Co. has been traveling the road between here and Cayuse and at night, the signal whistles of the trains have caused Pendleton citizens a good deal of unrest. Weston Leader: The same of activity at the new normal school building has temporarily ended. The entire force has been laid off for a day or two on account of a delay in the receipt of window frames. These had been ordered in plenty of time, but for some reason are not yet in evidence. Walla Walla Statesman: The Walla Walla season of many months duration ended yesterday a terrible winter. Sam Ash was granted a license to conduct a school in that place. A petition signed by thirty residents was filed with the county commissioners objecting to the issuance of the license. Monical, who lately resigned the chair of sciences in the eastern Oregon state normal school, is now city superintendent of public schools at Paris, Ill., a good sized city near the Indiana line. Prof. Monical's valuable work in the school here occasioned much regret at the loss of his services, but Weston friends wish him well in his new field. Dr. Rosalie Slaughter of Lynchburg, Virginia, arrived in Pendleton on last evening's train from Portland, and will make a short visit with friends here. Dr. Slaughter has just returned from a three years' residence abroad, arriving in San Francisco from China and India a few days ago, coming from that city to Pendleton. She spent considerable of her time in the government hospitals of Germany, Russia and India to better fit her for the practice of her profession as a surgeon and physician. She is en route to her home in Virginia, where she will visit for some time before deciding upon a location, which she thinks will be west of the Rockies, as she is more than pleased with the west, particularly with what she has seen of Oregon and California.

### AN ORIGINAL BEAR STORY

Col. J. B. Raley Furnishes One For the Oregonian. James H. Raley and family have just returned from Fly Valley, Union county, where they have been on a ten days' camping excursion. Mr. Raley says that he enjoyed rare sport during his stay in the mountains and that he found all the fish and game that he could find. Among his experience at Fly Valley, Mr. Raley has a bear story. The substance of it is that he killed an enormous cinnamon bear. When he found that the cinnamon bear was dead he started after the cub and killing that, he went back to look for the bear and found that it had entirely disappeared. Thinking that the cub would at least prove a good story, he returned to the spot where he had left it, and to his intense disappointment the cub also had gone. "That is why," says Mr. Raley, "I don't bring a huge bear skin home with me."

### THE HOSPITAL IS ASSURED

Sister Stanislaus Has the Complete Authority to Proceed With the Work. Communication has been received at St. Joseph academy from Sister Stanislaus regarding the new hospital. The hospital board at Philadelphia has entrusted the matter entirely to her discretion and has decided to furnish the necessary funds over and above the \$5000 now subscribed. It is estimated that the building when complete will cost somewhere between \$10,000 and \$15,000. Sister Stanislaus left Philadelphia on Monday and is making visits to the mission at Hildaway, Baker City and La Grande. She will probably arrive here some time next week.

### ENGLISH MADE A CAPTURE

Boers Lost Heavily Near Petersburg in Killed, Wounded and Captured. Middleburg, Cape Colony, Sept. 6.—Col. Scobell's column has captured the whole of Letzer's commando near Petersburg. The Boers lost 12 killed, 46 wounded and 100 prisoners. Two hundred horses were also captured. Captured Some Commandants. London, Sept. 6.—Lord Kitchener in reporting Scobell's success at Petersburg says Commandants Lotter and Bressel, two field cornets and one lieutenant are among the captured. British casualties were ten killed and eight wounded. He also reports three hundred Boers crossed to the south side of the Orange river on Thursday and that the British are in pursuit.

### Athena Examinations.

Athena, Sept. 6. On Friday morning, September 13, at 9 o'clock, examinations will be conducted in the 4th, 5th and 7th grades. This is done for the reason that school closed last year before final examination. Mr. and Mrs. N. A. Miller and son returned from Portland Tuesday. Mrs. Miller and son spent two weeks on the coast. While in Portland Mr. Miller purchased a large bill of furniture for his Athena store. Mrs. G. C. Osburn returned Wednesday from a month's visit with relatives in the Willamette valley.

### Abducted Leaders Return.

New York, Sept. 6.—A special to the Herald from Key West says: Thirteen of the abducted leaders of the striking cigar makers at Tampa, Fla., have returned from exile. They arrived on a small schooner, Macaroni, on a barren, uninhabited island off the coast of Honduras; they had, by an unexpected turn of fortune, escaped death from starvation. The authorities at Washington have instructed the United States district attorney at Jacksonville, Fla., to make an investigation.

### A Few Natives Employed.

The East Oregonian is in receipt of a letter from E. W. Vaillie, assistant superintendent of the railway mail-service, Portland, in which he states that a slight error was made in the text of a recent interview printed in this paper. He said: "No natives are employed in the Philippines to handle the American mails, only trained American clerks make the distribution. We have not a clerk, about as many as there are American clerks, but they have never been employed in separating mails from the states."

J. F. Mahon says that beavers are in fine condition in Harney valley; that they are plentiful, and buyers are allowed on the ground. He says the general outlook for a good fall market for all kinds of stock is good. The British have bought up about all of the scrubby horses for the South African war, and that nothing but good horses remain, and the scarcity has raised the price.

Accept the Protocol. Pekin, Sept. 6.—The foreign ministers have accepted the imperial edicts and arranged to sign the peace protocol tomorrow.

### COUNT BONI SOLD YACHT

Seattle, Sept. 6.—The Earl of Crawford has bought the auxiliary steam yacht Va-yah, owned by the Count and Countess Boni de Castellane. The Va-yah was bought by the Count and Countess Boni de Castellane in 1890. It was said at the time to be one of the count's ambitions to be a great yachtsman, but his unfortunate accident has prevented him from carrying out this ambition. Before being bought by the Castellanes the Va-yah belonged to Joseph Frederick Laveock, an English banker, and was in New York harbor at the time of the races for the America's cup between the Valkyrie III. and Defender. The yacht which originally cost \$450,000 is the largest vessel of her kind in the world, and depends almost entirely on her sails. She was constructed in 1892 and is a very beautiful ship, the lines of her hull especially graceful. She is 101 feet long and 23.6 feet beam and 20.7 feet in depth. Her mainmast is 123 feet long and her mainmast 111 feet.

### GEORGE O'BRIEN PROTESTED

When Charged That He Was Innocent of Murdering Clayton, Self of Olson. Seattle, Sept. 6.—Details of the hanging of George O'Brien at Dawson August 10 have reached here. Clayton, Lynn Wallace Relfs or one Olson, as charged against me, and for one of which murders I am sentenced to death. My defense as written by an and delivered to one George, to be published, is true in all particulars. I make this declaration as my last statement on the day previous to the day appointed for my execution. I and I protest with all my powers that I am innocent of the crimes charged against me and that I am to suffer for the deeds of others. GEO. O'BRIEN. "Witnesses: GEO. H. TWEEDY. "JOHN A. CONNOR."

### Business Not to Be Annulled.

New Whatcom, Wash., Sept. 6.—The report sent out from Vancouver, B. C., quoting Engineer McArthur of the Dominion boundary commission, as saying that "The resurvey of the international boundary line between this state and British Columbia, might result in placing the greater portion of the city of Blaine, Wash., in Canadian territory," is said to be the purest romancing. The boundary commissions of the two governments are charged simply with the work of selecting the line in places where the lapse of years has denuded it, and they are vested with no power whatever, to make a new survey.
