PRESIDENT TALKS AT EXPOSITION

He Says Such Institutions Are Educational.

OFFER OPPORTUNITY FOR SCIENCE

To Exhibit Its Products to the World—Great Crowd Heard the Chief Executive Speak.

Buffalo, Sept. 5.—President McKinley this morning delivered an address to the immense exposition crowds on the Esplanade this morning.

After the cheering had subsided he began his speech by expressing satisfaction in meeting and giving welcome to the foreign representatives present.

"Expositions are the timekeepers of progress. They record the world's advancement. They stimulate the energy, enterprise and intellect of people and quicken human genius."

The country, he said, is in a state of unexampled prosperity and "by sensible trade arrangements which will not interrupt our home production we shall extend the outlets for our increasing surplus."

Canton, O., Sept. 5.—Yesterday, President and Mrs. McKinley, accompanied by the officials of the Canton, Ohio, fair association, drove around the grounds several times, stopping at different places where something attracted their attention, but did not leave the carriage.

They watched one heat of a horse race from the back stretch, and the president pleasantly greeted a number of groups of children. Preparations for the start for Buffalo this morning made it a busy day at the McKinley home. It is necessary to provide a sort of traveling executive office so that official business may be taken care of during the trip of nearly two weeks and the special trunks prepared for this purpose were made ready yesterday. The president saw no callers during the day.

President and Mrs. McKinley left on a special train at 10 o'clock this morning for Buffalo.

The president's party will leave Buffalo on the return trip Saturday morning and will reach Cleveland in the afternoon.

In Cleveland the president will be the guests of Colonel and Mrs. Myron T. Herrick until Tuesday, when they will go to the home of Senator and Mrs. Hanna for the remainder of the week.

The president will participate in the exercises incident to the national encampment of the G. A. R. They will probably return to Canton September 14, to remain a few days, after which they will return to Washington.

German View on Roosevelt.

Berlin, Sept. 5.—Several papers comment upon Vice President Roosevelt's speech at the Minnesota state fair regarding the part the United States should play among the great nations: "One sees how leading American politicians demand an extension of the sphere of the power of the United States," says the Vossische Zeitung. "One sees this purpose more sharply emphasized in the competition offered to European influences. One sees also how the United States claims domiciliary rights in the internal and external affairs of all American countries."

"We know of no country that is trying to secure territorial extension anywhere in America, unless it be Great Britain, which is insisting on the observance of treaty rights in connection with the Nicaragua canal. The only country in the world now following a policy of expansion in America is the United States. The Americans think fit for domestic political reasons to show distrust as regards Europe, whereas Europe has better grounds for observing the plans of the United States with a reasonable distrust."

The Berliner Tageblatt says "the speech of the American vice president is a reassertion of the Monroe doctrine in the Jungo sense and shows how widespread in the United States is the chimera of European powers seeking territorial expansion in the western hemisphere."

Deacons orders were conferred on Professor C. A. Edwards of Mercury, Utah; H. Newman of Vail, Ore., and J. L. Springer of Caldwell, Idaho.

Some Changes Proposed.

Baker City, Sept. 5.—The Republican is responsible for the following: "An effort is to be made to enlarge the Idaho conference of the Methodist church by adding to it Umatilla county, Grant, Union and Wallawa counties of this state. The latter three were formerly a portion of this conference, but upon petition of the Columbia river conference, were added to the domain of that jurisdiction. With these four good counties added, it is the purpose to divide the Idaho conference into two districts, with a presiding elder in each."

Rev. C. E. Todd, pastor of the First Methodist church, returned yesterday from Pocatello where he has been attending the annual conference held there. Mr. Todd and Dr. W. W. Van Dusen, presiding elder of this district, and the two committeemen appointed at Pocatello to proceed to Walla Walla, where the Columbia river conference is to be held this week, and place the matter of division before Bishop Mallieau and the members of that body. Should the Columbia river and the Idaho conferences both petition for the change, the alteration of boundary lines would certainly be made, and another presiding elder would be added to the Idaho conference. Formerly Grant, Union and Wallawa counties belonged to the Idaho conference, but were cut off at the request of the Columbia river body. It is understood that they will readily be transferred back now. Rev. Todd will leave Baker about Thursday on the mission."

LABORERS ARE CONSIDERING A PEACE PROPOSAL

Want Schwab and Shaffer to Compromise.

AMALGAMATED BOARD IN SESSION

The Strike Seems to Be on the Wane and a Settlement in the Immediate Future is Imminent.

Pittsburg, Sept. 5.—The executive board of the Amalgamated were in session here this morning for the purpose of considering a peace proposition the same as that considered yesterday at New York. It is understood the Amalgamated people have 24 hours from yesterday in which to accept or reject the proposed settlement plan.

Counter Proposition Was Made.

It is reported this morning that the advisory committee has made a counter proposition to the ultimatum formulated by Schwab. It is understood to be an agreement to re-open the mills pending a settlement by arbitration, which has been Shaffer's hobby since the strike was declared. The board this morning finally rejected Schwab's proposition and notice to that effect and the counter propositions have been laid before the steel trust president today.

Later, the advisory board and Federation of Labor representatives went into secret session. Action of importance with relation to the strike was expected to be taken.

Men Resuming at McKeesport.

McKeesport, Sept. 5.—Three hundred men went to work this morning in the Demmler tin plate mill and the plant is now in operation for the first time since July 1. All the men now at work are old employees. About five hundred men returned to work at the National tube works this morning. A crowd of strikers were around the plant, but no attempt was made to keep the men from going to work.

Laborers Consider For Peace.

New York, Sept. 5.—Undaunted by Shaffer's rejection of the Schwab peace proposition, the Civic Federation committee again met today to devise some means of bringing the strike to a close and to discuss the rejection of Schwab's proposition and the Amalgamated's counter proposition. The committee declined to say one word on the situation.

The conference broke up at 3 o'clock. Shaffer was immediately called up on the long distance telephone by Summers and Mitchell, but neither had anything to say for publication.
