A great many women are subject to spells of dizziness, spots before the eyes, and a ringing noise in the head. These symptoms are commonly associated with liver "trouble" as the result of a diseased condition of the stomach and other organs of digestion and nutrition.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and allied organs of digestion and nutrition. It cures through the stomach disease, which have their origin in a diseased condition of the stomach and digestive and nutritive system. Hence, cures of heart, lungs, liver, kidneys, and other organs are constantly effected by the use of Dr. Pierce's Golden Medical Discovery.

There is no alcohol in the "Discovery" and it is free from opium, cocaine, and all other narcotics.

Some dealers may offer a substitute as "just as good" as Dr. Pierce's Golden Medical Discovery. There's more profit in substitutes for the dealer. There's more health in the "Discovery" for you. Don't be imposed on.

It is with the greatest pleasure I write you the benefit my mother has received from your Golden Medical Discovery. GAGE POINTS OUT THE POLICY OF TREASURY

The Secretary Spoke at the Bankers' Convention.

UTTERANCES REGARDED IMPORTANT

"I Would Keep Only a Safe Working Balance in Government's Hands," Said He.

Milwaukee, Oct. 16.—Today was the big debate of the National Banker's convention. Five minute discussions on banking topics were introduced. The address of Stickney on "Medium of Exchange and the Banking Functions" precipitated the most interesting debate.

Milwaukee, Oct. 16.—Secretary of the Treasury Gage delivered an address at the banker's convention this afternoon. His utterances upon questions of national finances are regarded as the most important at this time, as they probably foreshadow in several particulars the president's forthcoming message to congress. He believed it to be an unwise policy for the government to keep in the treasury a sum in excess of all ample working balances. The yearly average kept under lock and key by the government during the past fifty years, he said, "will amount to \$50,000,000, which, if it had been deposited in the national banks, would have netted the government \$2,000,000 in interest. With this fund as an aid to general operations, the banks would have been able to increase credit accommodations to the people to the extent of two hundred million." Gage expressed the following as his ideal financial convictions:

Gage's Financial Ideals. "First—I believe it to be the most desirable that demand liabilities of the government known as legal tender notes should be put in the way of retirement and cancellation.

"Second—I believe this can be accomplished without any burden of interest cost to the public treasury.

"Third—I believe our system of bank note circulation can and ought to be so modified as to make it more responsive to commercial and industrial requirements without any increase of risk to the holder.

"Fourth—I believe that beyond acting as guardian and trustee for the people in relation to the national banks, the government's guaranty to the bank note issues should cease.

"Fifth—I believe public moneys in excess of a reasonable working balance for daily use should be deposited in the national banks.

"Sixth—I believe in periods of national peace and prosperity the public revenue should be somewhat in excess of public expenditures and the surplus revenue should be applied to the reduction of the public debt."

HIS BEARING EXCELLENT

Washington, Oct. 16.—The Schley case was continued today.

Capt. Cook was called to the stand when the Schley court opened this morning to correct his testimony. Hanna directed his attention to his statement that the Brooklyn's engines were uncoupled on July 3 by the order of Sampson. Cook's statement was correct, and that the order was contained in the bulletin issued by Sampson. Cook said the squadron could have proceeded to Santiago from Cienfuegos with much greater speed had not the weather and the Eagle's slow progress, aided by the retrograde movement, prevented it.

Lieut. Commander Segra also corrected his testimony. In answer to a question he denied he said "For God's sake don't discourage him. It was all we could do to work him up to it."

Commander Newton Mason, executive officer of the Brooklyn during the war, took the stand, and testified that he saw Schley in every engagement including that on July 3, and said his bearing was excellent in every particular. He was calm, collected and brave.

GEN. WOOD

PARDONED SHERIDAN

Cuban Governor Thought Him Unjustly Convicted.

HE BELIEVED RATHBONE AND NEELEY

Took the \$10,000, With the Theft of Which the Postmaster at Matanzas Was Charged.

Havana, Oct. 16.—In the Neeley and Rathbone presentation no responsibility is attached to either C. A. Rich, Neeley's assistant, or Marfield, chief in the post office. Rich, who was Neeley's temporary successor, has made important disclosures. Marfield has also given information against Neeley and Rathbone. J. H. Sheridan, ex-postmaster at Matanzas was pardoned last night by Gov. Wood, who believes he was convicted on a trumped-up charge. He claimed Rathbone and Neeley pocketed \$10,000 of the Matanzas remittances for which they had receipts for him.

CANCER

The diseases most feared are those which are inherited—passed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

S. S. S. goes directly into the blood, destroys the virus, stops the formation of Cancerous cells and cleanses the system of impurities. What we say of S. S. S. as a cure for Cancer is supported by the testimony of those who have tested it and been restored to health.

Begin in time, don't wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**
