PACIFIC NORTHWEST NEWS

James F. Clarke, for 31 years bookkeeper for the firm of Everding & Farrell, died at four o'clock on Saturday.

At Baker City strong evidence is being collected against Joe Levy, who was arrested Monday on the charge of being implicated in the murder of Davis Levy, at Boise, Idaho.

The committee of the Sellwood board of trade is making arrangements for celebrating the founding and starting of the Portland Woolen Mill. It is expected that the mill will be in operation some time in the month of December.

Portland building contractors are perfecting an organization entitled the "Master Builders' Association," and have already enrolled 35 of the leading firms of the city engaged in building. J. B. Bridges has been elected president and J. W. Gordon secretary.

For twenty long and tiresome rounds Portland people gazed at mysterious Billy Smith and Tom Tracey executing some kind of fancy dance in the ring Saturday night, compared to which the exhibition given recently by Gus Ruhlin and Denver Ed Martin was last. Both men were on their feet at the end of the 20th, and according to agreement the match was declared a draw.

At Stevenson, Wash., Ex-County Treasurer J. H. Ginder turned \$1160.10 to the county officials, the amount being a shortage in his accounts due the county. The matter has been hanging fire for some time, but has now been paid. Mr. Ginder sacrificed all his property there in order to make good this shortage.

Experiments are to be made with fuel oil by the Great Northerners in the Cascade tunnel to determine the merits of assertions made by railway engineers that oil fuel keeps air in tunnels clear. Women Dread

The disfigurement caused by skin disease, even more than the tormenting irritation which is so commonly associated with it. The use of Dr. Pierce's Golden Medical Discovery generally results in a complete cure of eczema, pimples, eruptions and other forms of disease which have their cause in an impure condition of the blood. "Golden Medical Discovery" also entirely purges the blood of humors and poisons, and so cures the cutaneous diseases which had blood-bred and feeds. There is no alcohol in the "Golden Medical Discovery" and it is entirely free from opium, cocaine, and all other narcotics.

There is no alcohol in the "Golden Medical Discovery" and it is entirely free from opium, cocaine, and all other narcotics. I was troubled with eczema from the crown of my head to the soles of my feet," writes Mrs. M. C. Mich. "I could not walk at times nor wear my shoes. Thought there was no help for me, at least the doctor said there was none. I went to see friends at Christmas time and they heard of the good that Dr. Pierce's Golden Medical Discovery had done for them, and was advised to try it at once. But first that I might suggest it my friends sent to the drug store and got a bottle and made me promise that I would take it. I had been getting worse all the time. I took a short course of the "Golden Medical Discovery" and ten days of Dr. Pierce's Pleasant Pellets, and used the "All Healing Salve," which made a complete cure. It was slow, but sure. I was taking the medicine about eight months. I would say to all who read this: Try Dr. Pierce's Golden Medical Discovery before wasting time and money." Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

SCHLEY WAS ON THE STAND AGAIN TODAY

He Corrected Testimony and Made More Statements

TOLD HOW THE CRUISER BROOKLYN

Received 37 of the 42 Shots That Were Effective From the Guns on the Spanish Ships.

Washington, Oct. 28.—Rear Admiral Schley resumed the stand for cross examination when the court opened this morning. When asked if he had any conversation with Admiral Evans on the day after the battle, he said he had, that Evans said the Iowa had shot the stern off one, the bow off another, and wrecked a third Spanish ship. He denied the Brooklyn had passed more than six hundred yards out of action, after making the loop. Before being turned over to Judge Advocate Lemly, Schley said: "The Brooklyn was one-fifth of our fighting force. She received 37 of the 42, or seventy per cent, of the shots sustained by our vessels."

He said no instructions. Schley said his conference with the captains at Hampton Roads was devoted to discussing measures dealing with the enemy. He stated that it was his idea to concentrate the fire on the leading ship of the Spanish squadron. Replying to a question by Lemly, Schley said the enemy would have made a serious mistake had it attacked the American fleet. The line of battle provided for no such emergency, but the Americans would have fought the Spaniards under signals. He did not put the order of battle into writing. He said none of the instructions from the navy department were exhibited to him by Sampson, who merely told him of them.

Favors Pacific Military School. Washington, Oct. 28.—Gen. Miles' annual report was made public this morning. As forecasted, the report says the anti-canteen law has been in the main beneficial. He recommends the establishment of a military school on the Pacific coast, preferably in southern California.

Miles recommends that decentralization be effected as far as possible, and that all law and proper authority be restored to subordinate commanders.

Miss Stone Not Heard From. Sofia, Oct. 28.—Absence of news of Miss Stone leads to the revival of the rumor that she has been killed and that the brigands have dispersed.

WALLA WALLA WHEAT SOLD

100,000 BUSHELS DISPOSED OF ON SATURDAY. Price Paid Was 44c for Club and 45c for Bluestem.

Walla Walla, Oct. 28.—Special.—The first movement of wheat from this section to the coast has begun, and a number of cars are being loaded today for immediate shipment. On Saturday about 100,000 bushels of wheat were sold in the city, with fair sales at Dayton and Watsburg, in all amounting to perhaps 175,000 bushels. Today other sales have been made and the week promises quite a movement in grain. So large sales are anticipated, but small lots will be moved to meet harvest obligations and other bills. The heavy farmers are not selling. The price is 44 cents for club and 45 cents for blue stem. Most of the sales just made were for shipment to Tacoma.

Rains Fall in Walla Walla. Walla Walla, Oct. 28.—Special.—The long-drawn-for rain fell over the Walla Walla valley yesterday afternoon and last night. This morning a smile is seen on the faces of farmers who were wont to complain Saturday, on account of the prolonged dry spell. Today a new color is covering the stubble fields, which have so far been nearly as barren as when the rospers passed over them, and the tiny straws of volunteer grain are looking stronger than they have heretofore. The surface of the ground has been drenched to the depth of two or three inches, and the roads are quite muddy. The dust had become very disagreeable, and the rains have made them more agreeable, even though they are soft today. Not in many years have farmers had a better season to save their grains, as not a drop of rain has fallen since harvest got well under way. Not a sack of grain has been injured in the fields. Usually early fall rains catch a large part of the grain in the fields.

Company 1 Might Disband. Walla Walla, Oct. 28.—Special.—Company 1, N. G. W., is not to be mustered out of service if that calamity can be prevented by the membership. This conclusion has been reached by the members after a careful canvass of the situation. The visit of Captain Kenzie, November 2, is the time when must be settled the fate of the company, and the members are preparing to meet the inspecting officer with a bold front. Some talk has been made of allowing the company to disband and then organizing a company of artillery in its place. After deliberation the members have concluded to hold onto their present organization. For many months the company has been losing members by their leaving the city, and in this way the membership has grown smaller and the interest less and less. Now it is proposed to build up a company with the old material and all the new that can be had, and bring the company to a good degree of efficiency. The matter will be settled on November 2.

THE NEW YORK MARKET

WILL REDUCE ISLAND FORCES.

War Department Will Have 45,000 Men There Eventually.

Washington, Oct. 28.—Secretary Root announced this afternoon that it is the intention of the war department gradually to reduce the forces in the Philippines to 35,000 men. This will be done by bringing home more men whose term of enlistment are expiring than will be sent out to take their places.

NEWS FROM WESTON.

Lecture Course Arranged for the Normal School Students.

Weston, Oct. 28.—Dr. J. A. Beattie and the faculty of the normal school at Weston have planned for a lecture course for the year. It is to consist of one musical and elocutionary entertainment and six lectures. The lectures are to be given by Rev. J. R. N. Bell of Baker City; Supt. H. J. Hackenberry of the city schools of La Grande; Judge S. A. Lowell of Pendleton; Prof. W. D. Lyman of Whitman college; Rev. H. M. Marvin of Walla Walla; and President E. W. Wilson of the normal school at Ellensburg, Washington. The first lecture is to be given by Rev. Mr. Bell on the evening of Nov. 5. Subject, "An Evening With Hamlet."

The literary society of the normal school held a very pleasant session on Friday evening. These meetings are very interesting and entertaining. With but one or two exceptions, all the students are members of the society.

Contractors Erb & Van Patton succeeded in getting the new normal school building under roof before the rain of Saturday night and Sunday, so that work on the buildings will not be hindered by the weather. They expect to have the building ready for occupancy by January 1.

The farmers about Weston are quite slow marketing their wheat, as they think that they have time to wait for higher prices.

Occidental Hotel Escapes Burning. San Francisco, Oct. 28.—Fire broke out this noon in a laundry in the basement of the four story Occidental hotel. It created much excitement. The hotel was filled with guests. Prompt action by the fire department prevented a serious holocaust. Damage to the extent of \$5000 was done the drawing room and bar, principally by water.
