A further extension of time has been granted brewers, by the United States internal revenue department, in which to begin the cancellation of beer stamps by perforation. The time was first extended from July 1 to August 1, and now it has been extended to September 1. The reason for this extension of time is that brewers are unable to get the perforation stamps sooner.

THE STRIKE MAY SOON BE SETTLED

Confidence on Wall Street is Apparent.

A CONFERENCE HAS BEEN HELD

President Shaffer Met With J. P. Morgan and Then Refused to Talk About the Matter.

New York, July 27.—An air of confidence that the steel strike would soon be settled prevailed in Wall street today. Those who profess to have advance information declare that secret negotiations to that end are now in progress.

President Schwab, of the steel corporation, visited J. P. Morgan at the latter's office and a brief conference ensued. Schwab refused to talk when he left the office.

Settlement for Frisco.

San Francisco, July 27.—There is little change in the strike situation. More teams are being employed than at any time during the week. Scott Hollis has conferred with the striking machinists at the Union Iron works since noon. It is understood that concessions will be made on both sides and probably the strike will be declared off next week.

THEY FAILED TO STRIKE

Two Mills Were Expected to Close This Morning.

McKeesport, Pa., July 27.—Contrary to expectation, the employees of the Boston Iron & Steel Co. and of the National rolling mills, both adjuncts of the steel trust, did not strike this morning.

The situation remains practically unchanged. Considerable excitement was created by a report that the Deeweese wood plant will be placed in operation next week with non-union men.

A MOVE OF IRON WORKERS

Asked Workmen to Sign Contract Repudiating Unions.

Pittsburg, July 27.—The National Tube Works company at McKeesport has made an unexpected move intended to checkmate the Amalgamated association. Their skilled workmen have been asked to sign individual contracts to practically repudiate any labor union, and they have been given but a short time to think it over. It is understood that should they not sign these contracts they will find their positions vacant.

It transpired that late Thursday evening 600 welders of the mills were paid off and taken off into the office of the general superintendent, where they were presented with individual contracts to be signed for at least one year. Some demurred, while others signed the contracts.

This movement of fighting fire with fire carried consternation into the ranks of the strikers. The welders are highly skilled workmen, and with their co-operation the big plant could be closed down. With them in line the plant will probably keep on running as if nothing had happened. It was intimated tonight by the friends of the welders that they would all sign the contracts.

New York, July 27.—William Lewis Gray, charged with being the real murderer of May Ecklund, surrendered to the police here this afternoon. He acknowledged he had told substantial parts of the story set forth in the affidavits, but denied its truth.

COUGH, COUGH,

Night and day, until the strength is entirely exhausted, and that dreaded word "Consumption" begins to be whispered among friends. That's a common story, familiar to the people of every town and village.

There's another story which ought to be as widely known as the story of disease, and that is the story of the cures effected by the use of Dr. Pierce's Golden Medical Discovery. Bronchitis, asthma, obstinate, deep-seated coughs, bleeding of the lungs, and other forms of disease which affect the respiratory organs, are permanently cured by the use of "Golden Medical Discovery."

"Only for Dr. Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Mason, of 111 Bond, Umatilla Co., Wyoming. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both night and day. My friends all thought I had consumption. My wife insisted on my trying Dr. Pierce's Golden Medical Discovery—which I did. I have taken four bottles and am now a well man, weighing 28 pounds. Thanks to Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for book in paper covers or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Just as she was cut loose from the ways the vessel was christened by Miss Mary Preble Anderson of Portland, Maine, who broke a bottle of American wine on the prow. WHAT'S THE MATTER WITH OREGON?

"She's All Right," Says T. G. Hailey, Who Has Been in the East.

"Oregonians are always glad to come back home," said T. G. Hailey, who with his family, has been in Iowa and other eastern states. "I certainly am no exception to the rule. Here we have a climate that is just about as near to right, as any that I have seen in my travels. People east from the Rocky mountains have been sweating in a heat combined with humidity that made life almost unendurable, and, in fact, for hundreds, it was absolutely unbearable, for the death rate was frightful."

"All the corn belt, as the newspaper dispatches have told you, are suffering from the effects of the drought. Products are injured, and the farmers will be short in the returns from their year's labors."

Mr. and Mrs. Hailey visited in Ackley, Iowa, and several other eastern states, and were also at the Pan-American exposition in Buffalo.

"I might paraphrase a famous saying, in expressing my views," said Mr. Hailey in conclusion, "and say, give me Oregon or give me death, for certainly Oregon is the most desirable place of residence, all things considered, in all the states in the union."

The future policy of the company is to be determined, and it will be decided whether or not work will be carried on at once.

A number of other wells in that locality are being worked now, and the advice are that a boom is on. It may be that the company will wait the future.
