NEW YORK GOSSIP.

New York, Nov. 30.-It is not gen-eraly known that New York leads the world in the matter of diamond cuttings, yet such is the case and what extraordinary about it is that it is a fact due to American extravagance. Here the cutters are suffered to lose 50 ten per cent in cutting and better wages are paid than at Amsterdam or any other city noted for this kind of work. This attracts the best cutters from all parts of the world. The extraordinary wealth of the country has created a demand for expensive 겱 lewelry such as is to be found nowhere else in the world. American private citizens, and many of them, too, are able to bid successfully for rare jewels against the wealthiest monarchs of earth.

INCREASE TO \$500,000.

Portland covers herself with glory by securing subscriptions amounting to more than \$300,000 within forty- eight hours, and then proceeding to raise the local capitalization for the Lowis and Clark fair to \$500.-000. The record is perhaps unique inall cities of the United States. It is to be doubted if any other ever raised so much in so short a time, when the parties were satisfied and closed the transpopulation is taken into account.
