QUIET COURT HOUSE.

Several Months Business Reflected in the Latest Volume of Business.

Undeniable evidence of the volume of business being done is the status of affairs at the county court house.

WHEAT MARKET IS QUIET

PRICES FOR THE SEASON ARE NOT YET SETTLED.

Wool Business Cleaned Up and Buyers Report Nothing Doing in That Product.

Pendleton, Aug. 1.—August will be the month during which the wheat market will assume definite form. As yet, little dealing in the new crop has been recorded, some being bought by the mills, however. Prices have ranged about 44c for No. 1 club.

Wool business is well cleaned up, buyers being mostly engaged in completing deals made earlier in the season.

The Wheat Supplies. There is great diversity of opinion among produce dealers in London respecting the probable supplies of wheat from Europe and America. The German crop is known to be unusually small and consequently the proposed increase of duties upon imported grain will bear heavily against the industrial class. French crop is reported to be less than last year's. Russian statistics are not trustworthy. American and Canadian crops will determine the course of prices throughout Europe as soon as satisfactory estimates are received.

Wheat in Portland. Portland, Aug. 1.—The Commercial Review in its issue today says of the market: The markets during the past week have been rather quiet, both at tidewater and interior points. The exporting interests have plenty of wheat on hand for present loading and are paying more attention to securing vessels for this season. Some sales have been made during the week by interior grain dealers, but not enough to cause any comment. Harvesting is in full swing all over the country and the yields are very satisfactory. The hot days and cool nights during the week have been of great benefit to spring wheat. The same is ripening rapidly, and it looks now as we will have a larger crop than the one of 1900. It is too early to estimate the amount, as hot winds or rain may do a great deal of damage. Quotations remain stationary for old wheat, and no price has been fixed yet for new, though it looks as if the season will open at about 40 cents in interior points, making wheat here at Portland worth about 53 cents. Present prices are: Club, 55 to 56c; bluestem, 57c per bushel. The prospects of a good crop of wheat in the Willamette valley are very good, and there is no doubt that this celebrated valley will keep up its old reputation as a producer of choice Oregon wheat once more. The crop there will be a large one.

Wheat in San Francisco. San Francisco, Aug. 1.—The spot market here is very dull, principally on account of the strikes, and exporters are not very anxious to buy wheat unless they are positive the same will go to California warehouses and placed there. Farmers are anxious to let go, but as there is no market to buy, everything is very dull. The warehouses are well filled, and the strike has hindered the dispatch of vessels. We quote: Milling, \$1.01 1/2, shipping, 98 3/4c per cental.

Barley—The crop of California barley is very large, but there has been a scarcity of feed in this country and prices are firm. Choice feed is held at 75c, but the general range of values is from 72 1/2c to 73 1/2c. Nothing doing in export, on account of the strike.

Wool in Boston. Boston, Aug. 1.—The wool market has a strong tone, without speculative features. Territory wools still lead sales. Fine medium and fine staple is quoted at 44 to 45c, and the strictly staple article at 46 to 48c. Fleeced wools are quoted firm, but arrivals of new washed fleeces are only moderate as yet. Quotations: Territory, scoured basis—Montana fine, 14 to 16c; scoured, 44 to 46c; fair medium, 14 to 16c; scoured, 42 to 44c; staple, 16 to 17c; scoured, 46 to 48c; Utah, Wyoming and Idaho fine, 13 to 14c; scoured, 44 to 45c; fine medium, 13 to 14c; scoured, 40 to 43c; staple, 15 to 16c; scoured, 46 to 47c.

Australian, scoured basis, spot prices—Combing superfine, 74 to 75c; good, 68 to 70c; average, 65 to 67c.

Wool in Portland. Portland, Aug. 1.—Wool—Valley, 11 to 13c; Eastern Oregon, 8 to 12c; mohair, 20 to 21c per pound.

Skins and Hides. Portland, Aug. 1.—Sheepskins, 15 to 20c; short wool, 25 to 35c; medium wool, 30 to 60c; long wool, 60c to \$1 each.

Hides—Dry hides, No. 1, 16 pounds and upward, 15c; dry kip, No. 1, 5 to 10 pounds, 15c per pound, dry calf No. 1, sound steers, 60 pounds and over, 7 to 8c; do 50 to 60 pounds, 7 to 7 1/2c; do under 50 pounds, 7c; kip, 15 to 30 pounds, 7 to 8c; do veal, 10 to 14 pounds, 7 to 8c; do calf, under 10 pounds, 7c; green (unsalted), 1c per pound; less; culs (bulls, stags, mottled, badly cut, scored, hair-slip, weather-beaten or grubby), one-third less.

Chicago, Aug. 1.—Cattle—15c higher. Good to prime steers, \$5.50 to \$6.50; poor to medium, \$4.50 to \$4.85; stockers and feeders, \$2.40 to \$4.45; cows and heifers, \$2.35 to \$3.55; canners, \$1.40 to \$2.30; bulls, \$2.25 to \$4.50; calves, \$2.50 to \$4.75; Texas steers, \$3 to \$4.50.

Hogs—5 to 10c higher. Mixed and butchers', \$5.45 to \$5.80; light, \$5.90 to \$5.80; bulk of sales, \$5.70 to \$5.95. Sheep—Dull, lower. Good to choice wethers, \$3.50 to \$4.20; fair to choice mixed, \$2.25 to \$3.75; Western sheep, \$3.25 to \$3.90; yearlings, \$3.75 to \$4.50; native lambs, \$2 to \$5.25; Western lambs, \$4.30 to \$5.25.

Chicago Produce Prices. Chicago, Aug. 1.—"Though the drought has been broken," says the Post, the woeful effect of the agricultural situation is now being brought home to Chicago and other cities as well. Prices of vegetables average double what they were a year ago. Poultry and veal come in deteriorated to an extent that has caused a material falling off in the demand. Eggs arrive with an excessively large percentage of loss. So seriously has the fruit crop suffered that for canning purposes

IS LIKE THE NILE VALLEY

LANDS NEAR THE BAILEY DITCH, BELOW UNATILLA. Waters Used in Irrigation Bring Down Alluvial Deposits, as Valuable Fertilizer.

F. B. Holbrook, manager of the ditch company that is at work to make the old Bailey lands productive, has discovered some very interesting facts regarding the character of the soil at that point. He has had it analyzed, and receives from the analyst the pleasing return that it is of a kind with the soil of the famous French vineyards, which produce the most wonderful grapes in the world. Furthermore, he has discovered that the waters coming down the ditch, draining the levels higher up towards and in the mountains, like the Nile valley, are so turbid with alluvial deposits that when they have been put upon the lands, they leave a thick coating of richest fertilizers. This is true to such an extent that frequently after irrigation, the alluvial deposit serves as a lining to prevent the next flow of water from penetrating the surface, and there must be done the work of stirring it up in order that the waters may perform their functions.

Based upon this information, Mr. Holbrook proposes to undertake the culture of grapes, and hopes before long to have growing there crops of fine grapes as come from any vineyards on the coast.

The ditch has been rebuilt, and now runs much higher up the plain than formerly. This adds many thousands acres to the irrigable tracts, and thus materially enhances the value of the enterprise.

He is now arranging the affairs of the company to put into effect plans for the proper handling of the lands, and will soon have families settled there for the purpose of beginning the raising of grapes, berries, melons and other products for which a quick market is available.

It will be the policy to raise those things which are now shipped from other states into Oregon.

Associated with him is J. Thorburn Rose of Portland, well known throughout Oregon as connected with several reputable financial houses.

Mr. Holbrook contemplates removing his family from Portland to Pendleton, here making his home permanently.

Terrible Conditions in India. The depopulation of India through famine seems to be assuming alarming proportions. It is estimated that over 5,000,000 persons in India have died, since 1896, from causes directly due to the famine. Famine is a terrible thing and proves conclusively that food is essential to the body. Yet it is not so much a question of how much food is eaten as how well it is digested. To insure perfect digestion and obtain the greatest amount of nourishment from your food, take Hostetter's Stomach Bitters. This is the old reliable standard medicine for the cure of stomach, liver, kidney and bowel disorders. It promotes appetite, cures dyspepsia, indigestion, constipation, biliousness, and keeps the bowels regular. Do not fail to give it a trial. It never disappoints.
