Radical price concessions on our entire stock of

Summer Dress Goods Waist Materials and Shirt Waists....

We are ready to close out stock of summer dress goods and shirt waists; and the recent warm days are sufficient warning of the all-summer needs. Think of crisp, new and dainty Dimities, Lawns and Burmahs at five cents a yard! It sounds almost incredible, for Dimities were never sold for so little before. Dimities and Lawns never go out of style, and the patterns never get old. Year after year the little figures, the dots and stripes are demanded. Other fabrics change and fade out of date. Not so with the Dimities. You can buy today for next spring, knowing that the patterns you select will be as pretty and proper as if you waited and paid double the price next year.

OLD PEOPLE

Have a charm of their own when they are not weak and feeble, but hale and hearty, enjoying the sports and pleasures of youth though they cannot participate in them. The whole secret of a sturdy old age is this: Keep the stomach and organs of digestion and nutrition in perfect order. The young man who does not think of his stomach will be made to think of it as he grows old. It is the "weak" stomach, incapable of supplying the adequate nutrition for the body, which causes the weakness and feebleness of old age.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and so enables the body to be fully nourished and strengthened by the food which is eaten.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Puppelwell of Burke Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery, and in little 'pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health, and of my age—60 years. 'Love it all to Dr. Pierce's medicines.'"

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

STEEL TRUST IS OBDURATE

The Policy to Stand on Saturday Decision.

AMALGAMATED'S IMPORTANT SESSION

Discretionary Powers to Be Given President Shaffer to Settle the Strike at Final Conference.

New York, July 30.—The steel trust officials continued the policy of silence today, so far as any formal statement on the strike situation is concerned. One point was made clear, however, was that there are to be no negotiations. The terms agreed upon Saturday must stand, or the strike will continue.

CONSIDERING THE STRIKE

Association Officials Began Session This Morning in Pittsburgh.

Pittsburgh, July 30.—A meeting of the Amalgamated association general executive committee to consider the proposed strike settlement began this morning. There is a possibility that an agreement will be reached in the board, but such result is not likely. When the committee met, it placed before President Shaffer the terms upon which the steel corporation will settle the strike and the concessions agreed to by Shaffer at Saturday's conference with the steel officials.

No Action in the Morning.

Pittsburgh, July 30.—The morning session of the committee closed without formal action on the propositions before them. The meeting was marked by animated discussion.

The conference adjourned at 10:30 o'clock but no statement as to progress has been made issued.

Shaffer Given Discretion.

Pittsburgh, July 30.—President Shaffer and Secretary Williams, of the Amalgamated association, will be given discretionary powers to settle the strike at a final conference between the representatives of the steel trust and the Amalgamated. A member of the executive committee made this announcement this morning, adding that such action will be taken some time today.

15,000 STRIKE IN 'FRISCO

City Front Federation Agree to Go Out to Aid Teamsters.

San Francisco, July 30.—The city front federation, representing fourteen unions of fifteen thousand men and boys, including the harbor men of all kinds in San Francisco, Oakland and the bay towns, unanimously voted to strike last night in support of the teamsters. Action was taken only after a refusal by the employers' association to confer with the strikers or to make concessions. The tieup will be complete if the plans are successful. This practically means the closing of the port and the suspension of business in the wholesale and manufacturing districts. Ferryboats are not affected. A coal famine is feared.

They Obeyed Strike Order.

San Francisco, July 30.—With the exception of a very few who have deserted the union the entire membership of the city front association obeyed the general strike order this morning, completely tying up shipping.

The streets of the water front are thronged with strikers, numerous small rows and fights occurring. It is feared that serious trouble will follow any attempt to replace the strikers.

Eight Shots Fired.

San Francisco, July 30.—Roscoe Horn, Wm. Ferguson, colored, non-union teamster, were jeered at while pulling through a crowd of strikers, armed with revolvers and fired eight shots at the crowd. Carl Lynch, an onlooker, was wounded.

London Knows Not of it.

London, July 30.—Nothing is known here of the sailing of the Greek fleet to Crete to annex the island to Greece.

It is known, however, that Greece recently sounded the powers on the matter and that England and Russia evinced their willingness that Greece should annex the island, but the Kaiser objected and there the matter stands.

HE USED CORN KING'S NAME

Big Fraud Attempted—Bankers Asked to Contribute.

Chicago, July 30.—Inquiries from bankers in the middle west reveal a bold fraud undertaken by a fake concern in the name of a well known operator. The parties operating as Phillips and company, of New York, who have flooded the country with confidential circulars to bankers in which the impression is given that the head of the concern is the Chicago corn king, and that he wishes bankers to join him in a September corn pool by contributing \$1000 each to an additional fund of \$2,000,000 which is to be raised. Phillips declares he has no connection with the affair.

THE LATE CORN WAS SAVED

Rains Came in Time to Effect Such a Result.

Washington, July 30.—The weekly crop report says that the rain in the west has been the salvation of the late corn crops.

The recent rains have improved the late corn in portions of Kansas, Nebraska, Oklahoma and Missouri. But early corn was practically ruined before the rains came on.

The Iowa crop suffered less injury than the before mentioned states and rainfall has been copious and well distributed. In the great corn states east of the Mississippi river, excepting over Northern Illinois, the drought and heat have continued with disastrous effects upon corn which is now in a critical condition.

TORE KAISER'S COLORS

International Complications May Arise From the Incident.

New York, July 30.—International complications may follow the action of the Colombian officials in arresting Abel Murrillo on board a steamship sailing the German flag, after tearing the Kaiser's colors off. Murrillo being on board. The steamship officials will lay the matter before the German government and it is expected that the Colombian government will be taken severely to task.

Passengers on the Allegheny report that Abel Murrillo was arrested on the ship at Cartagena and taken ashore by the Colombian authorities. Murrillo protested against his arrest, claiming that he was entitled to the protection of the German flag. Murrillo is said to be a secretary of Gen. Uribe.

The protest of Murrillo was unheeded, however, and a search was made. He was found on deck, but seized the German flag and wrapped it about him. Then he stood forward and cried out:

"I am under the protection of the German flag and you have no right to arrest me!" The officers seized the man and dragged him from the vessel.

Monday over two thousand dollars had been subscribed, and the outlook was that the remainder of the five thousand dollars required would be secured before the end of two weeks.

It is the purpose to build a swimming bath on the river front of large proportions, and to have the water of sufficient depth to permit persons to swim. The bottom will be arranged so that it may be raised and lowered, permitting its use to swimmers of all sizes at different hours. One day will be set apart each week for women and girl bathers. The free bath is expected to decrease the large annual drowning list among small boys of the city.

In it Sampson overruled the instructions from Secretary Long, although he had just called him to order Schley to proceed off Santiago with his whole command leaving one vessel off Cienfuegos.

Kimberly Asks Release.

Washington, July 30.—Admiral Kimberly has asked to be released from service on the Schley court of inquiry on account of illness. What action will be taken on Kimberly's request is not known, but it is likely that Admiral Luce or Admiral Lindsay will be chosen. It was denied at the navy department that Schley has written to the secretary objecting to that portion of the precept which practically accuses him of disobedience of orders. The only letter from Schley is one acknowledging the receipt of the precept and requesting that he might be given permission to consult counsel regarding its terms.
