HOTTEST EVER IN CAMAS Summer Has Been Very Warm, Says Mr. Gilliland. Thomas P. Gilliland, county commissioner from Clatsop, is in town to meet Mrs. Gilliland, who has been visiting in Yakima for three weeks. Mr. Gilliland says the range is dry and dusty and feed somewhat scarce. "The summer," said he, "has been the hottest I have ever known in Camas valley, and I have lived there for many years. The weather there is usually cool and pleasant, with few days that are uncomfortable. But this summer we have had days when the thermometer convinced one that his discomfort was due to high temperature."

A FARM PAID FOR ITSELF

Dr. C. J. Smith Made a Good Wheat Land Investment. "I want no better investment than Umattilla county wheat lands," remarked Dr. C. J. Smith today while conversing with a grain man regarding the harvest of 1901. "Last year I bought a quarter section of land and paid therefor \$1600. This year we took off more than \$1600 worth of wheat, so that the land paid for itself with one year's crop. "I know of a man who paid \$400 last year for a quarter section of land, \$2.50 an acre. This year he threshed 1219 sacks of wheat that makes something like 2800 bushels, and at 45 cents is worth \$1260."

HELIX WANTS A FLOUR MILL John F. Hill Says It Would be a Good Investment. John F. Hill, grain buyer and farmer of Helix, thinks a flouring mill there would be a good investment. He believes a bonus of \$2000 or \$3000 would be given by the citizens there to any responsible miller who would erect and operate a mill in that town. He is determined to see that the Helix, said Mr. Hill, "and good business awaiting the man or men who will take up the proposition. It could not, at least at first, be a very large concern, but one grinding something like 25 to 50 barrels would find ready employment. Mr. Hill says that no wheat has been raised at Helix. The local quotation there is about 45c today for No. 1 club, but that figure seems to be too small to induce any early sales. "Harvest is almost ended. A week more," he said, "will see all the grain cut. The harvest has surprised everyone out in the Helix country, the average running well up to 35 bushels to the acre. I believe the Helix and Juniper sections will be the best wheat producers in Umattilla county in the future, and that those lands on the reservation that have always been valued as the best in the county will play out first."

Dr. Watkins died on the instant and Deputy Cool died later. Mr. Creighton yet has his right arm in a sling, and is compelled to use his
