N. BERKELEY, JR., SAYS HE WILL SECURE \$10,000

To Establish the County Fair—He is Now Soliciting Only \$100 Subscriptions—He Proposes to Interest Farmers in the County, as Well as Business Men.

N. Berkeley, Jr., who is at the head of the proposition for the raising of \$10,000 to establish a county fair, states that there is no doubt that the amount required will be raised to make the fair a success and establish it on a footing that will insure its permanency.

The first move toward the establishing of a Umatilla county fair was made last Wednesday, when Mr. Berkeley started out to feel the pulse of the people in regard to it and in the first forenoon succeeded in getting nearly one-quarter of the entire amount. He has started out to raise at least \$10,000 in lots of 100 shares at \$1 each, and since the first day several hundred dollars more has been added to the pledges.

The proposition as it stands now is to raise money to buy a suitable site for a fair ground, fit up the ground for the people in regard to it and keep them up for yearly fairs. This is something never before attempted in this county, but every business man in town expresses himself that it would be a good thing for the county and they are lending their united support toward carrying the proposition to completion. In an interview with Mr. Berkeley he said:

Wants Many In It.

"We have a thirty-acre tract in view which is already partly fitted up and which would make a splendid spot for the fair. Some business men offered to take \$500 worth of shares, but those I had to turn down for the present, for I hope to be able to get the entire amount in \$100 lots. The farmers must be interested, and to accomplish this, they must subscribe and be directly interested.

The fair is to embrace all the features included in the fairs of the east which have proven a great success, horse racing, other sports which are calculated to go along with a successful county fair; prize competitions in vegetables, grain and all products of the country. It will be carried out for the purpose of making rivalry and causing interest among everybody.

"If we succeed in getting this proposition on the footing that we expect, and can carry it out along the lines proposed, it will be a grand thing for the country. I think there will be no difficulty in raising the necessary amount of money.

Mr. Berkeley will visit all the towns in the county and hopes to interest their people in helping to carry out the plans for the fair by subscribing for stock.

Mr. Richardson was in Pendleton fifteen years ago. He says there is a great change in the development of the country, as well as the city, since that time.

An examination of the published register of the general land office discloses the fact that a number of Oregon appointees in the land service are likely to be retired during the coming year, or soon after. This does not include clerks, who are in the classified service. Doubtless with these appointments, as with the local land officers, the delegation will be called upon as a whole to name successors.
