### W. VAILLE ORGANIZER

The Philippine Postal Service Returns to Railway Department.

Mr. W. Vaile, assistant superintendent of the railway mail service, spent the day in Pendleton.

Mr. Vaile was in the railway mail service for 15 years, and is accounted one of the best men on the government postal system.

He makes Portland his headquarters, and as assistant superintendent of the division of which San Francisco is headquarters.

Mr. Vaile was the man who organized the mail service for the Philippines, being appointed to the complete work of placing the mail in communication with the United States. He has been in the service for nine months, having volunteered for the Philippine position.

At the inauguration of the new there, Mr. Vaile said many things which the government has not made public.

It is noticeable, as many Americans know, that mail comes to the Philippines very promptly.

There is no transmission of mail across the water. But, in transmission of mail matter from there, a number of people here have had occasion to register complaints about this, Mr. Vaile.

He will understand that I am out of the Philippine service now, and am coming largely as a private citizen.

But knowing the conditions I can do some things, perhaps. In the place, most complaints are ungrounded. Carelessness in addressing is one other thing, usually the cause of non-transmission of letters.

He has just caused for complaint.

For the street fair and carnival to be held at Baker City, September 3 to 7 inclusive, the O. R. & N. Co. has named a rate of \$5 for the round trip from Pendleton. Tickets to be sold September 3, 4, 5 and 6, limited to September 8. On Thursday, September 5, tickets will be sold at \$3.75 for the round trip. Tickets good going on train No. 6, which leaves the O. R. & N. depot at 6:15 a. m., and are good until September 8.

Excursion to Baker City.

Tickets to be sold September 3, 4, 5 and 6, limited to September 8. On Thursday, September 5, tickets will be sold at \$3.75 for the round trip. Tickets good going on train No. 6, which leaves the O. R. & N. depot at 6:15 a. m., and are good until September 8.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

For Sale.

1000 acres of summerfallow, 800 acres of stubble wheat land; all implements and stock necessary to work the land. Inquire of Paul Bowman.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering with a cough doctors told me was incurable. One bottle relieved me, the second and third almost cured. Today I am a well man." Tallman & Co.

## THE BEGINNING OF THE FALL

WEATHER SEASONABLY TURNS COOLER AND THE RAINS COME.

Ten Days of August Saw 100 Degrees or Hotter, With Two Days Less Than 90 Degrees.

August has passed and with it the summer. Never has a season more closely followed calendar requirements, inasmuch as the fall rains set in within six hours of the ending of summer, and the hot weather of the past few weeks has been succeeded by cooler temperatures now that fall has arrived.

Seldom does one see so complete a change in climatic conditions in any country. The weather bureau apparently has established a rigid schedule and accomplished it, this time.

Saturday night rains fell all over Umatilla county, as reports go, and far up into the mountains the moisture fell in great chunks. Hunting parties leaving Pendleton Saturday night for a Sunday's shooting experienced almost a deluge for a part of the time. The rain also fell on Sunday, and today there has been no material alteration in the meteorological state. "Ice cream" hats, summer suits, canvas shoes, for men, and all of the dainty things that mark the summer girl may now be laid aside to await the return of another outing season. Seaside resorts are hurrying homeward, while mountain campers are streaming out in companies. Up on the higher levels the nights are now too warm. Overcast will displace shirt waists. A few warm days will come yet this fall. But not many, for the summer is past and the hot days are not frequent after this time of year.

August saw ten days when it was 100 degrees or warmer, while on only two was it less than 90. The coolest was on the night of the 28th, when it went so low as 45 above zero. The past week's record is:

Sunday, August 25, maximum temperature, 97; minimum temperature, 51.

Monday, maximum temperature, 79; minimum temperature, 55.

Tuesday, maximum temperature, 87; minimum temperature, 47.

Wednesday, maximum temperature, 90; minimum temperature, 45.

Thursday, maximum temperature, 100; minimum temperature, 48.

Friday, maximum temperature, 99; minimum temperature, 47.

Saturday, maximum temperature, 93; minimum temperature, 55.

Five days were clear, and two part cloudy.

MOSQUITOS ARE DECREASING

T. E. Fell Says Burning of Moss Accounts for It in Alaska.

Walter Fell, deputy postmaster of Pendleton, has received letters from his brother, Theron E. Fell, describing the conditions obtaining in Alaska, and imparting some very interesting facts. One in particular will appeal to those who are interested in the Alaskan country and felt the stinging bite of the Alaskan mosquito.

"The mosquito is the worst thing with which we have to contend," says Mr. Fell, "and they are simply awful. They bite through an ordinary buckskin glove and fill the system with poison. Everyone wears nets over all exposed portions of the body, but no one can obviate being badly bitten. However, as the moss is burning the mosquitoes decrease, and some persons hope that the day will come when Alaska will not hold the mosquito terrors that now make brave, nervous men hesitate who perhaps would not be afraid to shoot dangerous rapids or face the guns of an opposing military column."

Discussing the general future of Alaska Mr. Fell has this to say:

"As to the future, here, it is merely a proposition of transportation. When railroad lines have been built so that men and supplies may be carried at reasonable cost, then will Alaska produce such immense quantities of gold that it will be almost as cheap as silver. Here are deposits of placer gold such as exceed the dreams of the most imaginative writer of fiction. No Count of Monte Cristo could dream of finding such stores of the yellow metal."

"But, it is hard to get out. It costs very much to mine here. Consider these figures: To get supplies from Circle City to our ground on the Tanana river, the freight is from 50 to 75 cents a pound. You may easily figure that placer dirt going well up to a dollar to the pan must be worked to leave a profit on such immense expense for transportation of supplies. Were freight charges down to a reasonable basis, dirt going ten cents to the pan would yield good profit. Remember that dirt washing one cent to the pan is profitable in Oregon and California. Then estimate what will be the output here when freight permit comparatively cheap shipping of food and other commodities across the peninsula."

Mr. Fell and John Dodson are now on their way out, and will arrive in Portland before many days. Mr. Fell has associated with Mr. Dodson in the operation of some good ground on the Tanana river, which has never proven to be rich in gold. They will probably arrange for the installation of a complete plant for the working of the Dodson claims.

HARVEST AT ATHENA ENDING.

Press Says Conditions Have Been Well Nigh Perfect.

Harvest operations in the vicinity of Athena are nearing the end, and this week will witness the close of the work, pretty much, says the Athena Press.

The entire season has been an ideal one for harvesting, not a day being lost on account of rain or bad weather, since the start up four weeks ago. All conditions have been perfect or a most successful season's run, and in consequence a record-breaking run has been made by all machines in the field.

On the lands about Athena, the acreage perhaps amounts to about the same as it did last year, though the yield is much larger, and there will be large quantities of wheat stored in Athena warehouses this season. The grain is of splendid quality and many larger yields are reported, though the general average runs from 35 to 40 bushels on fall sown ground, and none is reported below 30. Spring grain runs from 20 to 30 bushels per acre. Barley is an average acreage, and the yield and quality is exceptionally good.

The number of machines harvesting larger each year, and this insures a short harvest, and places the chances of loss from rain at a minimum.

Nowadays the harvesting of a Umatilla county wheat crop, is different from what it used to be, both as to length of time and methods employed. The combining is greatly expedited for the change for the better in the condition of things, while the modern improvements on the big steam threshing outfit materially help to lessen the cost of operation, do a greater amount of

work and in consequence, lessen the length of time required to harvest the wheat crops.

He Kept His Leg.

Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and my leg was sound and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them. Tallman & Co. will guarantee satisfaction or refund money. Only 50 cents.

The hot season is over and the weather is delightful for traveling and pleasant throughout the east. It is just the time to visit the great exposition at Buffalo. On Tuesday, September 3, the O. R. & N. Co. will sell tickets to Buffalo and return, good for 60 days at \$76. Purchasers of tickets have choice of routes going or coming. Call at O. R. & N. ticket office.

A never failing cure for cuts, burns, scalds, ulcers, and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. Tallman & Co.

Melons and Vegetables.

R. Martin receives every day fresh shipments of vegetables and melons and they are the best on the market as they are specially selected for Martin by good judges of melons and vegetables. If you need any good peaches for canning you should leave your orders at Martin's. He also has jars and extra caps and rubbers.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and if I now risk I would give \$100 for each movement. It is such a relief."

## THE SCORE---EIGHT TO SIX

PIONEERS DEFEATED THE KNIGHTS BY A RECORD OF 8 TO 6.

Notwithstanding Rain, the Game Was Played With Fairly Good Work on Each Side.

A few of Pendleton's enthusiastic citizens straggled out through the mud yesterday afternoon to the ball grounds and knocked their heels together to keep warm, while the Pioneers proceeded to do up the Knights of Pythias.

It rained hard during the early part of the afternoon and it looked as though Providence would intervene in the Knights' favor, but it was not to be. Before 3 o'clock the rain had stopped and the air grew colder.

At 4 o'clock the game started, and the Pioneers took the lead from the jump and retained it throughout the entire game. The exhibition was not particularly brilliant in point of fielding and batting, although there were a few sensational stops and one long hit. Chapter reached out and nailed a line drive that was not intended for him, making a very neat play. Held picked out a pretty one and smashed it clear over the center fielder, scoring the only two batters in the game. At the end of the eighth inning the score stood 8 to 3 and it was up to the Knights to do something. They took a brace in the ninth, and assisted by Chapter's throw to the woods and the renewed enthusiasm of the crowd, netted three runs. There the game ended in a score of 8 to 6, and the fans went home better pleased than they had anticipated.

The work of both pitchers, Chapter and Dupuis, was commendable. Each had a good strike out record and only one base on balls was allowed. Good fellowship was apparent throughout and much of the interest of the game was in good natured jollity.

The score by innings:

Pioneers.....1 5 2 0 0 0 0 0 8

Knights.....2 0 0 0 0 0 1 3 6
