THE GOVERNORSHIP MATTER

Program Note and Interview With Moore of Baker City.

By the Evening Telegram editor. "Ex-Judge Lowell professes considerable confidence in a successful bid of his candidacy for governor, and has a strong rival in his own right, it would seem that he is not yet all over the eastern Oregon woods."

The Telegram prints an interview with Walter Moore of Baker City.

"Judge Stephen A. Lowell's production did not create any surprise, and his opponents, George E. Young of the Republican, L. E. Bowen of the Democrat has a live of bees, buzzing for it."

WHEAT SALES ARE SLOW

LOCAL VALUES, 43 CLUB, 44 BLUESTEM, WITH LITTLE DOING.

Sales of Wool in Boston Market are Less But the Price Remains the Same.

Pendleton, Sept. 2.—The local market is quotable: Club, No. 1, 43c; bluestem, 44c. Sales are inconsequential. Buyers complain of generally unfavorable conditions obviating better prices. Growers hold opinion that improvement will occur later. Hence, practically no sales.

Portland—Dull Market.

Portland, Sept. 12.—The Commercial Review says: "The local wheat market is dull and spiritless; there is nothing doing whatever. Farmers are all busy attending to farm work and have not begun to move their crop to warehouses, and are not selling freely. Some sales are reported daily, but not enough to ent any figure in the market here. The dullness is attributed to the foreign markets, that have reported declines daily in the cargo market; not only for spot vessels but vessels to float later on. We see nothing in the situation at present to encourage farmers in holding their wheat; it looks clearly that the markets are going to be lower; there is too much wheat raised and the production is too great all over the world this season to give any encouragement for higher prices."

Quotations for wheat are 54c for club, 56c for blue stem and 58c per bushel for valley, with a tendency to lower prices than these figures.

San Francisco, Sept. 12.—Wheat inactive. Barley, very quiet.

Wheat—Shipping, No. 1, 96c; choice, 96c; milling, 93c to \$1.04.

Barley—Brewing, 73c to 82c.

Call board sales: Wheat—Inactive; December, \$1.00-1.05; May, \$1.04.

Barley—No sales.

Corn—Large, yellow, \$1.45 to \$1.55.

Boston—Wool Strong.

Boston, Sept. 12.—The wool market here shows a falling off of sales this week, but values show no signs of weakness. The market for territory wool continues strong, and buyers in need of supplies are paying full former rates.

The reported basis of sales on strictly fine wools continues at about 40c to 45c, with fine medium at 42 to 43c.

Fleece wools are in quiet demand, and prices are more or less nominal. There is a quiet tone to Australian wools, but some moderate lots are being taken.

Quotations: Territories—Scoured basis: Montana, fine, 14 to 16c; scoured, 14 to 16c; medium, 14 to 16c; scoured, 14 to 16c; staple, 16 to 17c.

Australian—Scoured basis: Spot prices: Combing, superfine, 74 to 75c; superfine, 71 to 72c; good, 68 to 70c; average, 65 to 75c.

NEWSY TUTUILLA LETTER

A Correspondent on Doings in a Pendleton Suburb.

Tutuilla, Sept. 11.—Deputy Sheriff Til Taylor was a Tutuilla visitor today.

G. O. Miller sold last Monday to Perry Houser a bunch of hogs just off the stubble for 5 1/2 cents per pound live weight.

Sam Bitner finished his season's run of about 1000 acres heading and threshing last week.

Burt Blair, who owns several hundred cords of wood on Meacham creek, came down from Sprague where he is running a threshing machine, on Saturday, in response to a message which informed him that his wood was all burned. On investigation, however, he found only about twenty cords missing, and returned to Sprague on Monday.

Robert Porter, who cuts about 6000 cords of wood annually at Meacham, is down from that thriving burg to day. He is something of an inventor and is at present contemplating the erection of a chute by which wood will be conveyed from Meacham to Pendleton, incidentally beating the O. R. & N. Co. out of quite an amount of filthy lucre every year. The idea was probably suggested by the scientists who have recently been trying to signal the planet Mars, or the candidates who are trying to signal the governmental nomination.

MANY NEW RESIDENCES

PENDLETON PEOPLE ARE DOING SOME BUILDING THIS YEAR.

Thirty Now in Course of Construction, Besides Those Completed and Contemplated.

Thirty new residences are in course of construction now in Pendleton. This is the consensus of opinion among lumber dealers and builders. Quite a number have been completed, and many will be built during the fall. When the wheat crop turned out so well, contrary to the expectation of most people, building was accelerated, and since that time, carpenters have been in great demand, as well as building materials.

It is noticeable that the residences constructed during the past year or two are of a type better than most of those that had previously been built. Many pretty architectural designs are seen as the structures near completion, adding to the appearance of the town. The cost runs from \$8000 to \$250 for each structure.

Building will proceed late into the fall and winter, on account of the increased demand for men and lumber, and the temporary stoppage of work in some cases. The price of wheat will determine in many instances.

Among the structures that have been built or are now being put up are these:

Some of the New Buildings.

Mrs. John Vert and Mrs. W. T. Hislop are building four houses on the block between College and Thompson streets on Alta for rent, and are re-fitting and painting three more in the same block. These houses are now ready, or will be in the cases of those not completed, by the end of October.

A. P. Nash, the O. R. & N. conductor, has built a house on Jackson street in north Pendleton.

F. E. Judd is building a residence near T. G. Hailey's house in north Pendleton.

H. T. Hexter has put up a residence two blocks from the Main street bridge in north Pendleton.

C. S. Jackson is now building a house on Jackson street, three blocks from the bridge.

John F. Robinson, who bought the Lindsey house on Jackson street is making extensive repairs, and adding to the structure.

Conrad Platzeoeder has a new house in the rear of William Slinsher's residence, across the river.

Mr. Biggley is building a house for some one else not known at this time.

Frank Light has built on Court street, below Main.

J. W. Privett is putting up an 8-room house.

L. L. Ray is building a stone residence on the corner of Water and Vincent streets.

Judge Ellis has built a residence on Lewis street, corner of Lee.

C. S. Wheeler has nearly completed a house and photo gallery corner Alta and Cottonwood.

Gnas. Cunningham is making extensive repairs to his house.

The officers of the Wheeler County Pioneers' association have selected Mitchell as the next place of meeting.

ED BRISBO IS NOT GUILTY

EVIDENCE NOT SUFFICIENT TO BIND HIM OVER.

U. S. Attorney Says That Mrs. Brisbo Lied to Him and to the Court.

The case of the United States vs. Ed Brisbo for criminal assault on the person of the 13-year-old girl Anna Biamont, came up for examination before United States Commissioner John Hailey, Jr., Deputy United States Attorney Mays of Portland appeared for the prosecution and T. G. Hailey for the defense. The complaining witness Anna Biamont was first called to the stand. Upon her testimony rested chiefly the fate of the defendant, and she was examined and cross-examined long and carefully. Her story, although in some places scarcely plausible, was straightforward to the end. She gave place to her mother, who corroborated the daughter's testimony in all but a few details. The United States case proceeded satisfactorily until Mrs. Brisbo was called. She had stated to Mr. Mays and to John Hailey before the examination that she was ready to swear that Brisbo had confided to her his relations with the girl Anna Biamont.

Mrs. Brisbo Surprised the Court.

On the witness stand her testimony was entirely different. She said nothing against her husband. Afterward, in his remarks to the court, Mr. Mays said plainly that Mrs. Brisbo had lied to him and had lied to the court. The prosecution rested after Mrs. Brisbo's testimony, and the defense brought forward a few witnesses to show that it was impossible for Brisbo to have committed the crime at the time stated. There was little argument on either side and Commissioner Hailey took until 7:30 o'clock for consideration. At the time stated he said that after a thorough examination and a personal investigation, he found that the evidence was not sufficient to warrant him in holding the prisoner to the grand jury, and Brisbo was discharged.

Attorney Mays and Deputy Marshal Morse returned to Portland last night.

"Nerve Waste."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is an agreeable contrast to the vast sum of false selling which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is endorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment."

The book is \$1.00 by mail postpaid.
