#### BARELY ESCAPED LYNCHING

FOR MALICIOUSLY THE MARK OF PRESIDENT McKinley.

Mob of Pilot Rock Citizens Were Out With a Rope After McWilliams.

A blacksmith named McWilliams of Helix, barely escaped being lynched by an infuriated mob at Pilot Rock yesterday. McWilliams boarded the stage for Pilot Rock yesterday morning, after having indulged in a few drinks. He soon engaged the stage driver Mark Carney in conversation relative to the Chinese immigration question. He said that Chinese had no right in America and that Americans should not be allowed to go to China. He then attacked President McKinley with vile language, saying that he was glad of his death and that he should have been murdered long ago. Carney warned him to stop his abuse and threatened to put him off the stage. When the stage arrived at Pilot Rock, Carney reported the circumstance to a few people there and it was not long before a mob of men and boys was formed. They secured a rope and started out to look for the blacksmith. McWilliams took the alarm and fled toward Pendleton. He arrived there early this morning covered with dust having run and walked during the entire night.

#### MANGE AT THE RESERVATION

Authority Given to Lantz to Experiment With Remedies.

A few years ago, a great many horses in this neighborhood were afflicted with mange. Twelve hundred head of such were killed within three months and the disease was exterminated with the exception of what remained with a few horses at the reservation. Those in authority at the time refused to allow the Indians' horses to be killed. As a result the disease has again spread and the number of horses affected is almost as great as before.

Authority has been given to Dr. Lantz to experiment with remedies on the horses at the reservation at the expense of the government. Dr. Lantz is a federal meat inspector and is interested in nothing but the welfare of the Indians at the reservation take any interest in the matter. Dr. Lantz says that the tie would be no expense to any one except the government, and that treatment could not in the least harm the horses and might be the means of exterminating the disease.

#### A SOLDIER'S OPINION.

Albany Boy Thinks Philippine War Will be an Endless One.

A letter received from Claud B. Davis, an Albany boy, who is serving in the Philippines with Company I, Nineteenth United States Infantry, describes well the condition of affairs on the islands of Cebu and Bohol, where the Nineteenth has been stationed, he says:

"I see so much in the home papers of late about the cessation of hostilities in the Philippines and the bright prospects of peace in the near future that I, after a service of nearly two years in these islands, feel justified in expressing a soldier's opinion of the matter. In and around Manila it is true that affairs are assuming a more peaceful attitude. Manila is well protected, so that a man can lie down at night with some assurance of a peaceful night's rest. But how easily different do we find the conditions on some of the other islands! My time has been passed chiefly on the islands of Cebu and Bohol, and to these islands I will confine my remarks. We have no newspaper correspondents here to send glowing accounts to the states of the battles waged and won with a savage foe; consequently we are seldom heard from.

"These happenings look little like peace to me and, what more, I don't believe they will ever give up. We can burn them out and kill them one by one, and thus quiet them for a time. But the spirit of combativeness, born in their savage breasts, will never permit them to remain quiet, and it is my belief that we can expect permanent peace only when the last Filipino planks his little brown feet on the golden shore."

#### TRAVELING MAN ARRESTED.

For Interfering With Officer in Performance of His Duty.

Two women went into one of the restaurants in town this morning, and ordered breakfast, and, after finishing, left without paying the bill. The proprietor complained to the police and Chief Heathman went to the Walla Walla train, where he found the offenders. A traveling man interrupted the conversation which followed and was promptly arrested for interfering with an officer in the performance of his duty. The traveling man objected but it was of no use. He was taken to the mayor's office where both sides of the story were heard. Mayor Vincent allowed the prisoner to go about his business with instructions to avoid meddling with the affairs of other people and especially of the police.

## STUDIOUS GIRLS.

### School Days are Dangerous Periods With Our Girls.

A Chicago Girl Relates Her Experience.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries.

Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality. — often it is never recovered.

The dawn of womanhood is always a danger period and it is made doubly so by over exertion in study or work.

All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass.

The case of Miss Anna Oettinger, whose portrait we publish herewith, is a fair example of over estimation of physical endurance. Read her experience, and how she was cured by Lydia E. Pinkham's Vegetable Compound.

MISS ANNA OETTINGER, President of the Young Ladies Sodality, St. Alphonsus Society, of Chicago.

"DEAR MRS. PINKHAM:—To be a well woman once more seems little short of perfect happiness. For two years I suffered intensely with nervousness brought on by falling of the womb and general weakness of the female organs. I had leucorrhoea which sapped my strength, and although the doctors said an operation would be necessary I felt too weak to think of undergoing such an ordeal. One of my classmates who had suffered afflictions and been cured through the use of Lydia E. Pinkham's Vegetable Compound, advised me to try it, and I was only too glad to do so. I thought there was little hope for me, but was happily disappointed in finding that I soon began to feel better and stronger. I used 15 bottles before I was entirely well, but it was worth one hundred dollars a bottle to me, for it brought me new life and perfect health. Accept a grateful woman's thanks." — ANNA OETTINGER, 1244 Seminary Place, Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

"DEAR MRS. PINKHAM:—I thought I would write and tell you what your medicines have done for me. I suffered with pains in my stomach nearly all the time for one year; had no color in my lips or face and I felt dull all the time. I tried the doctor, but he did me no good. Since taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am now well. Your medicines have done me so much good that I cannot praise them enough." — Miss MABEL CLARK, Starkey, N.Y. (April 10, 1901.)

Take Lydia E. Pinkham's Vegetable Compound and be well.
