OF MARCUS WON AGAIN

MAN FOOTBALL TEAM
WON AT MOSCOW.

Wood 10 to 0 Against University Idaho—Gives Them Three Victories.
 The college football team had a light week and the boys of the University of Idaho boys for the game, the score standing 10 to 0. And there was rejoicing at the college bell was rung. This was the third game in the best of condition when home the last time. At the University of Washington on the home grounds the University of Oregon went and now at Moscow the Idaho boys were defeated. That is not enough, as the boys hope at the Agricultural College beginning home.

Wade received a telegram from his son, C. L. who is manager of the Whitehall team, which played the city of Idaho at Moscow yesterday. "Whitman, 10, Moscow, translate the northwest champion cannot be cured."

THE MARKETS OF THE DAY

CLUB BROUGHT 46 CENTS IN PENDLETON WEDNESDAY.

But 45 is the Ruling Price—Market Promises to Be Higher Soon.
 Although there has been very little change in the general wheat market, Fred W. Hendley, who is representing A. Berg, the exporter of Portland, yesterday paid William Roberts 46 cents for club and 47 cents for bluestem for his crop of 16,000 bushels, which is in the warehouse at Pulten. This price, however, is an exception and 45 cents is still the ruling local price. The Liverpool market is stronger than for several days past, and indicates another advance in the local markets.

Portland Wheat Review.
 Portland, Nov. 21.—The Commercial Review says:—The price of wheat remains steady around 57 1/2c per bushel for No. 1 club. Notwithstanding the decline in the foreign market selling is not quite so free as two weeks ago, but considerable stock has been disposed of during the week. It is said that almost half of the crop has been sold and gone into the hands of the exporters. Farmers are watching the markets daily, and a great many are waiting for the price to advance to 50 cents per bushel; then, they say, they will go. This means 60 to 65 cents here. We think that many will find that they have waited too long, as the exporters are well supplied with wheat and tonnage have been secured to take care of the same for the next 90 days, and only a decided improvement in the London cargo market would make any perceptible advance. We quote: Club wheat, 57 1/2c; bluestem, 58 1/2c; valley, 58 1/2c per bushel. There is very little doing in the latter quality, and millers are the only buyers. As valley farmers have too enhanced ideas as to the value of their grain. Of course, if the mills are the only buyers, and pay their price for their grain, that is no one's business.

BOUGHT CATTLE AT UKIAH
FOUND FAT BEEF SCARCE
OUT IN CAMAS PRAIRIE.

Seattle Man Paid \$3.60 per Hundred for 150 Head—Stockmen Prepare for Winter Driving to Lower Levels.

Ukiah, Nov. 21.—Ball the Seattle cattle buyer, was in the prairie this week, picking up all the beef cattle he could get. Beef is scarce here now, as most of the cattlemen sold earlier in the season. He succeeded, however, in securing about 150 head from here and Gardiner. The price paid was \$3.60, delivered at Pendleton.
 The stockmen of this section are most all moving their herds towards the winter range on the lower Umatilla and Cold Springs, as at this time of the year the range here is liable to be snowed under at any time. Arabogast Bros. took 400 head out this week; Charles Vinson, 175, and others will follow at once. They winter their stock on straw stacks and pasture at an average cost per head of \$1.75, which is considerably cheaper than raising one's own hay.
 Joseph Gerrans has 250 steers here now which he purchased in Grant and Harney counties. He will winter them near Holdman and he will probably spend the winter with his family in San Francisco.
Ukiah Notes.

PREPARE FOR WINTER.
 Horses Left on the Range, While Cattle Are Kept in the Pastures.
 Ritter, Nov. 21.—Cattlemen here have taken their stock off the range and put them in pastures. Horses are generally left on the range all winter, as they can winter without hay during ordinary winters. They work down to the steep mountain sides near the junction of the north and middle forks of the John Day, where but very little snow falls, and generally come out in good condition in the spring.
 Hay here is worth \$10 per ton now, and if the winter should be a severe one it will go higher.

 \$112,500 for a Prescription changed hands in San Francisco, Aug. 26, 1901. The transfer involved in cost a stock of \$112,500 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases.
 They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on their own by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably.
 There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FULTON COMPANY, 420 Montgomery St., San Francisco, Cal.
