WHEAT AND WOOL MARKET

Heavy Trading in Oregon Wools in the East at Pull Prices Eastern Livestock Prices.

Pendleton, July 18.—The opening sales of new wheat for the crop of 1901 have been made at 44 cents, with a tendency toward better proces. This is about one cent per bushel less than the opening sales one year ago. Had the wheat been brought to the local mills to days or two weeks support the open. 10 days or two weeks sooner, the open-ing price would have been less, owing to the bear feeling at Chicago, New York and in foreign markets, Since then the drought in the middle states has caused a substantial advance both at Chicago and New York. On Monday, July 15, wheat was as low as 71½ in New York, September delivery. Today it is 1½c better than that. Corn has felt the drought more than wheat with the result that it is soaring, being worth 54c and better in New York today.

Local Barley Crop.

There has been practically no new barley brought to the local mills and breweries this season. The price quoted is 60 per hundred weight.

Boston, July 18.—The American Woul and Cotton Reporter says in its issue today: The wool market is Patterson, who played shortstop for stronger and more active. The increased business has been very unevenly distributed, however, a half dozen houses having transacted the bulk of the business. The demand has been where he has signed chiefly for territory and Oregon wools although an interest has been mani-fested in fleeces, all of which have been moved at full prices. The trend of the market on fine stocks is towards a higher level and a better inquiry is noted for medium stock. Some dealers report that it is impossible to get higher prices, but on fine wools better prices certainly have been obtained than could have been secured two or three weeks ago. From the lowest point touched in the past year, there has from 2 to 4 cents per coured pound, or say 5 to 10 per cent. The sales for the week in Boston amount to 6,780,000 pounds domestic and 140,000 pounds foreign, making a

total of 6,920,000 against a total of 3,-882,700 pounds for the previous week and a total of 1,663,000 pounds for the corresponding week last year. The receipts of wool in Boston this week amounted to 29,242 bales, against 14,-543 bales last week and 17,245 bales last year.

very few sales can be recorded. In-Inand fall-sown grain is being harvested at all the principal points in the Northwest. Returns to hand so far show that the quality is excellent, and some very large yields have been noted. Farmers that have wheat on hand from the previous crops are pay-ing very little attention to the sale of the same. Prices here show no change from previous week. The cargo mar ket is dull and freight market very the present season will be a repeti-tion of several years ago, when ex-porters used a large number of steam-ers for wheat loading. There has been Portland, Tacoma and San Francisco, and it is rather difficult to say where they will be loaded. In the meantime exporters are paying more attention to carriers than to buying wheat, and the ontlook is that freights will go higher; if this should be the case, wheat will go lower, unless the cargo market at London advances. We quote: Club wheat, 54 to 55c per bushel; bluestem,

SOME BASEBALL DISCUSSION

Proposed League of La Grande, Baker, Walla Walla and Pendleton. The question now agitating the 'fans' of four cities is the proposition to form a baseball gleague composed of clubs from La Grande, Baker City, Walla Walla and Pendleton. The matter has come up in several different forms. The Baker City papers stated that George L. Baker, manager of the new opera house there and of the Frazer in Pendleton, was talking it up. The La Grande manager telephoned to Ex-Manager Rader to see what could be done. There has been no plan sugtested as yet that would place such a tioned were to decide to do so.
