THE SAMPSON AND SCHLEY INQUIRY

It is Dragging Its Weary Way Through the Court.

SCHLEY AND COUNSEL IN MOURNING

Rear Admiral Sampson Has Asked to Be Retired October 1, That He May Go Upon the Witness Stand.

Washington, Sept. 25.—Admiral Schley and counsel were in mourning when they entered the court today. A new series of charts were sent in this morning for information of the court. Commander Heilner, the navigator of the Texas, was recalled to correct his testimony of Monday. Chief Machinist Claxton of the Texas was then called. He testified that during the first hour of the battle he was ordered to reverse his engine, which was done for about two minutes. The object in calling Claxton was to show that not only the starboard but likewise the port engine was reversed to avoid collision with the Brooklyn, Schley's ship.

Admiral Cotton Testifies. Admiral Cotton, who commanded the scout boat Harvard during the Spanish war, was the next witness. He testified that on May 27, the day Admiral Schley ordered the fleet to Key West for coal, he went to the Brooklyn in an ordinary boat and delivered to the admiral a number of official dispatches: After reading these dispatches Schley ordered the fleet to proceed to Key West to coal. He said he was very anxious about the fleet, as the coal supply was falling short. One of the dispatches received by Schley that day, Cotton testified, ordered him to ascertain the facts regarding the Spanish fleet's whereabouts and to report the situation at Santiago without delay. The navy department's information, the dispatch said, indicated that the Spanish fleet was still at Santiago.

Schley Was Indolent. Admiral Cotton testified, so far as he knew, Schley made no effort to locate the Spanish fleet and that he did nothing in obedience to the orders from the navy department delivered by him.

Sampson May Testify. Washington, Sept. 25.—It is believed by navy department officials that Rear Admiral William T. Sampson will appear before the court of inquiry which is investigating the conduct of Rear Admiral Schley during the war with Spain. This is the interpretation made by officials upon the Rear Admirals' request formally granted by Secretary Long, for detachment from the Boston navy-yard on October 1. He was to have been relieved on November 1, but he has written to the department that his health is not good and he desires earlier detachment. Rear Admiral Sampson will start immediately to Washington. It is understood that he has made arrangements to re-occupy his old home in New Hampshire avenue, near R street. The rear admiral is prepared to go on the witness stand whenever the court deems his presence desirable.

COLUMBIA VS SHAMROCK II
Interest increasing in the event: First race Thursday.
New York, Sept. 25.—Within twenty-four hours the Columbia and Shamrock will be jockeying for the start in the first international yacht race off Sandy Hook, which occurs tomorrow. The Shamrock, which went into dry dock yesterday, to have some forward rivets refastened, was floated at three o'clock this morning and immediately left for the horseshoe. Interest in tomorrow's race is picking up. The Columbia is still 5 to 4 the favorite. Several large wagers have been made at this figure.

Had Never Heard of God.
Baltimore, Sept. 25.—Emma Paul was called in court here as a witness as to charges preferred by Peter Paul, her father, against her mother. The ordinary preliminary questions put to witnesses disclosed the astonishing fact that the young woman did not understand the nature of an oath, had never been in a church or Sunday school, and had never heard of God or heaven and did not know of the promise of immortality. It was discovered that the young woman had lived in the churchy city of Baltimore all her life; that her home was at No. 1012 Salsbury alley, in the heart of a densely populated section, and not in some out of the way corner difficult to reach with the news of the gospel.

Long to Retire.
Washington, Sept. 25.—Nearly all of the members of the present cabinet are quite sure to remain during Mr. Roosevelt's term, but it is very probable that Secretary Long will retire within the next few months. He fey that he can resign without embarrassment to Mr. Roosevelt, and therefore it is thought that within a few months he will ask the president to permit him to retire to private life.

Fighting for Office in Hawaii
Honolulu, Sept. 15.—The home rule party has forwarded another petition to Washington, asking the removal of Governor Dole and the appointment of Wilcox as his successor. It is alleged that Dole is unfit physically to perform the duties of the office. It is also reported that Secretary Cooper is now en route to Washington, and that he has positive information from Dole as to his resignation and will endeavor to secure the position for himself.

Mrs. McKinley's Condition.
Canton, Sept. 25.—Mrs. McKinley rested fairly well last night and is slightly improved this morning.

Colleges Athletes Compete.
Berkeley Oval, N. Y., Sept. 25.—Under perfect weather conditions is the track athletes of Cambridge and Oxford on one side and Yale and Harvard on the other held their international track athletic meet here this afternoon. Fully ten thousand people are present. Hargrave of Yale took the first event, a hundred yard dash.
The half mile run was won by Workman, of Cambridge. The quarter mile run was won by Rust of Harvard. The throwing of the sixteen pound hammer was won by Beal, of Harvard.

Telegraph Line to Dawson Open.
Vanover, B. C., Sept. 25.—The first message over the new telegraph line to the Klondike was sent this morning by Governor Ross, who is now here, to his representative at Dawson. The line is twenty-two hundred miles long, and touches at Atlin, White Horse, Dawson, Fort Simpson and connects at the Alaskan boundary with the projected American line from St. Michaels.

British Were too Slow.
Cape Town, Sept. 25.—Fifty British fusiliers rushed to General Delarey's headquarters at Duckersfontein, on the eighteenth inst., but Delarey, staff and family had fled over night. The Boers have obtained many recruits in the Sutherland district, Cape Colony.

Industrial Crisis in Europe.
London, Sept. 25.—An industrial crisis is rapidly spreading throughout Europe, being hastened by crop failures. Many mills are closing and stocks are falling in consequence.

Dan Malarkoy Ill.
Dan J. Malarkoy, ex-deputy prosecuting attorney and a well-known Portland lawyer, while trying a case before Justice Kraemer in Portland, was seized with illness. He grew worse as evening came on, and after a physician had been called in at his home, it was decided to be necessary to remove him to St. Vincent's Hospital for an operation for appendicitis. Mr. Malarkoy has passed through the operation successfully, and although Sunday night was a restless one for the patient, he is reported by the nurses to be in fairly good condition on Monday. His many friends felt somewhat alarmed for him.

Fell Down a Shaft.
J. H. Coewick, employed in the piano store of Soule Bros. & Johnston, in the Hibernia building, Portland, for several months, was found lying at the bottom of the elevator shaft in that building Sunday afternoon in an unconscious condition, with a gash across his forehead, and blood oozing from his mouth. He died shortly afterward at St. Vincent's Hospital. He was an Englishman and well connected, having left home after a quarrel with his father.

Tim Davenport's Injuries.
T. W. Davenport of Silverton, who was injured a few days ago by falling in the running gear of his wagon, breaking his lower jaw and receiving other injuries, is reported better. His friends, however, have little hopes of his recovery. In view of the serious condition of the patient, the physicians have sent for Mr. Davenport's son, Homer, the famous New York cartoonist. He started for Oregon last Saturday, and will come directly to Silverton.

CZOLGOSZ WILL DIE

OCTOBER 25

The Assassin of the President Will Be Electrocuted.

FATHER, SISTER, BROTHER VISIT HIM

Reported to Be Eating and Sleeping Well, Apparently Indifferent to His Fate, Which He Realizes is Deserved.

Buffalo, Sept. 25.—The father and sister of the assassin, Czolgosz, are to meet the prisoner tomorrow, probably after he is sentenced to death. It is believed if there was a plot of any kind his aged father would wring it from him. It is practically safe to say that Czolgosz will be electrocuted about October 25. His attorneys will make no appeal. The sheriff is anxious to get rid of Czolgosz, and it is said the papers for his commitment to Auburn prison are already made out and that as soon as the sentence is pronounced he will be taken to the train. Czolgosz spent a good night and today is in good spirits.

Visited by Relatives.
The father and sister of Czolgosz had a half hour interview with the prisoner this morning. The assassin expressed no regret for his crime and showed no emotion. His visitors, however, cried bitterly. The father denounced the son for bringing so great a disgrace upon the family. The son bore the father's reproaches without a murmur. The prisoner reiterated his denial that he had accomplices and awaits his fate which he realizes his base act deserves.

Session of Oregon Synod.
Active efforts have commenced at Baker City for the entertainment of the Oregon synod of the Presbyterian church, which will be in session there October 9-11. Aside from the 125 or 130 members of the church in Oregon, there will be some of the strongest financial and commercial men of the state at Baker as lay delegates from their respective churches, and three celebrities from the east, Dr. E. C. Ray, of Chicago, Dr. Thomas Marshall, of Philadelphia, and Dr. Hodge, of New York, eminent in national church affairs.

Enterprise of the O. R. & N.
The recent expansion of the authority of R. C. Jordon, industrial agent of the O. R. & N., giving him the same control of the building up of agriculture and manufactures on the lines of the Southern Pacific as he now enjoys on the O. R. & N., means much for the state at large, thinks the Baker City Democrat. The Harriman people made no mistake when they took it. R. Miller from the O. R. & N. and put him in charge of the freight and passenger business of the Southern Pacific lines in Oregon. Now with Mr. Jordon and Mr. Miller working in harmony western Oregon will receive the benefits of the same broad policy inaugurated by President Moberg on the O. R. & N., in eastern Oregon and Washington. The eastern state will thus be rounded out and built up with manufactures and its agricultural resources developed to the fullest extent.

Great Britain Will Borrow.
In financial circles in London and New York the opinion is growing that there will have to be further borrowing by the British Government as the result of the continued fighting in South Africa. The only relief to the drain upon the resources of the nation is the money which is expected to be realized by the sale of farms belonging to those irreconcilable burghers who have left their wives and children to the care of Lord Kitchener.

The average daily attendance of the Portland schools for the five days of last week was 10,114. The average attendance for the first week last year was 9,614. The maximum reached for the first week of 1900 was 9,700, as against 10,289 for this year.
