RUMORS OF THE POPE'S SERIOUS CONDITION

Report Says He Suffered from a Stroke of Palsy.

Rome, Oct. 18.—Insistent rumors are current today that the pope is suffering from a slight attack of palsy. THE NEW YORK MARKET

Reported by I. L. Ray & Co., Pendleton, Chicago Board of Trade and New York Stock Exchange Brokers

New York, Oct. 18.—The wheat market was strong today after a slight dip at the opening. Liverpool closed unchanged 5-8%; New York opened at 76 1/2 and closed 77 1/2; Chicago opened 70 1/2 and closed at 70 1/2-71. The export shipments for the week are 5,500,000 compared with 3,757,000 for the same week last year. This makes the total exports since Aug. 1 from the new crop over 95,000,000 or an average of over 6,000,000 per week, the heaviest of record and the indications are that we will be called upon for this amount for months to come. The strength at Liverpool is ascribed to the very poor outlook in the Argentine where with an increased acreage the promise now is for 25 per cent less wheat than last year.

A WOULD BE MURDERER GETS 5 YEARS IN PRISON

William Davis at Walla Walla Lectured by Judge Brents.

Walla Walla, Oct. 18.—William Davis was yesterday afternoon sentenced to serve five years in the state penitentiary for an attempt to kill his sweetheart. The scene was a most pitiable one.

Davis was called into court at 4 o'clock and stood up before Judge Brents to receive sentence. In a rare appeal, he asked the court to be lenient, to consider the provocation he had and the punishment he had suffered already, and to remember his poor old mother, whose heart was breaking with awful grief. The court heard him and then delivered a lecture on crime and especially the act of carrying revolvers, a most scathing rebuke to some of the people who had jeered at Davis and urged him to shoot the girl.

Davis was an honest bootblack and had made some money. He was engaged to Miss Effie Haworth. She broke the engagement for a man who frequented questionable resorts and was forced by the police to leave town. People jeered at Davis and he worried until crazed. He met Miss Haworth in company with his rival and shot at her twice, each bullet taking effect. He shot at the man but missed his mark.

Education in Porto Rico.

The expense of maintaining schools in Porto Rico is very high. If we consider the amount spent for the small number of pupils enrolled, but as the country is gradually brought in closer touch with our own, their system will eventually be changed, until it reaches our present state of perfection. In this country the people are being educated to the fact that there is a sure cure for dyspepsia, indigestion, constipation, liver and kidney troubles, and that medicine is Hostetter's Stomach Bitters. It should be taken at the very first symptom if you would avoid unnecessary suffering. It will give prompt relief and eventually cure, as hundreds of people, including many prominent physicians, have testified during the past fifty years.

SCHLEY SIDE HAS GAINED MANY POINTS

It Has Been Shown That He Received Surrender OF COLON BEFORE SAMPSON ARRIVED

End of the Court of Inquiry Not Far Off. Question of Who Commanded Not Settled.

Washington, Oct. 18.—With the end of the Schley inquiry almost at hand, there seems to be no prospect that a verdict will be rendered on the question as to who was in command during the battle of Santiago. The precept does not require the court to say whether Sampson or Schley was in command, and the court has shown no disposition to raise that point. Schley's counsel, however, has contended that the settlement of that question is essential to a proper presentation of the case, despite the court's contrary rulings on this point. Raynor has been quite successful in showing in an indirect manner that Schley was in command. He has brought out the fact that the Brooklyn was in her discharging position when the battle began, was in the thick of the fight, made signals to the fleet and received the surrender of the Colon an hour before the New York arrived. It is likely that Schley will take the stand during the early part of next week.

Texas Hotel Burned.

Houston, Texas, Oct. 18.—Hutchings' leading hostelry was almost entirely destroyed by fire this morning. One fatality is known to have resulted. The hotel was filled with guests.

PEPICIDE

TO HAVE THICK, LUXURIANT HAIR

It is the most longest for development of a very womanly hair. It is a powerful and to beauty it is, and stimulates to make your own as soft, glossy and thick as possible. Comparatively few of these are aware as yet that Pepicide is a hair growth promoter. It is a scientific discovery which will enable them to produce hair as thick and luxuriant as anyone could desire.

It works on a new theory of destroying the germ that feeds upon the hair root, and thus making the hair fall out and falling hair impossible. It then proceeds to produce a growth of thick, glossy hair that soon becomes the pride of its owner. One trial will convince you of its virtues.
