PRESIDENT M'KINLEY WAS SHOT BY AN INSANE MAN TODAY.

Buffalo, Sept. 6.--While on the Pan-American Exposition Grounds today President McKinley was shot by an insane man twice. Both wounds are regarded as serious.

PANAMA INVASION REPORT

A GENERAL MIXUP PROMISED ON THE ISTHMIUS.

Expedition Goes From Ecuador With Vessels and Supplies.

Washington, Sept. 6.—News of the invasion of Colombia by an expedition coming from Ecuador with vessels and supplies will, it is expected, be followed by the announcement of a land attack on the Colombian frontier from the neighborhood of Maracaibo, Venezuela, where Paez Urae, revolutionary leader, was collecting his forces when last heard from. That there is a strong possibility of a naval battle between Equadorians and Colombians somewhere along the Pacific coast of Colombia is denied on good authority. Ecuador is actively interested in the invasion. The only charge that could be brought against that government is that it did not exercise sufficient diligence to prevent the departure from its ports of the filibustering expeditions.

THE COLUMBIA'S CHANCES

New York Yacht Club Members Still Hope Constitution Will Yet do Something.

New York, Sept. 6.—The selection of Columbia to again defend the America's cup is the topic of discussion in the yachting world today. Opinion as to her chances against Shamrock II, is that it will probably be more evenly divided than in any previous cup contest. Even at this early date the New York Yacht club members state that Constitution will be sent across to bring the cup back if Columbia loses it.

Nebraska Bank Closed.

Broken Bow, Neb., Sept. 6.—The Farmers' bank of Custer county has closed on the advice of the secretary of the state banking board. Slow collections and poor paper are given as causes. The last statement showed resources \$84,628 and liabilities \$65,000.

Wisconsin Fire.

Jefferson, Wis., Sept. 6.—Fire this afternoon destroyed the plant of the Wisconsin Manufacturing company, owned by the C. Stoenbach packing plant, then the Methodist Episcopal church, which were destroyed, and nearly all the houses in the district are on fire. The loss will reach \$150,000.

Asphalt Matters to be Settled.

New York, Sept. 6.—A statement is published today by the Warner-Quinn Asphalt company and National Asphalt company that the trust have made a working agreement which may lead to consolidation and peaceful settlement of the contest over asphalt deposits in Venezuela.

English Trades Union Will Fight.

Swansea, Wales, Sept. 6.—The trade union congress today voted to accompany a fund to fight the house of lords' picketing decision "and other legal wrongs."

Thirty Chinese, all of whom are said to have amassed small fortunes in Chicago have left for San Francisco, where they will take the steamer for China. They return to their native country to spend the remainder of their lives in luxury. Those who left Chicago will be met in San Francisco by others from Indianapolis, Boston and New York, who will also depart on the same steamer. Most of the Chinamen had been in Chicago many years, and all were engaged in some business. Each man is said to have had at least \$1000 to \$5000 in his possession.

The Truth

It told by most people. If it were not, the whole commercial and social fabric would fall to pieces. There are thousands upon thousands of people who testify to the cures effected by Dr. Pierce's Golden Medical Discovery.

They speak the simple truth when they testify that "Doctor Pierce's Golden Medical Discovery cures dyspepsia, "weak" stomach and other diseases of the stomach and its allied organs of digestion and nutrition. It cures when all other remedial means have failed. It cures perfectly and permanently.

There is no alcohol in the "Discovery" it is free from opium, cocaine and all other narcotics. Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is nothing "just as good."

It was a total wreck—could not eat or sleep," writes Mr. J. O. Beers, of Berryman, Crawford Co. Mo. "For two years I tried medicine from doctors, but received very little benefit. I lost flesh and strength, was not able to do a good day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep, and my appetite was wonderfully improved. I have taken five bottles and am still improving."

FIRST BULLETIN RECEIVED

President Shot Fatally by Two Men, Said the Report That Came Early This Afternoon—Later News Was More Favorable and Carried Hope That He Would Recover.

Buffalo, Sept. 6.—President McKinley was shot fatally by two men this afternoon on the exposition grounds.

One Man Did the Shooting.

Buffalo, Sept. 6.—President McKinley was shot twice at the Pan-American grounds this afternoon by an insane man. One bullet took effect in the shoulder and the other in the breast. He has been removed to the service building hospital on the grounds.

Second Bulletin.

Buffalo, It is now said that one bullet struck the president in the chest, the second in the groin. Both wounds are serious.

Was Holding a Reception.

Buffalo, Sept. 6.—The president and party spent the morning in company with Mayor Deatler, and, with an army escort, visiting Niagara Falls and driving about that city. After luncheon, the power house was visited. From there the party returned to the exposition grounds, and was holding a reception at the Temple of Music when the shots were fired.

While shaking hands with the president with his right hand, the man had a gun in his left hand, and fired two shots. Mr. McKinley fell backwards at the first shot. The man was arrested. His name at this time is not learned. The president's condition is serious, but not necessarily fatal. Great crowds surrounded the temple of music at the time of the shooting.

Had the Revolver Concealed.

Buffalo, Sept. 6.—At the reception a young man was pressing forward to shake hands with the president. His right hand was apparently done up in a handkerchief, but beneath the handkerchief a revolver was hidden. As he approached the president, he produced his left hand, at the same time revealing the revolver in his right. With a quick move he fired two shots. A crowd gathered around the assassin, but was driven back by the exposition guards. Secret Service Detective Foster closed in on the assassin, and grabbing him, knocked him down with a powerful blow. The police then interfered, forcing Foster back, who finally calmed down. The police did not dare to remove the prisoner from the Temple of Music, as the crowd on the grounds were anxious to take his life. The doctors are now working over the president. When the president fell, he was caught by Secretary Cortelyou, and President Milburn of the exposition. The shooting took place at the Temple of Music shortly after 4 o'clock while the president was holding the reception.

One Bullet Removed.

Buffalo, Sept. 6.—The physicians attending the president stated at 5 o'clock they had succeeded in removing one bullet from the president's body. The president bears up wonderfully well under his terrible suffering. Name is Frederick Neuman.

Buffalo, Sept. 6.—The assassin's name is Frederick Neuman. He is from Detroit. Neuman is a man about 23 years old and was fairly well dressed.

Mrs. McKinley Not Told.

Buffalo, Sept. 6.—At 5:15 o'clock, Mrs. McKinley had not been told of her husband's shooting.

Intense Excitement.

Buffalo, Sept. 6.—As may easily be imagined, the excitement about the grounds and throughout the city was intense. Nothing like it has been witnessed since Lincoln was shot in 1865 or Garfield in 1881. Men remembering both events say the consternation was just like that that marked the masses when those former chief executives were shot down by the assassins who took their lives. These recounted the scenes that transpired at those times, and as a matter of course the shooting was the sole topic of conversation. Great crowds pressed forward to learn the very latest reports as to the president's condition, and bulletins were posted everywhere throughout the city.

Indignation was mixed with sadness that the president lay suffering from wounds inflicted by any man, whether insane or anarchistic. Theories flew from mouth to mouth. All sorts of explanations were offered, some being that the assassin was a member of the international society of anarchists, from whom or late so many attempts at the lives of rulers have come. This theory found acceptance with many.

On the other hand, it was asserted that the man was merely a crazy fellow such as have frequently, during times of excitement, stirred by the tension of the moment, resorted to such bloody deeds to release their nervous tension.

At the time of the shooting, it was with the greatest difficulty that the crowd was kept from killing the man. If the guards had not stood like a serried column against the pressing mass, they would have secured possession of him, and he would have been torn into a thousand fragments.

Even Detective Foster, who first closed with the man, was in a frenzy, and, unless deterred by the guards, would have finished him on the spot.

He Said One Wound Pained Him.

Buffalo, Sept. 6.—After an examination by ten physicians, Secretary Cortelyou asked the president if the wounds were painful.

"This wound," raising a hand to the one in the chest, "hurts me severely," he answered the president. When the shooting occurred, the president was surrounded by the usual number of secret service men and detectives, but none particularly noticed the man who fired the shots.

Mark Hanna Prostrated.

Buffalo, Sept. 6.—Dr. Miller, Mann, Thomas and Peyrera are attending the president. Neuman is an anarchist of Polish nationality. Mark Hanna is prostrated with grief.

Probing for a Bullet.

Buffalo, Sept. 6.—Dr. Rowell Park, an eminent surgeon of Buffalo, is now probing for the bullet in the abdomen. Two physicians express an opinion he will live.

Precautions Had Been Taken.

Buffalo, Sept. 6.—The authorities all along feared an attempt on the life of the president. It was announced yesterday that every precaution had been taken to safeguard him against any such attempt, and detectives and policeman were on all sides. President McKinley has always traveled about the country without more than usual guarding than is given to public officials, and regretted that in this instance it seemed necessary to resort to uncommon measures to protect him from the fury of possible cranks and assassins.

NO PEACE IN STRIKE WAR

PROPOSITIONS OFF SQUINTING AT A SETTLEMENT.

Schwab Sends Orders to Start the Trust Mills Immediately.

New York, Sept. 6.—Gompers, admitted this afternoon that efforts at settlement of the strike have failed.

Gompers and two other members of the committee held an informal conference this morning and had several talks with Shaffer over the telephone and then arrived the conclusion it was useless to make a further effort to bring about peace.

"I'm negotiations," he said, "practically ended last night."

Pittsburg, Sept. 6.—It is announced the steel trust's second proposition has been turned down by the Amalgamated, that the trust announces no further negotiations will be had and severs all dealings with the Amalgamated. The trust will now try to start up the mills at once. This statement is not officially confirmed, but is practically borne out by a dispatch from New York which says the Civic Federation peace committee called on Schwab this morning and was informed by him that he had issued orders for resumption of all mills tonight.

This afternoon Schwab wired the steel trust officials here that all negotiations are off.

Trust Will Fight it Out.

Pittsburg, Sept. 6.—Whatever the Amalgamated advisory board may do at the session this evening will have no effect on the declared intention of the steel trust to use their best efforts to start the plants as best they can. In fact, as soon as the declaration becomes generally known among the workmen, a stampede is expected. At McKeesport this afternoon a notice was posted calling on the old employees to return to work no later than on Monday or new men would fill their places.

Repeal the Civic Federation.

Pittsburg, Sept. 6.—Late this afternoon the Amalgamated executive committee announced it will not negotiate through the Civic Federation and that Schwab must deal directly with the association.

At Last Settlement Seems Near.

Pittsburg, Sept. 6.—Hope that the steel strike may at last be settled is warranted by the hurried assembly of the Amalgamated executive board this morning to consider a more recent peace proposition submitted by Schwab. The members of the board immediately went into secret session. Some of them expressed the belief that peace would be reached as the result of today's conference. They are more cheerful in spirit and are unanimous in the expression that any honorable terms of settlement would be accepted. It is believed the new plan carries considerable more favorable to the workers than those at first submitted.

More New Workers at Damier.

McKeesport, Pa., Sept. 6.—A number of new men brought into the Demmale in place of those who were laid off. Six mills are in operation here today.

A Big Robbery.

Los Angeles, Calif., Sept. 6.—Dr. Woodard, who is supposed to have committed a robbery of \$29,000 at San Pedro, left Santa Paula for San Francisco. The sheriff offers a reward for his arrest. It is supposed the money is counterfeit. The district attorney wired Fort Dodge to cancel the deeds.

The general fruit crop of the lower Rogue River valley is exceptionally good this season. The peach crop, which is well advanced is proving of unusual magnitude.
