SUFFERED EASY PENALTY

SHOWMAN WAS FINED
FOR SIMPLE LARCENY.

Leo Balding's Case Disposed of Be-
fore Judge Ellis.

The case of Leo Balding for simple
larceny came up before Judge Ellis
yesterday evening and he was fined
\$32 and costs, amounting in all to
\$41.30.
This is a peculiar case in the cri-
minal history of Unatilla county. A
few weeks ago young Balding was in
the employ of one J. J. McDonald,
who was running an electric belt show
in Milton. He and Mrs. McDonald be-
came enamored of each other and
then it was that trouble began to
brew between him and his employer.
The woman thought that she did not
care to live any longer with McDonald
and she and the young man decided to
go to Walla Walla, so she went to
her husband's grip and took \$32 which
it contained, later giving it to Balding.
After reaching Walla Walla, he realized
what he had done, went to the
officers, gave himself up and told
them his story, at the same time turn-
ing the money over to them. He was
brought back to Milton and bound
over on the charge of larceny and
brought to the county jail. After sum-
ming up the evidence, District At-
torney Halley decided that he did not
really intend to steal the money, but
assumed all the responsibility of the
crime to shield the woman, so he was
allowed to plead guilty to simple lar-
ceny and fined as before stated, which
he paid and was allowed to go his
way.

NOVEMBER WAS GLOOMY.

What the Voluntary Observer's Report
Shows for the Month.
November was a gloomy month.
The weather report by the voluntary
observer, William Hilton, shows that
out of the whole month there were
only six clear days and the other
twenty-four were either totally cloudy
or partially so. The maximum tem-
perature reached for the month was
76 degrees, and the minimum tem-
perature was 26. The total precipitation
of rain was 1.49 inch, and the prevail-
ing wind direction was west, there be-
ing 16 days that the wind was in this
direction, and ten days that it was
from the north and the rest of the
time it was changing about in all di-
rections being one day from the south-
west, one from the northwest, one
from the northeast, one from the east
and one from the southwest. There
was no south wind.

THE ENGINE IS "BUSTED"

PENDLETON AT NIGHT
IS IN TOTAL DARKNESS.

Accident at Electric Station Caused
Lights to Go Out.

Pendleton was in total darkness
again last night. About 6:45 in the
evening, the piston rod pulled out of
the cross head of the large engine at
the power house which furnishes the
power that lights the city, and conse-
quently every light in town that
comes from there, went out immedi-
ately. The piece has been taken to
Walla Walla for repair, and it is
thought it will be returned sometime
tomorrow and that we will again
have lights Friday night and possibly
a part of tomorrow night.

The Rational Center for OVERCOATS

We knew that our increasing business
demanded a heavier stock
this year .. **WE KNEW** that the long, full
overcoat was to be
the all popular style. So we ignored the ordinary
lengths to some extent and bought heavily of the
lengthy styles unlike all other stores, which now find
themselves swamped with obsolete fashions. These
precautions enable us to say to you that we have

and that you may hunt as you please the city over,
but you will invariably come back here. We are too
large, too dignified and too progressive to even
think of forcing upon you something you fancy does
not favor.
