Deafness Cannot be Cured by local applications, as they cannot reach the deseased portion of the ear. There is only one way to cure deafness, and that is by constitu-tional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbiling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. FURNITURE AND HOUSEHOLD EFFECTS OF W. C. THOMPSON DESTROYED

The Building Was Owned by John Fightner and Was Located on Railroad and-Calvin Streets.

Fire destroyed the residence proper-owned by John Fichtner at the southeast corner of Railroad and Calvin streets on Friday evening, August 9, during the concert given on Court street by the Pendleton cornet band. The alarm was given at about 8:45. Fire companies Nos. 4 and 5 responded, but owing to the character of the building nothing was left but the charred frame.

Valuable Effects Destroyed.

Valuable Effects Destroyed.

The building was occupied as a residence by W. C. Thompson and family, consisting of his wife and three children. How the fire started is an inexplicable mystery. The Thompsons had moved into the house on Thursday, August 8, and had not finished unpacking all their furniture and goods. Mr. and Mrs. Thompson left home at about 8:15 gains to the left home at about 8:15, going to the residence of a neighbor, John Lightfoot, for choir practice. Two daughters remained in the house for a few minutes afterward, with a lighted lamp, but claim that they extinguished it when they left, and that there was no sign of a fire at that time. There had been no fire in the stove for more than six hours. Included in the furniture and effects destroyed were an organ worth \$100, a sewing machine valued at \$70, an oil painting which cost \$65 without the frame, a set of books printed in 1834, which cost \$30, and of course were worth much more than that now, being rare works. One little child's chair, an herrloom in the family for 63 years, which had to be not less than \$500. Bedding, clothing, carpets and clocks were included in the list of lost.

Building Was Insured.

The building was worth something agent. Joe Basier transacts much of ing on every day by stomach, liver Mr. Fichtner's business and keeps his and bowel disorders. The number of seven months ago, and for six months was not insured. In looking over his papers about a month ago, Mr. Basler noticed that the policy had expired, called Mr. Fichtner's attention to it, with the result that the building was No insurance whatever was carried by Mr. Thompson, and the loss will fall heavily upon him not only on account of the money value of the property lost, but because some of it cannot be replaced for love or money Mr. Thompson is a carpenter and has been a resident of Pendleton most of the time for the past two years.
