Deafness Cannot be Cured

by local applications, as they cannot reach the deseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed lorever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (cansed by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by all drugglats, 75c.

### ADVOCATES FOREST RESERVE

Chief Forester Pinehot Talks of Eastern Oregon Needs.

The following significant utterance came from Gifford Pinchot, chief of the forestry division of the department of agriculture at Washington. He said it

in Baker City:
"The people of Eastern Oregon can-not preserve their agriculture without keeping up their forest reserves. The salvation of this country depends on the maintenance of its forests in their integrity. Baker county is naturally as arid as Utah, and these waters must be well cared for and saved. A dry sunny climate is one of the choicest gifts of Providence and one of the greatest blessings that humanity enoys, that is, if the people living in that climate preserve their water. One thorough forest fire, such as often occurs in western boundaries of woods, would utterly destroy Baker City's water supply. The \$260,000, or whatever the system of water works cost, would be entirely lost. One good fire would so diminish the water in the stream that there would not be a drop of wa-ter left when it would be most needed. With Baker City it is not a typical cause; it is an extreme instance.

Mr. Pinchot and F. H. Newell, chief Mr. Pinchot and F. H. Newell, chief hydrographer of the geological survey, were in Baker City escorted by Maicolm A. Moody, congressman from the second district. They have been examining the streams of Eastern Oregon, among which are the Deschutes and the Malheur. Mr. Moody planned the route so the government officials got a glimpse of all the streams that supply the desert, the desert its alf and its means of reclamation. Said Mr. Neweil:

"The problem that confronts us is to ascertain the cost and the capacity of recovering the deep water in the valleys. Your congressman has taken more interest in matters pertaining to origation than any other congressman Oregon has ever had. He is a bard worker and on this trip he had us up and on the road before 4 o'clock, and we often slept out of doors and on hay-

The problem of conservation of water in arid and semi-arid districts and its economical distribution over the lands occupied the attention of the party.

Mr. Newell said one thing that is of importance, that small ditch schemes have been of more profit than large. been of more profit than large As a rule, the latter have not

TALK OF REVIVING TENNIS.

Pendleton Players Will Wield Racquet

A number of local tennis players are anxious for a revival of the sport this fall. The intensely hot mid-summer served to discourage temporarily the playing, but now that the hottest weather has passed, those who enjoy the game propose to extract some pleasure from the wielding of the

racquet.

Under the leadership of Robert S.

Pond, a dirt court was fitted at the corner of Alta and Johnson streets, and all the materials are on hand.

It is noticeable that in the east ten-

REPORT OF THE DIOCESE nis has been more popular this season than for several years past. The championship series of games were well attended on both sides of the At-

'We will have the best football team this fall that has yet been brought out in Pendleton," said R. S. Pond of the Pendleton academy faculty today, "un-less all signs fail. It is hoped by the academy boys that arrangements can be effected with the owner of the lower Alta street grounds so that the gate receipts will not be cut into so deeply for rent of the field. Last year we went behind somewhat on the financial end, which we hope will not occur

Another Air Ship Invented.

Another inventor claims to have perfeeted an airship. It is to be hoped this inventor has at last solved the problem successfully, and the launching of this ship into space will be looked forward to with considerable eagerness. This mode of travel will doubtless supplant any other means of transportation, the same as Hostetter's Stomach Bitters has supplanted infer-ior medicines in the cure of stomach, liver and kidney disorders. The effect this medicine has upon the refractory stomach is marvelous, and when taken faithfully will cure dyspepsia, indigestion, biliousness and sick headache. It is a good medicine to take, as it will keep the bowels regular and ward off attacks of malaria, fever and ague. Be sure to give it a trial.

LABOR DAY IN BAKER CITY.

Unions Will Celebrate on September With a Big Program.

Baker City will celebrate Labor Day that city has a committee consisting ed after that of Carlfaelten. on September 2. The Trades Council of W. E. Kelly of the Cigar Makers, J. H. Buck of the Typographical, Frank Bowen of the plumbers, J. J. Dougherty of the Masons, Thomas Grant of the Carpenters and E. C. Hoover of the Painters unions, to ar range for the proper celebration.

There will be a parade in the morn ing, picnic in the afternoon, and a ball at night. The clerks have failed to enter the arrangement, having no are enthusiastic on the subject, and will endeavor to make the day a memorable one.

IN THE GOOD OLD FASHONED DAYS.

Powdered Wigs Formed an Important Adjunct to a Gentleman's Apparel. It is safe to say that the majority of baid men of today would gladly revive the old, dignified custom if they could. But, they can do the next best thing to it; that is, to revive the growth of the hair nature gave them.
In cases where the hair root or hair bulb has not been completely destroyed by parasites that infest it, Newbro's Herpicide will do wonders in the way of stimulating the growth of lifeless and falling hair. Destroy the cause, you remove the effect. That is the successful mission of Herpicide.

Boys Arrested and Fined.

Chief of Police Heathman has declared that boys must no longer jump onto treight trains within the limits of Pendleton. He has arrested William Robbins, Elmer Arnspiger and a young son of N. H. Sitton for this offense. They were taken before Recorder Beam who fined them \$5 each, and then remitted the fine. This, however, will It is regarded as commendable on the part of the chief justice that he has begun this campaign against the risky habit of so many school boys.

The baseball game on Sunday for the cemetery road fund will begin at 3 p. m., the Pioneers of the Pacific and the Knights of Pythias teams meeting on the diamond.

WE are the people and the only people in the Saddlery business in Pendieton that em-ploys full force of mechanics the year around, and make our own Saddles, Harness, stc., and do not ship them from the factories like some of our competitors and then tell you they are as good as home made; but they are not.

JOSEPH ELL, Leading Harness and Saddlery.

"Nerve Waste."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer of San Francisco, now in its fifth thousand. This work of an exper-erienced and reputable physician is in agree-able contrast to the vast sum of false—aching which prevails on this interesting subject. It abounds in carefully considered and practical

secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering

through nervous imparement."

The book is \$1.00 by mail postpaid. One of the most interesting chapters—chapter xx, on Nervines and Nerve Tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, THE PACIFIC PUBLISHING BOX 2008, San Francisco.

PENDLETON PUBLIC SCHOOLS PROB ABLY ON SEPT. 9.

The Academy Will Open on Sept. 9, and Whitman College of Walla Walla

Opens Sept. 12. Pendleton public schools open on September 9, probably, although the date is not yet announced. The an-nouncement will be made in a day or two. The teachers are gathering in Pendleton again after vacation trips that have taken them to many places at seashore, in mountains and in the

The Pendleton scademy also opens the vear's work on September 9, and will have a prosperous year, if indications count for anything.

The fall term of Whitman college will commence on September 12, with three new instructors, and a probable attendance of 400, says the Walla Walls Union

Of the new instructors, Prof. Charles W. Allen is the most important. Mr. Allen is a graduate of the University of Chicago, and holds a fine record in the athletic department of that institution. He has had three years' experience as professor and coach, two at 'Shattuck school, Minnesota; and one at Alma, Mich. During the coming year he will coach all the Whitman teams and do some water. man teams, and do some work in Eng-

Owing to the increased demand, the Owing to the increased demand, the conservatory has undergone a complete change, making room for several extra pianos. Prof. Harold G. Loring of Portland, Me., a graduate of the Carlfaelten normal school for pianoforte, will be an addition to the corps of conservatory instructors, and will establish a invented department, model.

Prof. Anderson, who has been absent during the past year, will resume his classes in Greek, and William Worthington of the class of 1900, who has been filling this position, will continue

his work in theology.

Miss L. R. Loomis, of the Latin and Greek department, will be absent during the year at Columbia, and her place will be taken by Miss Edith G. Merrill of Ripan college, Wisconsin.

There has been a great demand for rooms in Ladies' hall, and many new tades to have been applied to secure students have been obliged to rooms in private houses. This is, how-ever, soon to be changed by the addi-tion of a new building. The convoca-tion will be delivered by Hon. W. L. Jones, on the evening of September 10.

President Penrose writes from New condon, Conn., that he has made some progress in raising the \$25,000 needed for new buildings, and has hopes of securing the whole amount before he returns, about November 1.
