P. T. Thomas, Sumterville, Ala., "I was suffering from dyspepsia when I commenced taking Kodol Dyspepsia Cure. I took several bottles and can digest anything." Kodol Dyspepsia Cure is the only preparation containing all the natural digestive fluids. It gives weak stomachs entire rest, restoring their natural condition. Tallman & Co.

At bed time I take a pleasant herb drink, the next morning I feel bright and my complexion is better. My doctor says it acts gently on the stomach, liver and kidneys, and is a pleasant laxative. It is made from herbs, and is prepared as easily as tea. It is called Lane's Medicine. Lane's Family Medicine moves the bowels each day. Price 25c and 50c. For sale by Tallman & Co., sole agents.

Gain in Feeding Hay.  
Kabo, Ore., Aug. 12.—To the Editor:—Noticing the comment on feeding alfalfa hay in the Heppner Gazette will give me experience on fattening cattle for market on alfalfa hay alone without grain. Have been feeding for several years and find that the average gain in this vicinity to be about 200 pounds for about five months feeding. I began feeding 30 head steers the 12th of October last which I bought by weight, the average being 917 pounds. In feeding I always make it a practice to keep salt in their troughs. This year I used Spike's condition powder, mixing 8 pounds to 100 pounds salt, sold and weighed the 30 steers on February 23; their average weight was 1240 pounds, making a net gain of 323 pounds, which is a third more gain than on previous years.

Would like to know if anyone can show a larger gain than this on hay alone?  
Can some one inform me what would be good to use when dehorning cattle in fly time? Yours respectfully, FRED W. ANDREWS.  
(The cow editor recommends the use of pine tar in dehorning in fly time.)

St. Helen's Hall Teachers.  
Miss Frances Gage, who has been doing post-graduate work at Smith college during the past winter, will have charge of higher mathematics, astronomy and some other post-graduate courses at Saint Helen's hall during the year 1901-1902. She will have her residence in the Kindergarten Annex and will be in nominal charge of that building. The corps of Saint Helen's hall will be still further strengthened by Miss N. Devereaux, who is a new relative of Miss Hester D. Cannon, the successful head of the primary department. Miss Devereaux has been connected with one of the leading schools of Baltimore and will hold a responsible post on the new faculty.

NAVJO COMPANY PROSPECT  
T. C. Taylor and James H. Bailey inspect the property.  
T. C. Taylor and James H. Bailey of the Navajo Coal and Petroleum Oil company, have returned from an inspection of the property of the company in southwestern Colorado, 100 miles southwest of Florence. The company owns 720 acres of patented land in Archuleta county. They state that every sign is favorable. The report of Professor Lake, state geologist of Colorado, a man with a known reputation, is of such a character to please those interested, and his report is verified by the reports of two other geologists. A man was secured at Florence to select a location for the sinking of the well. This man is practical from the word go, having been engaged in the business near Florence for years. He will make his report to the company within ten days, the report will thereafter be acted upon by the directors and the well will be sunk.

(The cow editor recommends the use of pine tar in dehorning in fly time.)

Two wheat fires are reported in Umatilla county this week thus far. The first occurred on Monday, August 12, between 11 a. m. and 1 p. m., on the farm of William McCormick, near Havana station on the O. R. & N. Mr. McCormick lost between 60 and 70 sacks of grain. The fire is supposed to have been communicated to the wheat by sparks from the threshing outfit of N. H. Cottrell, which passed through the field.

The fire of Tuesday afternoon and evening was much more serious. The grain destroyed amounted to 1300 sacks. It belonged to Charles Watrus and was piled upon his farm near Adams. It was likewise set on fire by sparks from a passing engine.

The McCormick wheat was insured in the National by J. M. Bentley of Pendleton. The Watrus wheat was insured in the National by M. A. Ferguson of Adams. P. L. Gierman, the adjuster of the company, came to Pendleton from Walla Walla Tuesday evening. At Adams he saw the fire and learned that it was insured in his company. He came on to Pendleton and drove up to Adams early this morning to learn the extent of the loss of the insured grain.

PERSONAL MENTION.  
Henry C. Adams of Weston is visitor in Pendleton.  
Miss Nellie Jay has returned home from Meacham.

John F. Robinson has returned from Bingham Springs.  
Uncle Billy Williams is in town from Lehman springs, where he has been the most of the spring and summer.

Frank P. Childers, marshal of La Grande, and D. Donald, of the same village are visitors in Pendleton today.

Edward Eben returned on Tuesday from Lehman springs where he has been for an outing during the past two weeks.  
Henry Heppner came down from Bingham springs this morning, and remained here for a brief visit, en route home to Heppner.

H. L. Stanley came in from Portland, Tuesday with Conductor E. B. Coman. He is taking the place of G. S. Youngman, who is taking a vacation.

Miss Margaret Peters has returned from Portland and Aurora, Oregon. In the latter place she visited with her mother and family, who remained there.

Rev. J. R. Hall and daughter Miss Sadie Hall of Elgin were at the Golden Rule hotel this morning and took the westbound train at 10:30 for Demott's springs, Sherman county.

Lee W. Held, Fred Schmeer and Ed Barr have returned from Lehman springs. They report that practical jokes have been more than usually plentiful during the past ten days.

Frederick Willard, the aged German who had left leg amputated at the county hospital on Tuesday afternoon, rallied from the shock nobly and was reported this afternoon to be getting along nicely.

J. H. Wallace has taken a position with Cleaver Brothers Dry Goods company, being in the dry goods department. Mr. Wallace was for four years with the well known house of Blackman Brothers, in Walla Walla.

F. E. Judd has returned home from Long Beach, Wash., beyond Astoria, where he spent ten days with Mrs. Judd, his children and Miss Roberts, Mrs. Judd's sister. Mr. Judd left them at the beach for a few days longer.

Miss Elizabeth Hamer of Milton and the Misses Luella B. Craig, Edna Montebello and Jennifer McInnon of Weston are guests at the Golden Rule hotel while attending the teacher's examination now in progress at the courthouse.

Miss Harriette Thompson and Master Francis Jackson leave this evening for Bingham springs, to remain during the coming week or ten days. They will be guests of Miss Thompson's aunt, Mrs. John F. Robinson and Mrs. H. F. Johnson, who are now there.

William Smith, a prominent sheep-grower of Arlington, went out to the Cunningham ranch on Tuesday, and selected a number of the famous bucks for his stock farm. He was accompanied by William Colwell, who went out for the purpose of selecting 80 choice bucks to sell to different parties. Mr. Colwell acts as agent for Mr. Cunningham.

Mr. and Mrs. C. E. Roosevelt and child arrived home at 5 o'clock on Tuesday evening, August 12. The last of the summer vacation was over. He visited the Buffalo exposition and bought a stock of goods at New York and Chicago. He was at Milwaukee for a while and in different cities of Iowa. He was returning as regards weather, only experiencing one very warm day, and that while in Chicago.

Miss Eleanor Moorhouse of Walla Walla has left that city for Skagway, Alaska, whether her mother preceded her some time ago. It is understood here that no word has been received from J. O. Moorhouse, her father, who was thought to have gone from Seattle to Skagway last spring, and some uneasiness has been felt by his family lest something unfortunate has happened to him. He was bound for the Lake Atlin mines, where he has some good claims that have already shown paying values when worked.

Col. W. F. Butcher of Baker City is here today. He is en route to Weston, to serve as deputy grand master of the Oregon grand lodge of Masons in the ceremonies of the laying of the corner stone of the new building being erected for the Eastern Oregon state normal school. He leaves tomorrow for Weston, accompanied by Col. J. H. Bailey, the latter being scheduled to deliver an address at the cornerstone laying.

Other prominent Masons are to be present, also many citizens interested in the future of the school. Several Pendleton people will accompany them tomorrow.

St. Helen's Hall Teachers.  
Miss Frances Gage, who has been doing post-graduate work at Smith college during the past winter, will have charge of higher mathematics, astronomy and some other post-graduate courses at Saint Helen's hall during the year 1901-1902. She will have her residence in the Kindergarten Annex and will be in nominal charge of that building. The corps of Saint Helen's hall will be still further strengthened by Miss N. Devereaux, who is a new relative of Miss Hester D. Cannon, the successful head of the primary department. Miss Frances Gage, who has been doing post-graduate work at Smith college during the past winter, will have charge of higher mathematics, astronomy and some other post-graduate courses at Saint Helen's hall during the year 1901-1902. She will have her residence in the Kindergarten Annex and will be in nominal charge of that building. The corps of Saint Helen's hall will be still further strengthened by Miss N. Devereaux, who is a new relative of Miss Hester D. Cannon, the successful head of the primary department. Miss Devereaux has been connected with one of the leading schools of Baltimore and will hold a responsible post on the new faculty.

NAVJO COMPANY PROSPECT  
T. C. Taylor and James H. Bailey inspect the property.  
T. C. Taylor and James H. Bailey of the Navajo Coal and Petroleum Oil company, have returned from an inspection of the property of the company in southwestern Colorado, 100 miles southwest of Florence. The company owns 720 acres of patented land in Archuleta county. They state that every sign is favorable. The report of Professor Lake, state geologist of Colorado, a man with a known reputation, is of such a character to please those interested, and his report is verified by the reports of two other geologists. A man was secured at Florence to select a location for the sinking of the well. This man is practical from the word go, having been engaged in the business near Florence for years. He will make his report to the company within ten days, the report will thereafter be acted upon by the directors and the well will be sunk.

Gain in Feeding Hay.  
Kabo, Ore., Aug. 12.—To the Editor:—Noticing the comment on feeding alfalfa hay in the Heppner Gazette will give me experience on fattening cattle for market on alfalfa hay alone without grain. Have been feeding for several years and find that the average gain in this vicinity to be about 200 pounds for about five months feeding. I began feeding 30 head steers the 12th of October last which I bought by weight, the average being 917 pounds. In feeding I always make it a practice to keep salt in their troughs. This year I used Spike's condition powder, mixing 8 pounds to 100 pounds salt, sold and weighed the 30 steers on February 23; their average weight was 1240 pounds, making a net gain of 323 pounds, which is a third more gain than on previous years.

Would like to know if anyone can show a larger gain than this on hay alone?  
Can some one inform me what would be good to use when dehorning cattle in fly time? Yours respectfully, FRED W. ANDREWS.  
(The cow editor recommends the use of pine tar in dehorning in fly time.)

St. Helen's Hall Teachers.

## BURGLARS PROWLING ABOUT

People Hearing Strange Noises at Night, And Dark Lanterns Useful.

Several people are complaining of the undue familiarity of certain men who are prowling about at night, and in some cases giving indications that they are burglariously inclined. At the home of Ralph Ward, a night or two ago, one of the family heard a noise and saw a man apparently on the roof of the addition to the house, who, when a noise was made within, leaped to the ground and hurried to a carriage that was standing on Alta street and drove rapidly away.

Other cases similar to this have been reported, and the officers are now engaged during the night in looking about with dark lanterns to detect those who may show an inclination to get into any one's house.
