"Pain in the head and back" is a form of suffering with which so many women are familiar. Often this pain is associated with nervousness, sleeplessness and loss of appetite. The cause of such suffering is generally to be traced to derangement of the womanly function, or a diseased condition of the delicate womanly organs.

In such cases the action of Dr. Pierce's Favorite Prescription is marvelous in the prompt relief of pain and permanent cure of disease. It regulates the periodic function, dries disagreeable drains, heals inflammation and ulceration, and cures female weakness. It cures when all other means have been tried in vain.

When I received your letter, telling me what to do, I purchased a bottle of your Favorite Prescription and followed your advice. I have taken ten bottles in all, also five vials of the Pleasant Pellets. I am now regular after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I thank you for my recovery."

THE INDUSTRIAL TROUBLE GROWS

Sheet Tin and Hoop Mill Men May Injure the Trust.

ALL EYES ARE TURNED ON MOMESSEN

No Change at Union Iron Works—Scranton Firemen Will Probably Join the Army. No Arbitration in Sight.

Pittsburg, Pa., July 16.—Developments in the sheet tin and hoop mill workers' strike now depend wholly upon the situation at Momesen, Pa., and the possible action of the Platerworkers' Protective association, which is composed of men who finish untinned plates. The Momesen mill is the only tinplate mill not tied up. If the work of organization there progresses and the plant is tied up it will be a serious blow to the trust.

Scranton, Pa., July 16.—Efforts of the municipal league and local merchants to arbitrate the machinists' strike have failed. Henry T. Scott, speaking on behalf of the Platerworkers' association, absolutely refused to consider any proposition looking toward arbitration. The strike will be indefinitely extended. The machinists state that but few desertions have occurred from the ranks of strikers.

Scranton, Pa., July 16.—There now seems no doubt the mine firemen will strike this evening, as the bosses have practically declared they will not grant the men's demand. The widespread effect of the probable tieup of the anthracite mines is beginning to make itself felt in business circles.

Scranton, Pa., July 16.—In accordance with their promise, unless their demands were granted, the stationary mine firemen refused to go to work this morning, and in consequence nearly all the mines are shut down today and from 25 to 28 thousand men are out of work. While miners and breaker employees are not interested, they were necessarily forced out by the strike of the mines throughout the Scranton district are expected to go out this evening.

THE COUNTESS A SHOOTER. Takes a Shot at Baudin, But Intended to Kill Deliaase.

Paris, July 16.—A Polish woman tried to assassinate the minister of public works, Baudin, today. She fired at him, but the bullet missed the mark.

Soon after the arrest the woman was identified as Countess Olisewska. She withdrew her first statement and candidly admitted to the shooting, but declared it was the minister of foreign affairs, Deliaase, whom she wished to shoot. For a time the countess was given financial assistance by some of the foreign office officials, but when this charity became exhausted she created a scene, caused a scandal and was thenceforth forbidden to the ministry offices. She vowed vengeance and her act today proved was the result of this vow.
