LIBRARY WORK OF THE CLUBS
 THEY HAVE ESTABLISHED SEVERAL IN OTHER TOWNS.
 Fall Meetings Will Begin Soon in Pendleton—Notes From the Various Organizations.
 A most article appeared in the August Club Journal of Portland over the initials "L. E. M.," relative to library work in eastern Oregon. The author is evidently an enthusiastic Pendleton club woman and thoroughly cognizant of the beneficial effects of a traveling library in the rural districts. She tells of the progress of the library work since it was first inaugurated by the woman's clubs of Pendleton in November, 1900. William L. Brower started the good work by donating a number of books, which were immediately dispatched to the neighboring towns. A new case has been added nearly every month, which speaks well for the energy of the women of Pendleton. In pursuing the subject, the author calls upon the women of the state to interest themselves and their friends in the work in order to build up a traveling library system worthy of the cause. Mention is made of the gift of a box of books donated by the state president, Mrs. C. E. Wade, and of another given by the Thursday Afternoon club.
 All of the clubs have been adjourned for the summer and no meetings will be held until the last of this month or the first of October.

JIM MEANS LICENSE DENIED
 Some Excitement in County Court Over the Application.
 In the county court, yesterday afternoon, the petition of J. H. Means, Echo for a liquor license was brought up for consideration. A remonstrance was filed by J. H. Koontz of Echo. Attorneys Stillman & Pierce argued in favor of the petition and Carter & Ray for the remonstrance. The case was peculiar from the fact that 20 of the names on the petition also appeared on the remonstrance. The petition was signed by 83 of the 127 legal voters of Echo precinct, and, according to the laws, a majority of the voters is required before the petition can be granted. The arguments were continued until near noon today, when the court decided that the 20 names should be stricken off both the petition and the remonstrance. That left 63 names on the petition, where it was necessary to have 64 in order that the license might be granted. Mr. Stillman said this afternoon that the case would be appealed to the circuit court. It is expected that all the business before the county court will be finished this evening and the court will then adjourn until the time for the next regular session.

THE NEW GROCERY STORE
 F. S. Younger & Son Have Made It Very Attractive.
 F. S. Younger & Son, the firm from the Willamette valley who bought the White Horse Grocery from Dupuis & Thompson, have transformed that place of business into one of the most attractive in the town. They have added 18 feet to the front room, and filled it with a line of fancy goods that will please the housewife who is in search of that with which the table must be supplied. There is about the store an air of business and order and thoroughness that indicates the trained merchant and caterer to the wants of the public.
 The affairs of the new house will be cared for by this force: F. S. Younger, senior member of the firm; E. F. Younger, junior member; W. H. Harrison and E. F. Chapler.

WOOL GROWERS' MEETING.
 If Enough Attend, One and One-Third Fare For Round Trip.
 It is learned that the meeting of the Oregon Woolgrowers' Association at Heppner on the 17th will be of great interest. Among other things a new constitution and bylaws will be adopted. D. Belts of Pendleton, who is president, has received word from the O. R. & N. Co., that a rate of a fare and a third will be given subject to a total attendance of fifty or more paying full railroad fare of 50 cents or more going. Those attending this meeting will purchase one-way tickets at starting points not more than three days prior to the opening of the meeting, taking receipt therefor. These certificates when properly filled out showing full fare paid going, not more than three days prior to the opening of the meeting, signed by the secretary, and the holder has been in attendance at the meeting, (provided the attendance is sufficient) will be honored by the agent at Heppner up to and including one day after the close (Sundays not included) for tickets to return to starting points at a third fare, with minimum charge of 25 cents.

New Diamond Fields Discovered.
 Advice reach us of new diamond fields discovered in British Guiana. Dealers consider these stones superior to the South African diamonds and equal in quality to those of Brazil. Although these new fields are not easy of access, it is presumed that many adventurers will be attracted there. Things of great value are always sought after. That is the reason Hostler's Stomach Bitters is always preferred by those who need a reliable medicine for stomach, liver, kidney and bowel disorders. There is no medicine so good for dyspepsia, indigestion, constipation, biliousness, or malaria, fever and ague. It also cures nervousness, insomnia, and acts as a tonic to the run down system. Try it, but insist on having the genuine. It never fails.

TWO MORE INSANITY CASES.
 F. A. Johnson and John Short Confined in the County Jail.
 There are two men in the county jail supposed to be insane. One is F. A. Johnson, who was brought up from Echo yesterday. He had been doing some placer mining on the Umatilla river about three miles from Echo. He had a tent near the place where he washed and on the front of it was a padlock to keep burglars out. A sign near the tent warned people to keep away or there would be trouble. Other peculiar actions convinced the people in the vicinity that the man was crazy and a complaint was made against him. Dr. Vincent examined him today but could not be sure that it was a case of insanity. Johnson will be kept in custody for a few days when another examination will be made.
 John Short, the negro, who has been confined in the city jail for the past five days for vagrancy was turned over to the county officials today. He has suddenly become insane and is a fit subject for the asylum.

CONFESSION.
 An item on another page regarding rates to Spokane fair which reads tickets sold September 9 "expire September 23," should read "Sept. 1b."

THE NEW YORK MARKET EX-CHIEF BRISBO RETURNS
 SAYS HE CAME HOME TO PROVE HIS INNOCENCE.
 He Stopped at Walla Walla to Find His Father's Remains.
 Ed Brisbo, ex-chief of police of the Umatilla Indian reservation, reappeared in Pendleton last night. He went away about a week ago, because, as he said, he was afraid that the friends of Black Horn had a conspiracy to kill him. While absent at Butte, he heard that it was rumored here that he had left town because he had committed rape on a young Indian girl, and was afraid of the consequences. He immediately took the train for Pendleton and is now here. He says that he is turned purposefully to be where he can be found if there is any such charge against him.
 Brisbo is still at large and the proper authorities say that no complaining witness has appeared. It seems probable to some from the foregoing fact that the accusation is without foundation.
 Jessie Devine, a cousin of the ex-chief, is here from Walla Walla and has come with the intention of affording Brisbo all the protection in her power. She will not believe anything against him.
 On his way from Butte, Brisbo stopped at Walla Walla purposely to discover the grave of his father and to remove the remains to the place where his mother's body lies. He left with his cousin for Walla Walla this morning.
 Before leaving this morning Brisbo announced that he will return on Sunday evening to remain here permanently.

THE NEWS IN PENDELTON.
 All Business Suspended While People Talk of the President's Condition.
 It is a mere matter of perfunctory record to write that the news of the president's shooting by the anarchist Goldberg in Buffalo has been the one absorbing topic on the streets of Pendleton in the stores and offices, in the homes and, indeed, everywhere. Business has been practically at a standstill, and people have been awaiting only for latest news of the president.
 Dr. William House of Heppner who is here today, personally knows Dr. Rowell Park, the surgeon who is attending Mr. McKinley. "Dr. Park," said Dr. House, "is one of the most skillful surgeons in the United States, and with his assistants will give the president the best of care."
 All of the local physicians and surgeons are studying the case as best they can from the press dispatches received by the East Oregonian, and, although giving but cursory opinions, seem to think that, if the bulletline have told the exact truth regarding the condition of the president and his wounds, he has large chance for recovery.
 Like the thousands of citizens all over the country, the people here are earnestly praying that this hope may be well founded.
 Swiftwater Bill Released.
 San Francisco, Sept. 6.—Word having been received from the chief of police of Tacoma that no one in that city was willing to prosecute "swiftwater Bill" Gates, he was released from custody. It is believed that he has left the city with his bride, with whom he eloped from Tacoma several weeks ago. He was recently divorced.
 Chickens Take a Ride.
 The Atlanta Journal tells how a fast Pullman train, running in places at sixty miles per hour, from Wrightsville, N. C., carried to Atlanta, three hundred miles away, six North Carolina chickens on a car truck. The train was sidetracked for a little while at Wrightsville, and it is supposed it was the time that North Carolina chickens retire for the night. They found the trucks and went to roost. Either they did not wake up, or they liked the motion, or had the original tramp instinct in them. Anyway, they rode the three hundred miles and more, and for all we know are crowing over the exploit still.
