ISLANDER HITS A BIG ICEBERG AND GOES DOWN

Sixty-five Lives Lost in the
Wreck.

SUNK OFF DOUGLAS ISLAND, ALASKA

Passengers Rushed to the Decks and Then
Jumped Into the Lifeboats, Causing
Them to Swamp.

Victoria, B. C., Aug. 19.—The
steamer Islander, flagship of the Cana-
dian Pacific Navigation fleet, the
largest and fastest passenger steamer
on the Victoria-Skagway route, col-
lided with an iceberg off Douglas is-
land, early Thursday morning, while
en route south with the largest num-
ber of passengers carried this year.

She sank in fifteen minutes after
striking.

Captain Foote, and sixty-five per-
sons, including passengers and mem-
bers of the crew, were drowned.

To add horror to the disaster, the
boilers exploded, as the ship went
down, causing death to many who were
struggling in the water.

Drowned Like Rats in Staterooms.

The steamer left Skagway in the
evening of Wednesday last, proceeding
out of Lynn canal, when the collision
occurred. Most of the passengers and
members of the crew were asleep. A
majority got out on deck in time to be
saved in boats, but a large number
went down while in their state rooms.
Some of the survivors arrived here
last night, on board the Queen, which
passed over the scene the following
evening and picked them up at Jone-
neau. It is impossible to obtain a
complete list of the dead.

The pursers remained north to attend
to the forwarding of those of the sur-
vivors who were landed at Douglas is-
land, while assistance was procured
from Juneau.

Praise for Ship's Officers.

Great praise is given the officers for
the manner in which they acted. The
officers state that, had not the passen-
gers rushed to the boats, the loss of
life would have been small. Three
hundred thousand dollars in gold was
on board, one-third belonging to the
passengers.

Capt. Le Blanc, the pilot who had
charge of the steamer, stated:
"While attempting to avoid one big
block of ice, we ran into another. The
scene was heartrending. The boats
were scattered and overcrowded. Peo-
ple were adrift and crying for help.
The crowded rafts were sucked under,
those aboard drowning."

EUROPE MAY INTERVENE

Panama Canal Not to Be Easily Absorbed
by the United States.

Washington, Aug. 19.—The possi-
bility of European intervention in the
affairs of Colombia is threatened by the
presence of the French warship Souchet
on the scene. It is particularly un-
welcome to the administration, and is
regarded as a serious menace to the
plans of the government to get into a
position to purchase the Panama canal
which it is almost certain the canal
commission will recommend. French-
men who lost fortunes in the Panama
swindle are opposed to purchase of the
canal by the United States and are
endeavoring to overthrow any French min-
istry that would permit it, it is believed
the sending of the warship was done to
mollify them, and is presumable
intended as a hint to the United States
that France does not want to see the
Panama canal go out of French
hands. It is for this reason that the
United States deemed it wise to send
a strong force of warships to the isthmus
in order to serve notice upon
European governments that this coun-
try's interests there are paramount.

No State of War.

Washington, Aug. 19.—The Colum-
bian minister called upon Secretary
Hay this morning and talked over the
conditions of affairs between Colombia
and Venezuela. He declared there
was no state of war between the two
countries and that the fighting that
has occurred between revolutionists
and government forces is an endeavor
to suppress a rebellion. He has dis-
patches to the effect that the relations
between the two governments will con-
tinue of the most cordial nature.

A Minister Arrested.

Colon, Colombia, Aug. 19.—Ex-Min-
ister of Commerce Pulido was a num-
ber of his henchmen were arrested on
an order by President Castro, suspected
of plotting to circumvent Castro, and
of encouragement of the Colombian
revolution.

THE P. & I. N. WORK BEGINS

Extension Being Built From Council to
Seven Devils Country.

Boise, Aug. 19.—Special.—General
Manager P. P. Shelby wired to Boise
this afternoon that work on the exten-
sion of the Pacific & Idaho Northern
railroad was commenced today. This
extension starts from Council, the
present terminus of the P. & I. N.,
and will run directly into the very
heart of the Seven Devils mining
country, a distance of forty-five miles.
Every available man and team in the
country is being put to work.

General Manager Shelby says the in-
tention is to complete the road before
the beginning of winter. It will be a
standard gauge road and will be thor-
oughly equipped.

The starting of this road for this cel-
ebrated copper camp is a matter of
much importance to the people of
Southern Idaho and especially to
those interested in the Seven Devils.

The work will be pushed to rapid
completion. It is estimated that the
Seven Devils will rival Butte as a cop-
per mining district and one mine alone
has already been developed to such an
extent as to be rated at a value of \$3,000,000. A smelter is being erected
near Weiser and the construction of the
P. & I. N. as announced, will bring
about a boom in southern Idaho never
before equaled.

SCHLEY'S NEW CHARGES

Says Navigation Bureau Didn't Read the
Telegrams Closely.

Washington, Aug. 19.—New charges
are being made against the bureau of
navigation by friends of Schley. The
charge practically amounts to one of
forgery although explanation is offered
that in the translation of cablegrams
sent in cipher the bureau frequently
contents itself with arriving at a
literal translation. Thus, in a tele-
gram from Schley on which the charge
of disobedience of orders is made,
Schley's friends claim that it was dis-
torted. Schley merely saying it was im-
possible to obey certain orders.
Schley and his attorneys held another
conference this morning.

Shot at a Relative.

Boise, Aug. 19.—Special.—Raiph
Vincent, a youth 19 years of age, em-
ptied his revolver at a relative named
Had L. Burt, who lives on Dry Creek,
a few miles from the city, yesterday.
The shots were ineffectively except that
Burt's hat was shot full of holes.
Young Vincent and his brother, Frank,
are under arrest.

Located Their Booty.

Fort North, Tex., Aug. 19.—Men un-
der arrest at Caney, I. T., for the re-
cent train robbery were taken to the
scene by the officers on Sunday and lo-
cated some of the booty which was re-
covered.

If the action of your bowels is not
easy and regular serious complications
must be the final result. DeWitt's Lit-
tle Early Risers will remove this dan-
ger. Safe, pleasant and effective. Tal-
man & Co.

SOUTHERN MEN WERE SMUGGLED IN

The General Situation is Unchanged East and
West—Knights of Labor and Anti-
Trust League to Act.

Washington, Aug. 19.—The Knights
of Labor and the Anti-trust League
have decided to wage a fight against
the steel trust in New Jersey, as well
as in this city. Proceedings are in-
stituted in New Jersey where the char-
ter of the steel trust was granted, look-
ing to forfeiture of the charter on the
ground that the trust operates against
the welfare of the American citizens.
