EX-SHERIFF SPERRY AT NOME

INTERESTING LETTER OF CONDITIONS

City of Nome is a Bum Town Business is Overdone - Saloons Doing Nothing.

There is Little Gambling. W. F. Matlock is in receipt of a letter of date of June 24, written by J. L. Sperry, formerly sheriff of Umatilla county, from Nome, Alaska. From it the following extracts are taken:

orable. There is nothing doing in mining -only a few claims where they drilted last winter, and they have about all got through. I hear some of them have done quite well, one in particular from the labor of five or six men, cleaned up over \$28,000. Others are reported to have done nearly as well. There has been no placer mining yet, nor do I think there will be for a week or more. I find lots of men who say the country is no good as a whole, only here and there a good spot. Others say its all right, I have not been out to examine or prospect any, as the ground is frozen and there would be no use. I shall wait until it thaws. There are lots of chances to get lays-there will be no trouble about getting all we want. The sheep proposition is O. K., but I don't know about the horses. At the present time there is simply nothing doing; no one can get anywhere. Nome is the only

his Tracker boy threw his arms around his neck and they were drowned together before the eves of other companions.

Say when they will open. All the Teiler freight has been unloaded here to far except the Valencia and it is reported she will sail for Port Clarence today, but will unload her treight on the Sand Spit 20 miles out from feller. The sheep which came up on the Centennial and the Conemangh came through in fine shape and are selling by the carcass at 50 cents. They weigh on an average of 65 pounds. Beef is 60 cents per pounds wholesale. There is no sale for horses now, as there is no use for them. One man offered his

lot of seven head for the freight. The condition is discouraging to the miners, owing to short seasons, and when the opening is three or four weeks later than usual it is very bad for the country. We all realize the fact. We can only wait. We made a very fast trip up on the State of California, ten and one-half days all told from Seattle to Nome. She was here only one day.

Nome is a Bum Town. The city of Nome is a very bum town. abouts. Business is badly overdone. Merchandise is almost as cheap as in Seattle. Saloon men are doing nothing and there is not much gambling. The peo-ple, if they have money, are holding onto it. The weather is cold and foggy most of the time. It has rained part of the day of the time. It has rained part corded a high degree of success. there is not much gambling. The peothe rarious irrigation companies cent apportionment of school funds of two days since I came. The sun is that have been organized for the pur-use of reclaiming the arid lands of lation in Northwestern Oregon, but One needs a fire to be comfortable.

the Charge of Petty Larcenry.

Marshal Heathman arrested Christo-August 14, at the corner of Main and Webb streets, and took him to jail. Mr. Sayers was arraigned before Justice Thomas Fitz Gerald on Thursday forenoon and charged with petty larceny. He pleaded guilty. He asked that he begiven a fine sentence instead of a term in jail, and the justice sus-pended sentence to give the culprit an opportunity to interview his friends. At 2 o'clock in the afternoon Mr. Sayers again appeared before the justice and stated that he had no money to pay a fine. He was therefore sentenced to undergo an imprisonment of 30 days in the county jail, and is now at work on his job.

The Crime Committed.

S. H. Rockwell, who resides on Birch creek, drove to Pendleton Wed-Terms, half cash, balance in one year.

needay and tied up his team in the cash of the East Oregonian building. He took the harness from the horses and put it in the water than the cash of the cash of the cash of the cash of the horses and put it in the water than the cash of the cash o When he came to hitch up the were missing. Mr. Sayers had taken them and had attempted to sell them at V. Stroble's, also at George O'Daniel's. Failing in the attempt he cached the plunder at the Last Chance saloon, where it was recovered by the

owner. Mr. Sayers has been working for Jim Jacobs of East Pendleton off and for the past two years.

New Passenger Engines in a Wreck. Two new passenger engines being shipped in over the Short Line for the to death with croup. The doctors said of the short live for the short but those cars were smashed and the two engines were jammed against each other when they came to clear away the debris. The O. R. & N. is getting 20 new engines, six of them being heavy passenger engines, 10 for hauling freight and four for switching. The engines damaged were Nos. 402 and 400.

> Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia cure permanently and com-pletely removes this complaint. It re-lieves permanently because it allows the tired stomach perfect rest. Diet-ing won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia cure, which digests what you eat and can't help but do you good. Tallman & Co.

Ben Oppenhelmer's Troubles. Sheriff George Shelley left on the stage this morning, says the Harney Items, for Sumpter to bring back Ben Oppenheimer, the man who was mentioned in last week's issue as obtaining money from a couple of business men and giving them therefor a draft on a Baker City bank which proved to be worthless. The sheriff of Baker county made the arrest and is holding him until the arrival of the sheriff from this place.

Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by DeWitt's Witch Hazel Salve. Certain cure for piles. Beware of counterfeits. Be sure you get the original—DeWitt's. Tallman & Co.

Two county bridges on the road from the Nicoli mills to Globe were destory-ed by fire Wednesday. The blazes were started by sparks from the fire which is raging in the mountains back of Carnival at Portland.

The business men of Portland have subscribed \$15,000 to guarantee the ex-penses of a carnival to be held in the exposition building from September

exposition building from September 18 to October 19.

A notable exhibit of all the industries of the Pacific Northwest will be made in the big exposition building, and athletic exercises, a horse show and a military tournament will be held on Multnomah field adjoining. Two full military bands have been engaged, and there will be many fine features in the amusement line.

I arrived here June le and found the country well covered with snow and ice. The snow has nearly all gone off around the coast, but there is plenty in sight on the higher ground. The streams are reported very high, many not tordable. The Snake river, which flows through this town, is very high. The report from the interior is not favorable. There is not how done in the carnival is sure to be well orable. There is not how done in the fact of the amusement line.

The carnival is in charge of a committee comprising 28 representative business men of which Gen. Owen Summers is president, I. N. Fleischner vice president, A. B. Steinbach treasurer, and J. D. Mann secretary.

With such men at the head of the affair, the carnival is sure to be well orable. worth visiting.

them like they were something to bring discomfort. And if anyone thinks there was no discomfort under several wee small hours of last night he was arrayed in a whole lot less glory than used to make Solomon somewhat distinguished among the people of his

It was rather annoying today to be reminded every minute that one did not sleep well last night, and yet the weather fiend was on hand as usual, and brought up the subject of the weather every few moments, and did all he could to make it impossible to take a philosophical view of the situation, and think of some more pleasant

During the past few days the temperature has been up to and at times beyond the 100 mark, and it has wrought its effects upon the men and horses at work in the fields. Some cases of fainting have been reported, although there have been none that could properly be classed as sunstrokes. Over in the Walla Walla region there was an apparent case of sunstroke the other day, but no one reports any here-

It is the unanimous view of the residents of Pendleton that if the weather clerk is satisfied with the at-

Deafness Cannot be Cured
by local applications, as they cannot reach the
deseased portion of the ear. There is only one
way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the
Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed
deafness is the result, and unless the inflammation can be taken out and this tube restored to
its normal condition, hearing will be destroyed
iorever; nine cases out of ten are caused by
extarrh, which is nothing but an inflamed
condition of the mucous surfaces. We will give
one hundred dollars for any case of deafness
(caused by catarrh) that cannot be cured by

A Stabbing Affray.

What might be termed a midsummer, as well as a midnight, stabbing affray took place at 1 o'colck Wednesday morning in front of the scouring mil at The Dalles, says the Chronicle, two men named Frank Green and Wm. Wallace being the participants therein. It seems the men, who had been working in the barvest fields near that place, had been drinking and were in a quarrelsome mood, when the ques-tion as to whether they should go to Pendleton came up for discussion which at length developed into a quar-rel and Green drew a knife and stabbed Wallace below the right shoulder, inflicting a very ugly wound.

EXPLOSION OF A SEPARATOR

MACHINE WAS BURNED, TOGETHER WITH 1,700 BUSHELS OF WHEAT.

The Property Was Uninsured-Loss of \$1,700 Will Pall Reavily Upon

the Owner Thomas Kerr. The Russell separator owned by Thomas Kerr, in operation on his farm in the North Cold spring country, exploded at 11 o'clock in the forenoon on Thursday, August 15. Within three minutes thereafter Mr.. Kerr was loser to an amount of at least \$1700. Mr. Kerr arrived in Pendleton in the evening and will go back home today. From him the particulars were obtained

Was Running Slowly.

The power to operate the separator was furnished by a 10-horse power engine and nine men were at work. The day was very warm and the separator on that account was being run slowly. The stack of wheat from which they were working had originally contained about 2000 bushels of wheat. When the explosion occurred there had been from 150 to 160 sacks threshed, and Weather Clerk Accorded the Paim as a Reaster by Bastern Oregon People.

People who live hereabouts experienced what eastern people have had all summer, and what they have always in the very warm weeks. At 11 o'clock last night the thermometer stood at 85 on Main street, and there was no perceptible cooling during the wheat that had been threshed, and they were in close proximity to the separator. Mr. Kerr said he was watching the separator when it explodes the started instantaneously, and it was at once communcaited to the wheat in the stack. A few minutes only was necessary to give the fire time to do stood at 85 on Main street, and there was no perceptible cooling during the was no perceptible cooling during the wheat that had been threshed was remaining hours. It was a night when burned, the other 100 sacks being everyone agreed that bed clothing was saved. The stacked grain melted down a delusion and a snare and rejected in short order.

Separator Made to Order. bring discomfort. And if anyone thinks there was no discomfort under several thicknesses of blankets and comfortables, let him hunt up some one today who knows and ask him about it. It is likely that no one could be found who would not assert that during the wee small hours of last night he was the separator was purchased new by Mr. Kerr in 1900, and he used it in threshing his grain last year. It was made to order for him and was extra heavy and well built. It had a 24-inch cylinder. The engine, separator was purchased new by Mr. Kerr in 1900, and he used it in threshing his grain last year. It was made to order. Maxwell, agent at Portland of the Russell company. The separator, derrick table, in fact all fixtures complete, are a total loss. One good wagon was also destroyed by fire. Mr. Kerr said the separator itself was worth \$1000 of any man's money. The loss of wheat will be from 1400 to 1800 bushels, estimated as closely as possible at 1700 bushels. The total loss, therefore, is placed at \$1700.

There Was no Insurance. Mr. Kerr stated this morning that insurance men wanted to tinsure him last year at 10 per cent, but he did not feel like paying it, as he has had no use for insurance companies. As a re-sult, not a cent of insurance was carried on separator, engine or wheat.

Mr. Kerr was feeling blue Thursday evening, but had regained his spirits this morning and was rustling for a new separator, with the hope and expectation of again being at work threshing within a few days. Mr. Kerr owns several ounter sections of Kerr owns several quarter sections of land in North Cold spring and has 1000 bushels of wheat left. He has 280 acres of wheat this year.

O.O.Buck, Beirne, Ark., says: I was troubled with constipation until I bought DeWitt's Little Early Risers. Since then have been entirely cured of my old complaint. I recommend them.
