THE ANARCHIST CZOLGOSZ

HE CARES NOT FOR HIS SUFFERING VICTIM.

Appetite not Affected by His Bloody Deed - Thought he Will Tell Officers What he Knows.

Buffalo, Sept. 9.-Czolgosz slept from 9 last night to 6 this morning. His appetite does not seem to have been hurt any by his act. He will be taken before the superintendent of police and other officials during the day. It is thought he is ready to tell all he knows. He makes no inquiries as to the condition of the president and apparently cares nothing at all as to the outcome of his injuries.

Wanted a Cigar and Paper. Buffalo, Sept. 9.-So soon as Czolgosz awoke he asked for a cigar but was refused. He asked for newspapers several times but these were also refused.

Chicago Anarchists Arraigned. Chicago, Sept. 9.-The twelve anarchists arrested here Saturday were arraigned this morning to answer the charge of conspiracy to assassinate the president. The cases were continued to September 19. Nine were refused bail, but the bond of the three other prisoners was fixed at \$3000 each. It is not likely they can all furnish bail. The male prisoners demanded immediate trial and manifested great indignation when it was refused, denouncing the action of the judge as persecution.

"There Will Be Other Czolgoszs!" Buffalo, Sept. 9.-The police say Czolgosz is breaking down and will reveal the entire plot before 24 hours have passed. The prisoner has spent at least half of his time since the arrest in the sweat box. In the midst of his examination on Sunday night Secret Service Officer Foster asked: "Why did you do it? Didn't you know there would be other presidents?" "Yes!" cried the prisoner, jumping to his feet excitedly, and there will be other Czolgoszs, too.

"Then there are others?" "Yes, but they had nothing to do with me."

After Emma Goldman. Pittsburg, Sept. 9.-Carl Nold, leader of the anarchists in this vicinity, was arrested this afternoon. Charges against him are not yet known.

St. Louis, Sept. 9.-The police say Emma Goldman is near here and will have her under arrest before sundown.

Buffalo, Sept. 9.-The police today received a telegram from New York saying Emma Goldman is on the way to Montreal or already there. The Montreal police are asked to keep close watch for her.

Goldman Perhaps in Pittsburg. Pittsburg, Sept. 9.-If Emma Goldman is not in Pittsburg she is on her way here. The police today found her trunks at a local anarchist's house. Nold, who was arrested this afternoon, is being sweated for information regarding her whereabouts. He was with her when she was last seen in Pittsburg.

RUSSIA TAKES A HAND Offers to Mediate Franco-Turkish Dispute-Turk's Proposition.

London, Sept. 9.-Diplomatic circles at Constantinople hear that Russia has offered to mediate in the Franco-Turkish dispute and that Turkey offers to settle for 100,000 Turkish pounds.

Veterans at Cleveland. Cleveland, Sept. 9.-The G. A. R. encampment is on. Thousands of veterans already are here and more are arriving on every train. The city is beautifully decorated.

Famous Cyclist Dead. New York, Sept. 9.-John Nelson, the famous cyclist, died this morning as the result of the amputation of his leg made necessary by injuries received in falling in a race on Wednesday night.

Sid Darling, 1012 Howard St., Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. Tallman & Co.

GO AFTER THE ANARCHISTS American Police Will Hunt Them in All Places.

Washington, Sept. 9.-Major Richard Sylvester, a president of the National Association of Chiefs of Police of the United States and Canada, has taken a decisive step looking to the adoption of a uniform policy throughout the world in dealing with anarchists by addressing a letter to the board of directors of the association and requesting their co-operation in bringing the various heads of the police departments of the world together in convention. The communication is as follows:

"The National Association of Chiefs of Police of the United States and Canada at the last annual meeting adopted a resolution inviting the heads of foreign departments to participate in our annual discussions, and the distressing calamity, which this country has recently experienced throughout the assault by an unknown assassin, confirms the belief that the importance of the resolution should be impressed on foreign officials, with a view of having such of their number present at our next annual meeting as may be able to attend; with this hope that a closer relationship may be established officially and personally and that there may be an interchange of opinion as to the best methods to be pursued to eliminate from society such organizations and persons as may be evilly disposed toward institutions of government, and those charged with their conduct."

Twenty Drowned in Danube. Vienna, Sept. 9.-Two river steamers collided in the Danube near Alsenburg today. Twenty were drowned.

Riot in Syria. London, Sept. 9.-During a wage riot at Aleppo, Syria, the troops killed 15 persons and wounded 28. Three soldiers were killed.

Don't wait till you become chronically constipated but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. Tallman & Co.

PRESIDENT'S CONDITION IS MORE FAVORABLE.

Buffalo, Sept. 9.--6 p. m.--"The President will live" is the cheering statement of the physicians and surgeons. His condition becomes hourly more favorable.

restless night and that it could be construed in any way to warrant fears on the part of the public. He added: "Situation is entirely natural that a patient who is in such a condition should have some periods of restlessness, but he is receiving no anesthetics, and is fully conscious at all times when awake and his mind clear. Of course, the danger point is not passed, but the continued absence of unfavorable symptoms strengthens hope."

Condence on all Sides. Buffalo, Sept. 9.-Mrs. McKinley is feeling strong and cheerful and her brave conduct is a source of strength to those about the stricken husband's bedside. Everyone appears cheerful and particularly is this true of Hanna, Roosevelt and Cortelyou. A great stream of relatives and distinguished men have poured into the house since early morning. All the visitors left with a feeling of confidence that the president would recover.

Dr. Park Gives Hope. Buffalo, Sept. 9.-Dr. Park said this afternoon he was confident the president would live. He denied the early report referring to the president's

USE OF THE X-RAY MACHINE Dr. Knoll Brought One From New York to Buffalo.

Buffalo, Sept. 8.-Sunday evening-At 10 o'clock Dr. Knox, who brought the X-Ray machine from New York, reached the Milburn residence with the machine but it is understood the physicians will not make use of it at present unless symptoms of inflammation appear in the locality where the bullet is supposed to have lodged.

Shortly after 10 o'clock Dr. Charles McBurney, the famous New York surgeon, drove hastily up to the residence. He was accompanied by Secretary Cortelyou and Mr. Milburn, who had met him at the station.

Dr. McBurney was at Stork Bridge, Conn., when the summons to come to Buffalo reached him. It is explained that Dr. McBurney's appearance in the case has no immediate significance. It was simply desired that the best talent in the country, medical and surgical, should be present in order that in the event of a fatal termination of the president's wound there could be no criticism of his family and friends would have nothing to write to Mr. Alexander. "I feel certain the president will get well. This is not 1881, but 1901, and great strides have been made in surgery in the last 20 years."

Buffalo, Sept. 9.-Dr. Knoll who brought the X-ray machine here this morning it was doubtful from present conditions if the apparatus will be utilized, although it will be prepared for instant use.

HOSPITAL PLANS SOON KNOWN. Sister Stanislaus Comes This Week to Meet Architect Blanchard.

Pendleton people will soon know the plans of the order of St. Francis relating to the proposed and now assumed hospital for Pendleton. Sister Stanislaus will have entire authority in the premises. She is a much more important figure in the work of the Roman Catholic church hereabouts than most Pendletonians know.

Sister Stanislaus, who is superior of the St. Joseph's academy, is an aunt home from Philadelphia. There she attended a convocation of the order of Sisters of St. Francis. She is mother-provincial of the province comprised of Oregon, Washington, Montana, Idaho, Utah and Wyoming, and has visits to make at Rawlins, Wyo., Boise and Baker City. She will arrive this week and meet here DeMoss Blanchard of Seattle, the architect who draws plans for all hospitals and convalescent academies built by the order in this province. He is an expert.

Milton Eagle: One evidence of the prosperity of Milton is the extensive building operations that are going on in the community. The Milton Lumber Co. is kept busy filling orders and on one day this week their sales amounted to over \$500 and several other days reached nearly that amount. Manager Putnam informs the Eagle that he has contracts with the Fletcher Milling Co. for over 650,000 feet more lumber and says that when this is gone there is plenty more where it came from.
