Flour manufacturers of the United States, a large number of whom have been in conference at the Auditorium, have decided upon an advance of 10 per cent in the price of plow and plow repairs during the coming year. The present strike of the stockholders is given as one cause. In addition the manufacturers claim that the cost of production in every way is much greater at present than it was a year ago. Besides, it is claimed higher wages are being paid to the men employed in the works. The increase in price will go into effect when the sales for next year are commenced, in October.

Exposure

To cold and stormy weather opens the way to an attack of bronchitis. The man on the wagon, be he farmer, milkman or truckman, needs to pay special heed to the first symptoms of weakness or disease of the organs of respiration. The use of Dr. Pierce's Golden Medical Discovery will cure bronchitis, deep-seated coughs, bleeding of the lungs, and other conditions which if neglected or unsatisfactorily treated, terminate fatally in consumption.

There is no alcohol in the "Discovery," and it is entirely free from opium, cocaine and other narcotics. "For seven years I had been troubled with what the doctors called consumption," writes Mr. Arthur Maule (general merchant, of Niles-ton, Middlesex Co., Ontario). "A year ago after I had been taken sick with a severe attack, I began taking your 'Golden Medical Discovery.' I rapidly recovered from the attack and felt no more of it that fall. This season I began taking the 'Discovery' in August, and have so far been perfectly well. I can go out in all kinds of weather and not feel the bronchial trouble at all. Let me say to all who are suffering from such complaints to give Dr. Pierce's 'Golden Medical Discovery' a fair trial, and I am convinced that good results will be obtained."

Dr. Pierce's Common Sense Medical Adviser, paper-bound, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only, or 31 stamps for the book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Found a Scorpion.

In the rock quarry above town, the other day, W. Baumgartner found a curious and ugly little beast which vainly endeavored to scurry out of sight, says the Leader. It proved to be a scorpion, which is a very rare creature in this part of Oregon, but often an unwelcome bedfellow of the man who camps out in California. Its ruling passion is strong in death, for the venomous tail is still curled over its back, ready for business.
