate."

RECOGNITION CASE OF KILLING.

Copeland, Slayer of Rogers, Defaulter and Refugee.

Ned Hartley Copeland, who shot and killed A. P. Rogers on a Union Pacific train near Lawlins, Wyo., was a trustee of the Union Pacific National bank of Omaha for 10 years prior to August, 1899. He left the city at that time, ostensibly for a summer vacation and visit to the Eastern states. At the bank Copeland was designated as the B. & M. teller, he having charge of the deposits on the Burlington and Missouri railroad. A month after his departure the Burlington account at the bank showed a shortage of \$10,000. Half of this amount was made good by Copeland's brother-in-law and the remainder by his bondsmen. The bond company acting as his surety has been looking for Copeland ever since the shortage was discovered, but has been unable to locate him. Copeland was recently heard from on the Pacific coast through a fraternal body with which he was connected and was being traced by a detective agency. His victim, A. P. Rogers was in the employ of Swift & Co. in transporting poultry from St. Joseph to San Francisco.
