REPORT ON WHEAT CROPS

Wheat is the staple crop of the Pacific Northwest, and its production is of great importance to the region. The following report is based on the latest available statistics and is intended to provide a general overview of the wheat crop in the Pacific Northwest for the year 1901.

The total wheat crop in the Pacific Northwest for the year 1901 is estimated to be 4,500,000 bushels. This is a decrease from the 5,000,000 bushels produced in 1900. The decrease is due to a combination of factors, including a late start to the growing season, a dry spring, and a late harvest.

The wheat crop in the Pacific Northwest is divided into three main classes: hard red winter wheat, soft red winter wheat, and hard red spring wheat. Hard red winter wheat is the most important class, and it accounts for about 60 percent of the total crop. Soft red winter wheat accounts for about 20 percent, and hard red spring wheat accounts for about 20 percent.

The wheat crop in the Pacific Northwest is generally of high quality, and it is well adapted to the climate of the region. The wheat is grown in the valleys and on the slopes of the mountains, and it is irrigated in some of the drier areas.

The wheat crop in the Pacific Northwest is a valuable asset to the region, and it is an important source of food and fiber for the people of the Pacific Northwest. The wheat crop is also an important source of income for the farmers of the Pacific Northwest, and it is a valuable export for the region.

Wheat in the Pacific Northwest.—The wheat crop in the Pacific Northwest is of great importance to the region, and it is a valuable asset to the people of the Pacific Northwest. WHEAT QUOTED 44 TO 45

BLUESTEM COMMANDS JUST NOW A SMALL PREMIUM.

Crop of Umatilla County Now Estimated at 4,500,000 to 6,000,000 Bushels.

Pendleton, Aug. 15.—The price of wheat holds its own and is quoted today at 44 to 45 cents a bushel. Bluestem is a fraction of a cent more than that figure, and may be quoted at 45½ cents for wheat that tests 60 pounds to the bushel or more. As the threshing returns come in the faces of the farmers assume a horizontal rather than a perpendicular shape, as compared with five weeks ago. Then they were predicting all kinds of short crops. Some of the best statisticians in the county then put Umatilla's yield this year at 3,000,000. At present they have changed their views to such an extent that the yield is estimated at all the way from 4,500,000 to 6,000,000.

An Honest Belief.

Those not on the ground can scarcely realize how farmers will estimate their crop at 25 bushels to the acre one day, and six weeks thereafter harvest 40 bushel per acre from the same land. It is easy. Their prediction of a poor crop in a short crop was honest. Had the weather conditions continued unfavorable after their first prediction, the crop of Umatilla county would have been the smallest in years. The wheat looked as though it had been damaged. Cold winds were blowing and there was a lack of moisture. Then came a week of gentle rains and a cessation of chilly winds. The wheat filled out in a phenomenal manner, with the result that the harvest returns give heavy yields, where the predictions had been decidedly pessimistic.

The Price of Barley.

Barley is quoted at 55 to 60c. The high price is paid for the grain delivered at the mills. Exporters cannot afford to pay more than 50 to 55c according to prices quoted at Portland and San Francisco.

Local Produce Market.

Pendleton dealers are paying the following prices for ranch and farm produce:

Butter, 35 to 40c per pound.
Eggs—15c per dozen.
Cucumbers—10c per dozen.
Tomatoes—4c per pound.
String beans—4c per pound.
Water melons—25 to 30c.
Peaches—30 to 70c per box.
Raspberries—10c per dozen.
Chickens—Spring chickens, \$3 per dozen; old hens, \$3.50 per dozen.
New potatoes—\$1.25 per sack of 100 pounds.

Wheat in Portland.

Portland, Aug. 15.—The Commercial Review in its issue today says of the market conditions for the past week: The outlook for complete returns of the harvest is of the best and claims are made for a gigantic crop. It is too early to make a complete estimate, but there is no doubt the crop will be very much larger than any other ever harvested in the Northwest. There has been no new or special features to stimulate our market. The European demand does not appear to be largely stimulated by the cheapness of wheat. If one were to look for facts upon which to base a hope of materially higher prices for wheat in the future, it would be very difficult to find them. They do not exist in the stocks of wheat in store at the beginning of the new crop year. They are not found in the condition of the country nor probable shortage of wheat for consumption in any large section of the globe. Crops of the United States will be very large, fully 700,000,000 bushels. Freight rates cut the most important figure out here. Ships are very scarce. California will have over 1,000,000 tons to export, and freights at present are quoted at 45c, with San Francisco and Tacoma options. The cargo market at Liverpool or London shows no increase, and freights very firm. This keeps our markets down, as we are entirely governed by the English cargo markets. Dealers here are reluctant in making quotations, and prices for club wheat are about 36c per bushel. This is higher than the market warrants; bluestem, 57 to 58c; valley nominal. Very little wheat has been sold, and there will hardly be any free selling until September. Very few ships are due before this, and there is plenty of wheat here on hand for these ships.

Wheat in San Francisco.

San Francisco, Aug. 15.—No complaints are heard of any difficulty being experienced by exporters in securing loading stiffs and a fair average business was done throughout the week. Grain receipts show a steady increase, and sellers were sufficiently numerous to make a fair active movement, and the prospects are that the situation abroad is thoroughly understood by California farmers and that the market will be met by both sides. Prices show no change as previously quoted, viz., 97½c per cental for No. 1 shipping; milling, 95½c to \$1. Speculative dealings cannot be said to show any increased activity, trading being light to easier prices all around.

Wool in Boston.

Boston, Aug. 15.—Manufacturers are buying freely. The market is firm. Territory wools are in strong demand. Choice fine wools are costing 44 to 45c, and fine lots of territory at 44 to 45c. Choice staple wools are quotable at 40 to 45c. Quotations:

Territory, scoured basis—Montana fine, 14 to 16c; scoured, 44 to 45c; fine medium, 14 to 16c; scoured, 42 to 43c; staple, 16 to 17c; scoured, 40 to 41c; Utah, Wyoming and Idaho fine, 13 to 14c; scoured, 40 to 41c; fine medium, 13 to 14c; scoured, 40 to 41c; staple, 15 to 16c; scoured, 40 to 41c.

Australian, scoured basis, spot price—Combining superfine, 74 to 75c; superfine, 71 to 72c; good, 68 to 70c; average, 65 to 67c.

Wool in San Francisco.

San Francisco, Aug. 15.—Wool—Spring—Nevada, 10 to 12c; Eastern Oregon, 10 to 12c; Valley, Oregon, 13 to 14c. Fall—Mountain lambs, 10 to 12c; San Joaquin plains, 6 to 8c; Humboldt and Mendocino, 9 to 11c.

Wool in Portland.

Portland, Aug. 15.—Wool—Valley, 11 to 13c; Eastern Oregon, 8 to 12c; mohair, 20 to 21c per pound.

Skins and Hides.

Portland, Aug. 15.—Sheepskins—Shearings, 15 to 20c; short wool, 25 to 35c; medium wool, 30 to 60c; long wool, 50c to \$1 each.

Hides—Dry hides, No. 1, 16 pounds and upwards, 15c; dry kip, No. 1, 5 to 16 pounds, 15c per pound; dry calf, No. 1, sound steers, 60 pounds and over, 7 to 8c; do 50 to 60 pounds, 7 to 7½c; do, under 50 pounds, 7c; kip, 15 to 20 pounds, 7 to 8c; do calf, 10 to 14 pounds, 7 to 8c; do calf, under 10 pounds, 8c; green (unsalted), 1c per pound less; culls (bulls, stags, mottled, badly cut, scored, half-salted, weather beaten or grubby), one-third less.

Eastern Livestock.

Chicago, Aug. 15.—Cattle—Market, best steady; others weak; good to prime steers, \$5.50 to \$6.25; poor to medium, \$4.10 to \$5.30; stockers and feeders, \$2.25 to \$4; cows and heifers, \$2.10 to \$5.25; canners \$1.50 to \$2.25; bulls \$2.30 to \$4.25; calves, \$2.25 to \$6; Texas steers, \$3 to \$4.60.

Hogs—Left over, 6123; market weak, closing stronger; mixed and butchers, \$5.50 to \$6.12½; good to choice, heavy, \$5.00 to \$6.20; rough, heavy, \$4.45 to \$5.55; light, \$5.40 to \$5.95; bulk of sales \$5.70 to \$5.95.

Sheep—Market generally weak; good to choice, heavy, \$3.65 to \$4.25; fair to choice, mixed, \$3.25 to \$3.75; yearlings, \$3.95 to \$4.40; Western sheep, \$3.25 to \$4.35; Western lambs, \$4.30 to \$5.55.

Omaha, Aug. 15.—Cattle—Market, best steady, others slow; native beef steers, \$4.25 to \$5.85; Western steers, \$3.70 to \$4.60; Texas steers, \$3.50 to \$4.30; cows and heifers, \$1.50 to \$2.75; canners, \$1.25 to \$2.65; stockers and feeders, \$2.50 to \$6.00; calves, \$3 to \$5; bulls and stags, \$2.25 to \$4.45.

Hogs—Market, strong to be higher; heavy, \$5.75 to \$6.00; mixed, \$5.70 to \$5.75; light, \$5.30 to \$5.75; bulk of sales, \$5.70 to \$5.80.

Sheep—Market, slow; wethers, \$3 to \$3.65; ewes, \$2.25 to \$3; common and stock sheep, \$2.25 to \$2.90; lambs, \$2.75 to \$5.

ONE VERY LARGE YIELD

cassey Stewart Experiences a Pleasant Surprise After Threshing.

Tassey Stewart, living at Helix, has just threshed a 160-acre field of wheat that is located at the head of Vancycle canyon, due north from Helix four miles, and the amount received is a pleasant surprise to the owner. Mr. Stewart had thought the land was becoming somewhat sterile, and would yield only 10 bushels a year. He went to the task of threshing the grain with little enthusiasm, and his astonishment may be understood when the registered quantity of wheat pouring from the machine was found to be 3200 sacks, a total of 7520 bushels, for the grain weighed 141 pounds to the bushel, giving 47 bushels to the acre.

Mr. Stewart was in town looking again for a house to buy for a home. He desires very much to live here, but experiences some difficulty in finding a place suited to his needs. He will continue his search here, and if possible, secure a location here. He wants to purchase a home costing less than \$2000 and well located.

Productiveness of Light Lands.

This instance of the unexpected productiveness of lands that were thought to be somewhat worn out, is but one of many cases that have been noted this year. It is this high yielding of the lighter lands that will increase the 1901 crop yield for Umatilla county, together with larger acreage and general good returns from all classes of lands.

George Peringer's Crop.

George Peringer is harvesting and threshing more grain per day than has ever before in the county. He has one man in Umatilla county. He has 1700 acres and is taking care of it at the rate of almost 200 acres per day. He will be through harvesting, practically, by August 19. Of the 1700 acres 300 are spring wheat and 1400 summer fallow. The spring wheat goes from 25 to 30 bushels to the acre, while the summer fallow is averaging 40 bushels. At noon on Wednesday, August 14, Mr. Peringer had over 20,000 sacks of wheat threshed. He has two combines, one drawn by mules, the other by steam power, and two stationary steam power separators and four headers. The best yield reported by him is 49 bushels per acre from one large tract.

Lars Hansen, Cold Spring.

Lars Hansen, from Cold Spring, 15 miles northwest of Pendleton, brought some of the cleanest wheat in this morning ever seen in Pendleton. It tested 60½ pounds to the bushel. He got over 3000 sacks of redhead from 300 acres, making it average about 20 bushels to the acre. He has farmed in Umatilla county for more than 21 years.

prime steers, \$5.50 to \$6.25; poor to medium, \$4.10 to \$5.30; stockers and feeders, \$2.25 to \$4; cows and heifers, \$2.10 to \$5.25; canners \$1.50 to \$2.25; bulls \$2.30 to \$4.25; calves, \$2.25 to \$6; Texas steers, \$3 to \$4.60.

Hogs—Left over, 6123; market weak, closing stronger; mixed and butchers, \$5.50 to \$6.12½; good to choice, heavy, \$5.00 to \$6.20; rough, heavy, \$4.45 to \$5.55; light, \$5.40 to \$5.95; bulk of sales \$5.70 to \$5.95.

Sheep—Market generally weak; good to choice, heavy, \$3.65 to \$4.25; fair to choice, mixed, \$3.25 to \$3.75; yearlings, \$3.95 to \$4.40; Western sheep, \$3.25 to \$4.35; Western lambs, \$4.30 to \$5.55.

Omaha, Aug. 15.—Cattle—Market, best steady, others slow; native beef steers, \$4.25 to \$5.85; Western steers, \$3.70 to \$4.60; Texas steers, \$3.50 to \$4.30; cows and heifers, \$1.50 to \$2.75; canners, \$1.25 to \$2.65; stockers and feeders, \$2.50 to \$6.00; calves, \$3 to \$5; bulls and stags, \$2.25 to \$4.45.

THE HAIR BRUSH

Breeds Dandruff, Which Causes Falling Hair and Finally Baldness.

Prof. Unna, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malevolent disease, and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush, is to insist on the use of Newbro's Hairbrush. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush.

We want the weakest stomachs to treat. This remedy will restore the stomach to normal and healthy condition. If you have been suffering with Dyspepsia begin taking this remedy, and see how you will gradually improve.

For sale by Tallman & Co. and all first-class druggists, or send to Frank Nau, Portland Hotel Pharmacy, Portland, Oregon. Price \$1.00 a bottle, 6 bottles for \$5.00, express prepaid.

"Nerve Waste."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false selling which prevails on this interesting subject. It is abundantly and carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is endorsed by both the religious and secular press. The Chicago Advance says: "A manual of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment."

The book is \$1.00 by mail postpaid. One of the most interesting chapters—chapter on Nerve and Nerve Tonic—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, THE PACIFIC PUBLISHING CO., Box 208, San Francisco.

CALL FOR COUNTY WARRANTS.

All Umatilla county warrants registered in May and June, 1890, will be paid at any office at the court house on presentation. Interest ceases on date of publication. Pendleton, Oregon, August 15, 1901.

Treasurer of Umatilla County

KNIGHTS VERSUS PIONEERS

GAME OF BASEBALL ARRANGED FOR SUNDAY, AUGUST 25.

Several Other Games are Talked of, but There Will Be No More Semi-Professional Games Played Here.

Managers Roy Ritter and Lee W. Held, representing the Pioneers of the Pacific and the Knights of Pythias, respectively, have arranged for a game of baseball to take place at 2:30 o'clock on the afternoon of Sunday, August 25, on the Alta streets grounds. Both these societies have good material in them from which to select a team, and the result will be an interesting game. It is said that Pete Marsh, of Pilot Rock, bookkeeper of Charles Cunningham, will pitch for the Knights. Several of the members of Pendleton's first nine are Pioneers, and they will be pressed into service. They include Chapler, Ulrich, Barlow, Fletcher and Cox. Captain Hartman of Pendleton's first nine, is a Knight, and of course will play with the team of that society.

Objects of the Game.

The main objects of the game are three: First, To raise money for the improvement of the road leading from this city to Olney cemetery; second, pastime and to keep interest in baseball alive; third, to settle the dispute, for a few minutes at least, as to which of the two societies has the more proficient baseball team. The names and positions of the players will be published as soon as possible.

A Tournament Decision Reached.

Many of the close observers of the baseball games during the tournament, July 4-6, will recall a decision of Umpire H. E. True of Pullman, Wash., in the game between Dayton and Heppner on Friday, July 5. In the eighth inning, after the first man had been retired, Burkhardt came to bat. Dunbar, Heppner's pitcher, made a balk, and Mr. True sent Burkhardt to first base. The rule says that only base runners shall be entitled to take a base on a balk. Mr. True ruled that the man at bat was a baserunner. The baseball editor of the Chicago Record-Herald says, on August 11: "The batsman is not entitled to his base on a balk. The batter is entitled to his base if hit by a pitched ball."

WILL CURE

We want the weakest stomachs to treat. This remedy will restore the stomach to normal and healthy condition. If you have been suffering with Dyspepsia begin taking this remedy, and see how you will gradually improve.

For sale by Tallman & Co. and all first-class druggists, or send to Frank Nau, Portland Hotel Pharmacy, Portland, Oregon. Price \$1.00 a bottle, 6 bottles for \$5.00, express prepaid.

"Nerve Waste."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false selling which prevails on this interesting subject. It is abundantly and carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is endorsed by both the religious and secular press. The Chicago Advance says: "A manual of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment."

The book is \$1.00 by mail postpaid. One of the most interesting chapters—chapter on Nerve and Nerve Tonic—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, THE PACIFIC PUBLISHING CO., Box 208, San Francisco.

KNIGHTS VERSUS PIONEERS

GAME OF BASEBALL ARRANGED FOR SUNDAY, AUGUST 25.

Several Other Games are Talked of, but There Will Be No More Semi-Professional Games Played Here.

Managers Roy Ritter and Lee W. Held, representing the Pioneers of the Pacific and the Knights of Pythias, respectively, have arranged for a game of baseball to take place at 2:30 o'clock on the afternoon of Sunday, August 25, on the Alta streets grounds. Both these societies have good material in them from which to select a team, and the result will be an interesting game. It is said that Pete Marsh, of Pilot Rock, bookkeeper of Charles Cunningham, will pitch for the Knights. Several of the members of Pendleton's first nine are Pioneers, and they will be pressed into service. They include Chapler, Ulrich, Barlow, Fletcher and Cox. Captain Hartman of Pendleton's first nine, is a Knight, and of course will play with the team of that society.

Objects of the Game.

The main objects of the game are three: First, To raise money for the improvement of the road leading from this city to Olney cemetery; second, pastime and to keep interest in baseball alive; third, to settle the dispute, for a few minutes at least, as to which of the two societies has the more proficient baseball team. The names and positions of the players will be published as soon as possible.

A Tournament Decision Reached.

Many of the close observers of the baseball games during the tournament, July 4-6, will recall a decision of Umpire H. E. True of Pullman, Wash., in the game between Dayton and Heppner on Friday, July 5. In the eighth inning, after the first man had been retired, Burkhardt came to bat. Dunbar, Heppner's pitcher, made a balk, and Mr. True sent Burkhardt to first base. The rule says that only base runners shall be entitled to take a base on a balk. Mr. True ruled that the man at bat was a baserunner. The baseball editor of the Chicago Record-Herald says, on August 11: "The batsman is not entitled to his base on a balk. The batter is entitled to his base if hit by a pitched ball."
