PROGRESS OF NEWSPAPERS.

Newspaper men who perform the work of a dally reader of exchanges will support the statement that the progress by other institutions. Inregard for the truth, that the newspa- as any thing or earth. pers are shead of the times hereabouts, and are publishing better editions than the development of the came creaking over the Rocky mouncountry affords. There need be no tains and dipped down into the sunfear of successful attempt to dispute set land. the assertions that the newspapers of red-shirted, top-booted, quick-trigger-the Pacific coast are better in every ed days of 1856, the state of Oregon respect than those of the east. Let has had just cause to claim a place towns of 5000 population be taken for among the mining states of America. instance, and the concession will be made by all that in the east will be found no such efficient and newsy papers as are put forth in the far west.

This is accomplished in this manner: Newspaper men have accopted less of compensation for their labors ern Oregon and began washing fabthan have men engaged in other vocations. For the performance of a given task, requiring a given amount of brains, education, mental force and knowledge of men and events, in fact, all of the elemental requirements, the newspaper men of the west have habitnated themselves to give more for the money than others give.

Take two young men of equal naturenergy, equal aptitude for learning, concomitants of abundant timber, waand place one of them in the law, in ter, fuel and transportation facilities, medicine or in business, and place the other in school to prepare for news. On the mining stock markets of the paper work and fit himself to fill a world Oregon stocks are practically. position of responsibility in any de- if not completely tabooed. partment of a newspaper, and the professional man will earn, or, rather, reverve, twice the yearly returns the single Oregon mine. newspaper fellow receives.

Sometimes the ne spage and, views this unalterable status with feelings alin to rebellion. But again he con- Oregon properties. templates with some satisfaction that he has no inconsequential part in the Of successful refutation.

Nothing short of a court of inquiry. work of carrying on government, organizing society, regulating the af- men of a Philadelphia lawyer, could fairs of men, and he is content to ac- determine correctly the why cept as part pay for his labors the com of self congratulation that he is not a pensioner upon the social order. a drag upon the wheels of progress.

Governor Geer answers Governor ho. Van Sant, of Minnesota, anent the rallway merger, now being attempted by the Northern Securities company, with the opinion that he views the project with no alarm, and believes would better be handled by regulation of rates, rather than by passing and one year. enforcing laws against the combination of competing roads.

It is but fair to Oregon's governor to say that he has voiced the opinfon of many men who are not at all anxious to see the railways obtain a to the charge of "knocking" Oregon's firm grasp upon the country, and get into a position so that absolute dictation will be possible. It will always be possible for a sovereign state to say what shall be the law relating to management of rallways, or other corporations that exercise the right of eminent domain, and the state legislature will continue to be a safeguard against too great aggression by the railway magnates.

However, it is true that to handle the railway trust issue by states individually will be to permit a constant confusion, and make it certain that there will be no concerted action.

Most of the states have antitrust laws, and yet the trusts are more numerous than ever, and are more powerful than they ever were. it has been thought by the most illustrious statesmen that only by federal regulation can the trusts be hard-

It will be well if Gov. Van Sant exhaust all means at his command and tions of the riddle of Oregon's hootest the Minesota statute, and it is doo. well that governors of most of the than the big shaft the Red Boy is other states concerned are to join in with him to discuss the matter and veins of this golden dot on the map take action consistent with their Je- of the northwest.

It would have been better had Gov. Geer at least accepted Gov. Van Sant's invitation to attend the confer- thousand things, is entitled to a place

A HOO-DOO.

A well-known camp philosopher. whose name does not matter, but who might be stated for purposes of identification, is ultimately connected with mining development in this part of the world, once said that "it would be worth a million dollars to each mine owner in the state it the name of the state were changed

Oregon, for reasons that He beyond the power of man to grasp, is, as a mining state, "hoo-dood.

Just how it is "hoo-dood," and why, publications of the Inland Emptre and by what combination of circumhave kept pace with the march of stances, are matters capable of schution only by conjecture.

That there is a "hoo-doo" fastoned deed, it may be stated that with due on the state, however, is as obvious said;

Since the dim dawn of western civilization; since that time when the guard of prairie schooners advance into the unknown world "where rolled the Oregon:" since the

Since the legendary discovery of the mythical Blue Bucket diggings. Oregon has compelled attention to

her mineral resources. Since the argonaut days of '61, when the full tide of placer mining California swept up from the Bret Hartean camps to this our own eastclous sums in gold from virgin soil the state has clamored for recognition as a profitable field for mining invest-

And dating from the transformation from placer into lode mining of operations hereabouts, old Oregon put forward her strongest and most compelling claim to a rightful place among the mineral producing states

of the west. al endowment, with equal degrees of however, involving all those valuable Despite every natural advantage as a mining state Oregon has so far ignobly falled.

The Colorado exchange, perhaps the most important in the country. has upon its list the name of not one

Promoters mite mon the proposition that it is easier to grow hair upon a billiard all than to float stock or bonds in

These are relevent facts, impossible

or the exercise of the proverbial acu

Even the government of the United States ignores Oregon as a mineral producing state.

Always, from the beginning, the gold production of this corner of the GOV. GEER ON RAILWAY TRUST. co's mint or to the United States asoffice at Boise to help swell the statistical yield of California and Ida-

Only last year the director of the United States mint accredited Oregon with having produced one million dollars in gold; while as a matter of fact a cluster of twelve mines within a rathe issue as to railway oppression dius of 50 miles of Baker City actuproduced an aggregate of four and a half millions in gold alone in that

It has been asserted that the proverbial "Oregon mossbackism" has operated toward retarding the development of mining in this part of the state: that the "sinful slowness" of our agrarian population has to answer mining industry; that the radical

led, and if Gov. Geer's methods were conservatism for which the people of to be followed, it would give the Oregon are celebrated, has resulted frightening prospective investors: Northern Securities Company just that the ante-dated development what they want—time in which to op- methods have resulted in spoiling erate, and then would they snap their otherwise good mines, and in sending lingers at the people and do their own experts away who "damn with faint praise" what is really valuable property.

sinking-deeper than the auriforous

It is simply and solely a hoo-doo. and no mortal man can coherently explain a reason for its existance.

Eastern Oregon, by virtue of a in the western mining field ranking with the best states.

The Herald challenges the whole profession of mining experts of the world to show successfuly that this is not so .- Baker City Herald.

TO EXTERMINATE CRIME.

"I believe the time is coming when it will be necessary to exterminate the criminal classes for the protection This statement was society? made yesterday by Judge Thomas H. Brents to a reporter for the Union. "I know it is pretty severe language," said Mr. Brents, "but then crime is on the increase, and I can see no other way.

Does education mean less crimin-In answer to this Judge Brents

If it awaken in the mind a spirit or ambition, then I say yes. Otherif his early environment has Wise been among dishonesty, then there is little hope of an education benefitting the criminal. It may prevent him from becoming worse. That is about all.

I have but little faith in the immor al taint being inherited. No matter who the child's parents may be. I be lieve that If it is taken from them in time, its life can be changed. This must be done very early, however, as dishonesty is hard to conceal even from children.

This idea of something for noth ing, is what produces our law-break Your criminal is the man who ers. says. 'Hard work is a curse.' But he will exert himself more to do a dishonest trick than to perform an honor able one. A thief will work every night for a week to steal a cayuse that isn't worth \$5 when he could have labored the same length of time for a farmer and received twice as That little word 'work' is the bugbear.

I noticed the other day that the Portland Oregonian made the statement that the police should drive the bad men out of the town. Now that is no way to rid a community of the lawless element. Driving them out When you do that will do no good. you are merely inflicting them on someone else

A law of extermination is what is needed. Bees kill off the drones. we can't rid the world of them in any other manney then they should be destroyed. -Walla Walla Union.

The Skin an index to the Blood

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for are thrown off space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is tion, instant death would result. In addition to the sweat glands, the skin is tion, instant death would result. In addition to the sweat glands, the skin is tion, instant death would result. In addition to the sweat glands, the skin is the skin pliable and soft and protecting it from heat and cold. The blood and skin the skin pliable and soft and protecting it from heat and cold. The blood and skin whatever affects one seriously interferes with the functions of the other. Not only bealth, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly interfered and manifests itself upon the skin in the form of sores and ulcers, pimples and various External Poisson.

of sores and ulcers, pimples and various eruptive diseases. By the character of the

sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood.

Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy
and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application

Fure Blood—
skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the satest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and chin diseases, and you can have the best medical advice without cost.
