It is up to the republicans.

The fact of the matter is, if Geer is nominated or some other west-of-themountains man, eastern Oregon republicans would be surely tempted to vote for the democratic candidate for governor, and there would be a chance of absolute lord and master in his own his election in that event. It might be said with truth that Portland influence predominates in Oregon's congressional representation. It is on this ground that eastern Oregon should demand of Portland assistance in gaining her share of representation in state government at Salem, and it is on this ground that Portland should assent to the demand. Here is where eastern Oregon's strength lies. Her cause is just, and twice armed is he whose cause is just.

Let it be determined who is the man eastern Oregon should put forward for governor. There will be no shortage of timber. Let the trust go to the strongest, best and most available man. but let that man be identified with the interests of eastern Oregon. There should be no uncertainty about that. He should have reputation for cleanliness, for sagacity, for executive ability, and he should carry the brand of success upon his political flanks. He should be a worker and a man capable to see and to execute in the Interests of the whole people. Practicability is essential; force of character is requisite. ## AMERICAN WIVES.

Intelligent foreigners who have stud-ied home life both in Europe and America generally agree in the assertion that the lot of the American wife is an ideal one, and that she ought to be the hapdest woman on this earth. She owns the American husband to a degree un heard of in English families. Travelers tell us that the English husband is the

As the years go on, because she is an American wife, probably one child brings added happiness to her home,

and no other children come because she does not want them. If she lived in Britain she would probably have six or eight children whether her husband could provide food and clothing for them or not. In Scotland she would have to perform all the washing for the household, and would think it an ex-travagance to send the heavier pieces of clothes to the laundry. In America the wife has the clothes "done" at the laundry, and does not spoll her finger with withering scapsuds. In Scotland she would clean her children's and often her husband's boots every morning. In America her husband employes a boot-black, her child cleans his own boots and dainty Mrs. Columbia either employs a bootblack or she attends to her boots herself. If she wears a long skirt, the chances are that she does not worry much about her boots.

In America, if her husband is a wage earner, there is more money for the household, because wages are higher in this country than in Europe. Therefore the American wife has more money than her European cousin, Mrs. Colum-bia finds that housekeeping tires her strength, and she is of slight build; she and her husband immediately break up house and live in a hotel or boarding-house. In England and Scotland the American boarding-house is unknown. Should Mrs. Columbia be unfortunate enough to marry the wrong man, she tries to reform him, and if she finds the task is beyond her strength, she can get a divorce more easily than her European cousin. The sum of it all is that Mrs. Colum-

bis lives in a wife's paradise with the best tempered and most considerate husband in the world, because he is an American and stands for the best of his kind. Cross, bad-tempered old bach-elors, miserable brings, may have their vague theories about Mrs. Columbia, but while they prate about her they o main tain them.

There is no disposition among the life is from actual experience. These people of western and southern Oregon of us who are married know that Mrs. Columbia is the dearest woman in the to deny representation at Salem to world, and that the whole earth does not hold her equal. Those of us who is eastern. Oregon republicans have have found this out differently are unfortunate. - Portland Oregonian

Bad Circulation is the cause of most of the ills that come with old age. advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular sction of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and down the spine, poor appetite and digestion, soreness of the muscles, theumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body — these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints grad-ually cease, and you find that it is possible to be happy and healthy even in old age. Our medical department is in charge of physicians who make a study of blood and skin discars. If you would like to have their opinion and accide in your

case, write them all about it and you shall receive such information and advice as you want. This will east you nothing.
