GENERAL NEWS.

The gold production of Cripple Creek district during August was \$2,358,000, the greatest single month's record in the history of Cripple Creek.

Maurice C. Stephen, a professor in John Hopkins university, was drowned in the Shrewsbury river, near Atlantic Highlands. With some friends, he went in a small boat to see the Shamrock.

Marie Josephine Eastwick of Philadelphia, was arraigned in the London Guild Hall police court, charged with having forged a railway certificate of the value of £100,000. Sensational evidence was presented.

Henry C. Durand, president of the board of trustees of Lake Forest university, and a pioneer citizen of Chicago, died at Highland Park. Death was caused by a stroke of paralysis. Mr. Durand was 73 years old.

The British military administration has determined, it is said, to deport all the Boers in the reconcentration camps, numbering upwards of 100,000 to garrisoned towns on the coast where food is more readily available.

Carrie Nation, who arrived in New York Sunday, was arrested at Twenty-eighth street and Eighth avenue charged with "raising a crowd and creating a riot." She was released, however, upon the assurance of her escort that she would go direct to her hotel.

Port Collector Willcutts at Duluth fined the steamer Alexander McDougall \$1000 for not stopping to assist the passengers of the ferryboat Stinson, which was recently sunk at Fort Gratiot. Captain Kilby explains that he got his boat out of the way quickly to give the small craft nearby an opportunity to perform that service.

A widespread revolutionary movement is going on in Persia, fostered by discontent with the government on account of the new loan negotiations with Russia. The Grand Vizier is accused of selling the country and failing to make reforms. Martial law has been proclaimed in the capital and environs. The agitation, it is said, proceeds from the entourage of the Shah, who frequently finds threatening letters upon his writing table.

PACIFIC NORTHWEST NEWS.

An average of the grain already threshed in Polk county puts it in the neighborhood of 32 bushels per acre.

Rev. Edgar P. Hill, who recently returned from his vacation, began his seventh year Sunday morning as pastor of the First Presbyterian church of Portland.

Miss Mary E. C. Hevener of Ashland has accepted the principalship of the commercial department of Medford academy, in place of Fred Ulen of Minneapolis, who has accepted another position.

John Dougherty, 57 years old, of 565 Marshal street, was either murdered and thrown into the river at Portland or else he accidentally fell into the river and thus met his death. The body was fished out at Montgomery Dock No. 2, Albina, Saturday afternoon.

Never in the history of Independence has so many people come within her borders for working purposes. Saturday afternoon's northbound train, it is conservatively estimated, brought about 250 people, and all day an unbroken string of wagons, laden with camping utensil and plenty of hoppers, came in town from the four different road entrances.

Through the combined efforts of the city attorney, the police department and the district attorney, the work of cleaning the Portland Bad Lands, of inhabitants, is bearing fruit. With each succeeding day new evidence of the inquiry carried on in that section is being revealed. Much of this exposure is coming to light before the scores of spectators in the municipal court.

The business streets of Portland probably never have been in worse shape to meet the winter than they are now. Pavements, both the Oregonian, both wood and asphalt, are in wretched state, and there is hardly a single stretch a block long that does not need repair. This condition was apparent yesterday when the immense piles of lumber in the pavements were full of mud and water. Many citizens have become callous to the needs of repairs, and so need to ruts and holes that they do not see them any more.

Dr. Pierce's Favorite Prescription and its use will work wonders for the most hopeless woman. If Mrs. Newton, whose letter is given below, had not persisted in its use, she might never have known the happiness of perfect health. Perhaps the reason for her persistence was because she used "Favorite Prescription" as a "last resort." Physicians had failed. If "Favorite Prescription" could not help there was nothing to hope for. It did help. It always helps and almost always cures. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It imparts strength and elasticity to the organs of maternity and makes the baby's advent practically painless.

"When I consulted you in April, 1899, I was in poor health," writes Mrs. E. H. Newton, of Vancouver, Aroostook Co., Maine. "I had been sick all winter and to add to my trouble was on the coast maternity, which the doctor said would end my days. I was almost discouraged did not expect any help, but thought the end was only a matter of time and—oh! my two poor little motherless children.

"It was in this condition that I began the use of your valuable medicine. On receipt of your letter of April 26th my husband purchased six bottles of 'Favorite Prescription' and 'Golden Medical Discovery' and I used it as you directed. When you wrote me words of encouragement on April 27th I had received no benefit from the medicine, but determined as a last resort to give it a fair trial. I am now taking the thirtieth and last bottle. I have a lovely baby girl three weeks old that weighs 12½ pounds at birth. My baby and I are enjoying perfect health. Thanks to your wonderful medicine to which I believe I owe my life.

TRIED TO KILL GUS PETERSON, SHEEP HERDER

Four Men Riddle His Tent With Lead.

SHEEP CAMP ATTACKED AT NIGHT

Forty Sheep Killed and Thirty Holes Shot in Tent—Shotguns and Rifles Used by the Marauders.

It is reported from Bear Wallow creek, 35 miles south from Pendleton, that a few nights ago, four men made a raid on C. A. Johnson's sheep camp, killing 40 head of sheep and attempting to take the life of herder, Gus Peterson.

As Peterson tells the story, he was awakened in the night by the sound of firearms. On investigation he found that a number of men were busily engaged in dispersing them in every direction. Not content with that, they turned their guns on the tent in which Peterson slept, forcing the herder to lie down on the ground to avoid being killed. The fusillade continued for fully ten minutes, and, when the marauders found that they had done all the damage possible, they took to the woods.

By the morning light, Peterson found the sides of his tent riddled with rifle bullets and fine shot, indicating that the marksmen had made use of rifles and shotguns. The sheep that were not lying dead on the ground had been driven away. The herder gathered as much of the band as he could find and then reported the affair to his nearest neighbors.

Afterwards, when Peterson became cooler, he found the tracks of four men around his tent. There were 30 holes in the tent and considering the number of sheep killed, there were 70 shots fired.

The sheep men in this neighborhood are considerably worked up over the disgraceful occurrence, and it is said that at the next convention of sheep men, an appropriation will be made to prosecute the marauders.

TROUBLES OF STOCKMEN.

Sheep Shot in Fox Valley and Black Canyon—Suspicion of Cattle Poisoning

In other localities some trouble occurs from time to time. Last week a band of sheep were fired into at Whitely, Grant county, and from various sources comes the following further news.

Blue Mountain Eagle, Canyon City, Grant county: News has reached this city that the Mack brothers, who are running three bands of sheep for James McHaley of Heppner had a band of sheep shot into in them having 163 head killed. The band it is said was occupying the lower camp on the creek several miles from the settlement, but it was not learned where the shooting took place, or the reason assigned for it.

The Eagle regrets very much to see our local sheepmen have such trouble. About the 10th of August Mose Hess, a stockman of the Prairie City country, found fifteen head of his cattle dead on the range east of Strawberry, and says that he is out thirty-five head now which he cannot account for. The dead stock was found near what is known as the little onion beds, and are supposed by some to have died from eating a poisonous weed, while other people claim the stock died from eating poison put out on the range.

Whether the facts surrounding the death of the stock will ever be known remains to be seen. The matter is to be thoroughly investigated, and if poison is found on the range, some one may be called to account for how it came there.

Fossil Journal, Gilliam county: A band of sheep belonging to Wagner & Eoyer of Wheeler county was shot into last week in the Black canyon country, in Grant county, about sixty head being killed. It is now pretty generally known that the sheep shooting has not as a rule been done by cattle raisers, but by sheepmen. A meeting of Wheeler county sheepmen is to be held in Mitchell Saturday, August 24, to devise means of putting an end to the lawless slaughter of their flocks.

TRYING TO ADJUST TROUBLE

Colombia and Venezuela Trying to Adjust Differences.

Washington, Sept. 3.—Telegraph advice were received at the state department stating that steps are taken to adjust the differences between Colombia and Venezuela in a peaceful fashion. Communications of an explanatory nature are passing between the governments. Danger of war, it is stated, has passed.

Venezuela's Understanding.

Washington, Sept. 3.—The Venezuelan minister of foreign affairs has handed to the United States consul at Caracas an official memorandum giving his country's version of the trouble with Colombia. It directly charges that invasion of Venezuela by Venezuelan revolutionists was directly connived by the Colombian government. It goes on to say that for this invasion of foreign soil, Venezuela holds herself in readiness for war.

WARMLY CHEERED TEDDY

Minneapolis Gives Him Warm Welcome. Some Receptions.

Minneapolis, Sept. 3.—Vice President Roosevelt was given a reception this morning by members of the Grand Army and Sons of Veterans. Civilians were barred from the building, but the great crowd waited outside to greet the vice president. When he entered the hall those present arose and shook the building with cries of "Teddy, Teddy." The enthusiasm with which he was greeted was fully as warm as that which marked yesterday's demonstration.

LOOKS LIKE DEFEAT FOR THE STRIKERS

The Trust is Running in Many New Men.

LARGE NUMBER PLANTS OPERATING

Shaffer Says the Amalgamated Committee is Not Investigating Him as to His Management.

Pittsburg, Sept. 3.—The work of running more men into the plants of the steel trust continues almost unaltered. Thirty-two additional skilled workmen were introduced into the Star tin plate plant this morning. The men were escorted to the plant by a large force of policemen and not a single picket attempted interception. Four of the Star mills are now running at normal capacity. Fifty machinists who went out last week at the Pennsylvania tube works returned to work this morning, as did seventy-five machinists and pipe cutters at the Continental tube works. No trouble resulted from these returns.

Says They're not Investigating.

Pittsburg, Pa., Sept. 3.—Shaffer today denied the statement that the executive council of the Federation of Labor is investigating the charges made by President Hickey of the Day View lodge of the Amalgamated that Shaffer had called the strike without provocation.

Hickey's Charge Against Shaffer.

Milwaukee, Wis., Sept. 3.—J. M. Hickey, former vice president, has put into specific form his charges against Theodore Shaffer, president of the Amalgamated. He thus defines his findings before the Bay View lodge: "I was informed," said Hickey, "that Judge Gary, a high official of the steel corporation, who was present at the conference, was in favor of signing the scale for all the mills in the combine, but this did not meet with the approval of Schwab, who thought it too radical a move. Mr. Morgan then offered Shaffer four additional mills for which he was willing to sign the scale as an experiment and then he told Shaffer that if the organization kept faith with these four mills and lived up to the agreement he would pledge his word that in two years every mill in the combine would be included in the contract with the Amalgamated association. This was the most reasonable proposition which has ever been made to the association and it was clearly the duty of Shaffer to have accepted it then and there, but instead of doing this, he turned it down flatly in a speech in which he declared that all must be signed or none. The representatives of the corporation, however, would not be forced or dictated to in this manner and they broke off the conference."

No Change at McKeesport.

McKeesport, Sept. 3.—The strike situation here is unchanged this morning. No attempt to go to work was made by the three hundred men who were barred out of the works by the strikers. Strikers are out en masse prepared to prevent any such move.

Yachts Did Not Finish.

Newport, R. I., Sept. 3.—The race between the Constitution and Columbia was called off at 6:30 p. m. yesterday, the boats being unable to finish within the time limit. When the race was called, the yachts were two and a half miles from the finish, the Columbia being considerably in the lead.

The Postponed race of yesterday between Constitution and Columbia did not take place today. A new set of sails will be bent on Constitution before she sails again.
