T. C. TAYLOR, the Hardware Man. 74 1/2 Main street, Pendleton, Oregon.

GENERAL NEWS.

Admiral Sampson is now in Washington. He arrived a few days ago and has remained at his residence on New Hampshire avenue.

Reports received from Cape Corbera say advices received there from various points along the frontier show that the Carlist preparations are nearly completed. They have accumulated, through smugglers, 20,000 rifles.

A wreck on the Montana Central Saturday afternoon 50 miles north of Helena wrecked an engine, which left the track and turned over in a mud bank. Engineer Patrick J. Hussey was scalded to death, his body being badly mangled.

Marquis Ito, Japan's great political leader, left Seattle for the east. He will remain several days in St. Paul. The rest of his itinerary is unsettled beyond the fact that he will pay his respects to President Roosevelt at Washington.

The casualty list shows that the total British losses in the attack on Colonel Kekewich's camp, at Moedwill, were four officers killed and 23 wounded, and 51 men killed and 115 wounded, numbers much greater than those heretofore reported.

The Mormons have begun a revival in London and are holding meetings under the direction of Apostle Francis M. Lyman. At a concert Miss Emma Gates, a granddaughter of Brigham Young, who has been studying music in Berlin, made her debut.

An appeal to "Christian America" has been issued to aid in the efforts of the relatives and friends of Miss Ellen M. Stone, the missionary now held captive by brigands in the Balkan mountains, to raise the \$12,000 demanded as a ransom for her delivery.

Miss Helen Long, the daughter of Secretary of the Navy John D. Long, died at Hingham, Mass., Friday night, of consumption. The trouble began with Miss Long's close attention to society duties at the national capital during the secretary's first term. For several months past she had been in Colorado, in the hope that the change of air would prove beneficial, but it did not, and she was taken back to the family home in Massachusetts.

PACIFIC NORTHWEST NEWS.

William Bybee, a pioneer of Jacksonville, has eaten sand for his breakfast the past 20 years, and seems to thrive on it. He thinks sand is the only medicine in the world for stomach troubles, and is not at all backward about recommending it to his friends who are suffering from dyspepsia, or any other affection of the digestive organs.

The Orphans' Home building at Albany was sold to the college by the Ladies' Aid society, and the building will be moved to the college campus. The basement will be fitted up for a dining hall and the two upper stories will be used for a dormitory. The building will be renovated and remodeled.

Senator Mitchell has secured the appointment of Mr. Williams as temporary clerk in the La Grande office, the place to be finally filled by civil service. Senator Mitchell has secured a pension for Colonel George B. Currey of La Grande, Or., who at one time during the civil war was in command of the department of the Columbia.

The demand for lumber has become so great that it is impossible for the mills in this vicinity to supply the market. The Booth-Kelly Lumber company, which has orders on file for as much lumber as the mills can cut in the next six months, and orders have been given to accept no new orders for the present. The lumber output this season is about twice as great as ever before.

The Yamhill county coal mine, beyond Gaston, continues to become more promising as the tunnel is driven deeper, says a Forest Grove paper. Workmen are now driving side tunnels to get an idea of the extent of the bed. The coal is of good quality, and preparations are being made to place it on the market. At present it will have to be hauled several miles to the railway, but the Southern Pacific people say as soon as it is shown that the mine is a profitable one they will run a branch line there.

IT'S AN ILL OMEN,

Thinks the wife, to have the wedding ring slip from the finger. "Something is going to happen."

Something is happening. That ring could hardly be pulled from the finger when it was put there a few years ago. Now it slips off by its own weight. How thin the fingers have grown! And the fingers don't grow this alone. How thin the face is and how thin the nose! The strength given to children has never been regained. Drains which should have been stopped have been neglected.

That is a common experience with women, unless some remedy is shared with them the secret of the strengthening and healing power of Dr. Pierce's Favorite Prescription. It regulates the periods, dries the drains which undermine the strength, heals inflammation and irritation, and cures female weakness. It makes the baby's advent practically painless and gives vigor and vitality to nursing mothers.

A Ladies' Laxative—Dr. Pierce's Pleasant Pellets. One single, small pellet is a laxative dose.

SCHLEY WAS VICTORIOUS LAST WEEK

Lemley Failed to Substantiate His Charges.

QUESTION OF THIS WEEK WILL BE

As to the Retrograde Movement to Key West Made by the Rear Admiral.

Washington, Oct. 7.—A chapter a day during all October seems now to be the outlook in the Schley court of inquiry. It had been expected that Judge Advocate Lemley would complete his presentation of the case against Schley last week. It now looks as though he will not be able to do so before Saturday. A number of wild charges made against Schley last week, such as withdrawing his ships at night 25 miles from Santiago, have been wholly disapproved. Interest now centers in the retrograde movement from Santiago to Key West for coal, and it will be for having ordered this movement, if anything, that Schley will be reproved by the court. It is on this point Lemley has made the strongest showing.

Lieut. Doyle also made minor corrections in his testimony.

Lieut. Commander Hodgson then resumed the stand to identify further papers in correspondence between him and Schley and the navy department.

He said that after the Colon struck her colors and Capt Cook went in a small boat to receive her surrender the Brooklyn's guns were kept loaded for fear of treachery. "Of course," he said, "there was no actual justification of this."

Commander Rodgers, executive officer of the Iowa during the war, was the witness on the stand this morning. He merely made minor corrections in his printed testimony.

Rodgers testified that neither he nor anyone else on the Brooklyn had the slightest idea that a code of signals had been arranged with the insurgents at Cienfuegos. He said the progress of the fleet from Cienfuegos to Santiago was seriously retarded by the Eagle and the Vixen, and that was a very embarrassing question on board the Brooklyn was whether the Texas could coal from the Merrimac. He also stated that a close picket was maintained around Santiago and Cienfuegos, and that the enemy could not have emerged from the harbor without being detected. When asked about the battle he said the Brooklyn did all she could do and began firing as soon as the port gun could. When the smoke was the thickest he saw the bow of a ship loom up ahead of the Brooklyn, but could not tell at the time which vessel it was.

Denounced New York Sun

Schley's conduct during the battle, Hodgson stated, was all that might be expected of an officer of his rank and station. He denied the Borok's two thousand yards away from the Spanish line of battle or that the loop prevented the Brooklyn from keeping up a steady fire. The witness claimed that Schley said "Damn the Texas," but insisted he had not told the New York Sun of the now famous colloquy. The reason, he said, he denounced the editor of the Sun as a liar and scoundrel because the Sun tried to make Schley out a coward in the face of the enemy, and not because it had quoted him as saying that Schley made the remark "Damn the Texas." He also declared he had not told the Sun that Schley said "We are close enough to them (the Spaniards) already."

Alaskan Postal Service.

Washington, Oct. 7.—Postoffice Inspector Clum has returned from a trip of inspection through Alaska. He has reported to the department that the service generally is in excellent condition, that particularly in the Yukon valley, where the various towns have a mail service of once a week in each direction. He established the northernmost postoffice in the United States and what is the northernmost postoffice in the world. This is at Point Barrow, where Dr. A. Richmond Marsh, the missionary at the little settlement, was appointed postmaster. This place is where the northernmost newspaper in the world is published once a year by a United States revenue cutter. Heretofore the few natives in the vicinity have had to send for their mail 700 miles and often much farther.

Meiklejohn declared appointment of officials in Philippine customs service of Maj. Hawks alleged conspirator entirely unconnected with Hawks' claim on Holsted.

HEISTAND HEMP SCANDAL.

Meiklejohn Formerly Assistant War Secretary, Knew of the Scheme.

Washington, Oct. 7.—Ex-Assistant Secretary of War Meiklejohn testified before the senate military subcommittee investigating the alleged hemp scandal today. He said that Col. Heistand, who is accused of being the leader in a ring of army officials to secure control of the Philippines hemp enterprise, asked him to consider the hemp enterprise and offered him stock in the contemplated scheme.

Heistand asked Meiklejohn at the time if he thought it would be improper for an army officer to engage in private pursuits, and Meiklejohn told him he could see nothing improper in it.

KING EDWARD SEVENTH HAS SMALL CANCER

Trouble Said to Be in Only Incipient Stages.

THE MONARCH TOOK A DRIVE TODAY

Disease Yields Not to Treatment, But is Declared to Be Growing Steadily Worse.

London, Oct. 7.—King Edward again went out driving today. Every effort is being made to reassure the public as to the condition of his health. It is learned, nevertheless, that his condition gives his physicians considerable anxiety. There is no longer any doubt his throat trouble has developed into a cancer. The trouble is in an early stage, but instead of yielding to treatment, it has steadily grown worse.

THE MORMONS ELECTED TWO

Chose Smith and Clawson as Counselors of the President.

Salt Lake, Utah, Oct. 7.—At the semi-annual conference of the Latter-day Saints which terminated last night, Joseph F. Smith was named first counselor to President Snow, succeeding the late Geo. J. Cannon. Apostle Rudger Clawson was elected second counselor. Announcement was made of the intention to send apostles to open foreign missions in Turkey, Russia, Austria, and South America. Twelve hundred and fifty Mormons gathered at the tabernacle and voted the appointments.

CHANGES IN CONSTITUTION

Episcopal General Convention Altering the Organic Law.

San Francisco, Oct. 7.—In the Episcopal general convention the house of bishops took up the work of the constitution passed by the house of deputies on Saturday and ratified the changes made in sections eight, nine and ten. The house of deputies spent the entire morning in a debate upon the Huntington amendment to article ten that was defeated on Saturday. No decisive action was taken during the forenoon.

Shafroth on Philippines.

Denver, Oct. 7.—Congressman John Shafroth, who with Mrs. Shafroth has been touring China and the Philippines for the past four months, has arrived home. Speaking of the conditions in the Philippines he said: "Peace has been practically restored in the Philippines. There is still a little insurrection in Samar, but aside from that everything is fairly quiet. I do not believe, however, that the retention of the islands will be profitable, as the government will have to expend a great deal of money on them even in times of peace. It costs now between \$60,000,000 and \$75,000,000 a year to keep the soldiers there and even if the number is reduced to 30,000 the expense will still be greater than the profits from the islands will warrant. The islands are unquestionably rich, but their benefit to the United States will not materialize until a concentration of two has passed and the need for an army in the islands has gone."

Telegraph Company Won.

San Francisco, Oct. 7.—The Federal court of appeals today affirmed the judgment of the lower court in the case of the Oregon Short Line company vs. The Postal Telegraph company giving the latter right to construct and operate a telegraph line over the Short Line right of way through Idaho. In the case of Blythe Hinckley et al, judgment of the lower court at Florence was affirmed.

San Francisco Wheat.

San Francisco, Oct. 7.—Wheat, per cental, 95 1/2.

Chicago Wheat.

Chicago, Oct. 7.—Wheat 69 1/2.

The Ameer is Dead.

Simla, India, Oct. 7.—It is reported that Abdurrahman Khan of Afghanistan died last Thursday after a brief illness. His eldest son, it is said, conveyed the information to the British consul at Cabul.

FARROW'S ENTERPRISE GOES

At Least Baker City Business Men are Backing the Scheme.

Baker City, Oct. 7.—Within the next two or three days the Baker City and Snake River railroad company will be incorporated under the laws of the state of Oregon, with a capital stock of \$1,000,000, which will be divided into shares of \$100 each. This looks like business. Soon after the organization and incorporation of the company it is believed that preliminary work will begin on the surveys and that next year will see the building and the completion of the line that means everything to Baker City and which will make the rich mining and agricultural country of the Panhandle blossom as the rose.

A number of representative business men, who meet business met yesterday afternoon and held a consultation with Lieutenant Edward S. Farrow and this condition of affairs is the outcome of the conference. Lieutenant Farrow stated that when he most desired was the moral support of the best citizens of Baker and that the capital was forthcoming to construct the road. He pledged himself to take \$100,000 in the stock of the proposed company. Hon. B. D. Carter, mayor of Baker City, presided at the meeting, which was made up of about 20 of the city's most representative citizens.

After it was decided to organize the railroad company, Mayor Carter appointed the following committee of nine to proceed with the work of organization and incorporation: F. Beach, C. M. Sage, William Pollock, W. G. Patterson, N. G. Haskell, John Waterman, L. Crabill, H. O. Bowers and O. L. Miller. This committee was instructed to appoint subcommittees which will go to work to secure the rights of way and to consult with the officials of the O. R. & N. company in order that the new line may work in harmony with the other railroad interests of eastern Oregon.

Uneariness in Tampa.

Tampa, Fla., Oct. 7.—Great uneasiness is manifest here among the business men over the present dangerous situation due to cigar makers' strikes. All street parades are suppressed, and the city is guarded night and day to prevent incendiarism.

Predicts Christ's Early Coming.

New York, Oct. 7.—Rev. A. B. Simpson in a sermon on Sunday predicted the end of the world in thirty years. He said all things point to Christ's early coming.

Chicago Embezzler Surrenders.

Chicago, Oct. 7.—Robert Burke, city oil inspector and democratic boss of Chicago, who was indicted on Saturday for alleged embezzlement of \$23,000 of city funds, surrendered this morning and gave \$25,000 bonds.

From Salt Lake City to The Dalles on horseback is the record now being made by a party of eastern night riders, which passed through Walla Walla Saturday. The party consists of W. H. Wright of Spokane; Mr. and Mrs. T. A. Snider of Clineville, O., and Miss Launette Snider of Stroudsburg, Pa.

Is your Hair Worth One Hair?

If so, buy a bottle of Nerbene's Hair-oil and stop that itching that is slowly but surely robbing you of your hair. Nerbene's Hair-oil is the only preparation on the market that really will stop it, for it is the only one that kills the parasites at work on the hair root, thus destroying the cause and consequently preventing the effect. One trial will convince you, the same as it has thousands of thousands.

FRANKLIN, Cal., Dec. 1. "What I would like to see is the salary of each preacher, thought it would give a general idea of the state of the church and even more, they you claim for it. My hair is growing thicker than ever."

ALB. H. BULLY, San Francisco, Cal.

For Sale at all First-Class Drug Stores.
