"Common Sense"

is the motto of the modern woman. The thick soled shoe and the rainy day skirt are witnesses to the wise application of the motto in matters of dress.

But there is no common sense in neglecting women's diseases or in experimenting with other medicines when it is a matter of common knowledge that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries effluvia, relieves inflammation, cures ulceration and cures female weakness.

It is not common sense to seek medical advice of those who are not physicians when Dr. Pierce, not only a doctor, but a specialist in the treatment and cure of diseases of women, offers a consultation by letter free. Write to Dr. Pierce, Buffalo, N. Y.

For 21-cent stamps to pay expense of mailing only you can get free a paper covered copy of Dr. Pierce's Common Sense Medical Adviser. The book contains 1008 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

STRIKERS EXPECT ATTAIN SUCCESS

Confident All Men Will Quit Tomorrow.

LAST WHISTLE SATURDAY EVENING

Will be the Signal for the Amalgamated Men to Stop Work in All Trust Mills.

Pittsburg, Aug. 9.—Officials of the Amalgamated association were confident this morning of the success of the great strike to be inaugurated tomorrow. No hitch in the plans of President Shaffer and his aides has yet occurred. It was hinted that the plan to organize the men of the Carnegie company's mills was successful beyond hope for the organizers. The chance of tying up these plants tomorrow is excellent, and reports from the trust mills in Ohio, Indiana and Illinois are equally encouraging. Every union plan affected by the strike order will close with the last blast of the whistle tomorrow evening, according to the predictions of the Amalgamated officials. Goopers appeared at headquarters early to resume the conference with Shaffer. He refused to make a statement until conclusion of the conference.

Trust Men Arrive. During the morning, Goopers, it is said, was in communication with the officials of the organizations affiliated with the Federation of Labor. V. Preston and William Leeds, trust representatives, have arrived. They deny the visit is for the purpose of securing another conference, but claim they are here for the purpose of filling the places to be made vacant by the Amalgamated men Saturday night.

No attempt was made to start the Painter mills last night. The furnaces indicate nothing is to be done today.

GEORGE CLEMENTS TAKEN

Charged With Helping C. M. Maddy Steal Red Boy Amalgam.

Baker City, Aug. 9.—George Clements, the trusted millman of the Red Boy mine, was arrested this morning for aiding one C. M. Maddy to steal amalgam from the mill. Maddy was found with a small quantity of amalgam two days ago, claiming it was a cleanup. Father tests proved it came from the Red Boy, and inducements were brought to bear upon him for a confession, which he made, implicating Clements. In this confession, Maddy revealed that a conspiracy existed for stealing amalgam from the Red Boy.

Owing to this theft and revelation of a conspiracy following closely upon the holdup of Godfrey & Taber, in an effort to secure the monthly clean-up, it is believed by many that Clements was identified with the highwaymen to some extent at least. It has been suggested that he could have given information as to the time of sending the haul, amount and other facts, which, he, in his confidential position, was able to give.

There is no positive evidence that the conspiracy had such wide scope, but it is apparent that a conspiracy existed for stealing amalgam. The two men were arraigned at Granite and will be taken to Canyon City, with bail fixed at \$2000 each. Clements has a family, and has for a long time been a trusted employe of the mine.

QUEUES OF THE MONGOLIANS

Order Said to Have Come to Chinese to Hire a Barber.

Portland, Aug. 9.—Among the press dispatches from the East this week was one that created a sensation among the Chinese residents here. In brief, the telegram stated that the Chinese Reform Association in New York has issued an order to all members of the society to remove their queues as soon as possible. The Bow Wong Wu, or "Protect the Emperor," as the society is called in Chinese and literally translated, is a strong organization throughout the country and especially in the Northwest where the Chinese are numerous. At the headquarters in this city the leaders of the reformers denied having received any such order from the East and declared that they placed no credit in the press notice. While declaring that they could not cut off their queues and it would be nobody's business, they intimated that they have no intention of so doing as they fail to perceive how that would assist the emperor in any manner.

It is possible that such an order did emanate in the East but has not been transmitted through the mails yet, or that rate has not arrived on the Pacific coast. The more intelligent men among the local reformers state that as far as they are able to comprehend, such a radical order would be of no benefit even if fulfilled. They are now awaiting authentic advice from New York and expect to have a denial or confirmation of the press dispatch within a few days.

Portland, Aug. 9.—The police have been notified that John McDonald confesses in London that he robbed the Western lumber mills here last fall. The police here never heard of McDonald, the self-confessed highwayman. They think it is a scheme to get transportation to this country. December 5, 1900, three masked men held up the Western lumber mills, securing \$4700 in cash, the monthly payroll, when the office was filled with clerks.

The proclamation says British troops in South Africa control the seats of government and the principal towns and railways. Boers who are still fighting have lost almost all their guns and munitions and are devoid of organization. The proclamation concludes by warning all Boers still in the field that they will be permanently banished from South Africa if they do not surrender by September 15.

L. W. Mount, secretary of the Lewiston inter-state fair and race meeting, has written to Dr. C. J. Whitaker, asking upon what terms the Pendleton cornet band of 20 or 25 pieces could be induced to go there to play for a week. The Lewiston fair is a great one, the second one being given this year. The one last year was a great success. If the Pendleton band could be secured, the Lewiston people will have the pleasure of listening to some good music.

HANGED AS A WIFE MURDERER

Eben L. Boyce Was Executed Today.

OCCURRED IN SEATTLE THIS MORNING

Condemed Man Was Defiant and Declared He Was Being Judicially Murdered.

Seattle, Aug. 9.—Eben L. Boyce was executed today for the murder of his wife.

Boyce was hanged at 7:30 o'clock. He mounted the scaffold defiantly and met death without a tremor, declaring that he was being murdered. Portland, Aug. 9.—Eben L. Boyce made his headquarters here for a number of years. He married his first wife here and also secured a divorce. He was a member of the Portland Military band and was baritone soloist at one exposition. Boyce is accredited with being one of the very best cornetists that ever visited the coast. He could play any score on a cornet without a moment's hesitation, whether it was written for a violin or a bass drum. The murderer joined the Fourteenth infantry band at Vancouver and accompanied that organization to the Philippines. At the expiration of his service he returned to San Francisco and it was there he met and married the woman whom he afterwards slew. Once again he came to Portland, playing in music halls and theaters, for he had no difficulty in securing a position, he was such a first-class musician. While here he was considered somewhat irresponsible, being addicted to drink and going on scores periodically. From Portland Boyce went to Puget Sound and finally to Victoria, where his wife left him on account of his intemperate habits. One night while walking along the street in Tacoma he saw his wife behind a counter in a restaurant and entering, attempted a reconciliation. The woman refused. Boyce then secured a revolver, and returning, shot his wife three times, killing her.

THIS MAN WOULD SHUFFLE

Wished to Take Arsenic and Commit Suicide.

Portland, Aug. 9.—But for the suspicion of a young drug clerk, C. W. Haswell, would now be giving the corner a job, for he attempted to commit suicide by the poison route. Haswell walked into a druggist at Park and Jefferson streets, and, after purchasing a few simple remedies, he said he was suffering from rheumatism and thought he would make an arsenic plaster. An arsenic plaster was something the clerk had never heard of in his studies and he became suspicious, although he now declares he does not know why.

A boy was waiting on Haswell and when about to measure the poison, the head clerk said: "You would better give Mr. Haswell the best grade of arsenic for the plaster," and then he gave the Latin name for prepared chalk. Arsenic and prepared chalk have a close resemblance and cannot be distinguished by one not accustomed to handling the two.

With his package of supposed arsenic, Haswell departed for his farm, three miles west of this city, and that was the last seen of him until he appeared at the druggist again yesterday. The farmer entered the place out of breath and foaming at the mouth from excitement. In frightened tones he declared that he had tried to commit suicide and had swallowed the entire contents of the package. Learning that Haswell had bought arsenic at no other place, the head clerk felt reassured, and giving the supposed dying man a drink of whiskey declared him cured. Haswell does not know of the substitution.

The free swimming bath fund in Portland has reached \$3000. To complete the fund \$2000 more is necessary.
