GENERAL NEWS

Kruger has not yet decided whether he will visit America.

Charles Coppinger, a wealthy Texas cattle dealer, died at Colorado City.

The British war office decided that correspondents at the front must wear uniforms.

The strike of railroad switchmen on the Denver & Rio Grande and Santa Fe roads was called off. It is understood to be an unconditional surrender of the strikers.

Tom Sharkey posted a forfeit of \$2,500 with a challenge to Jeffries to fight for the championship. He also posted \$2500 on behalf of Dave Sullivan to bring about a match with Young Corbett.

This banner year in iron and steel production bids fair from all indications today to be succeeded by even a greater one, notwithstanding that this year closes on the highest point of the 12 months.

The George W. Gilbe Company and Miller, Sloss & Scott, of San Francisco, will be united early in the year. A new corporation is to be formed, with a capital stock of \$10,000,000, thereby making it the largest mercantile concern on the Pacific coast. The corporation will deal in iron, steel and general hardware.

Congressman Roger Weeks, of Michigan, who arrived from Manila on the transport Hancock, said: "The new method of educating the natives as adopted by this government is wrong. Refined, handsome young ladies from Yassar and other colleges went down to the Philippines to educate these natives. They have had to put up with all kinds of privations and to eat native food, and in some places their lives have been in danger. I think this is entirely unnecessary. In place of the young ladies discharged soldiers of education, who have become acclimated, should be appointed and the young ladies should be sent home."

PACIFIC NORTHWEST NEWS

Senator Simon said: I regard the whole message as a masterful effort on the part of the president.

"The Order of the Gold Belt" is the latest out in Portland, a branch having been organized there last Sunday.

Senator Mitchell approves the message, especially that portion of it that favors the Nicaragua canal, Chinese exclusion and the suppression of anarchy.

The barge C. H. Wheeler, which broke adrift from the tug George H. Voshurg, while being towed from Nehalem, went ashore Thursday morning in the breakers at a point two miles south of Yaquina Bar.

Portland's city council has passed an ordinance empowering the committee on health and police to select a site for a rock pile, to enclose it with a fence and to provide ways and means for making prisoners work. It has been hailed as a good thing.

Mr. Moody said: It is an able and unique document. I am especially pleased with the importance he gives to topics of vital interest to the Pacific coast, such as the Nicaragua canal, Chinese exclusion and the reclamation of arid lands.

There will be no canvassing in outside communities for the Lewis and Clark fair, until the supplementary articles shall be filed increasing the authorized capital from \$300,000 to \$500,000. When this stage of proceedings shall have been reached it is expected that the new capital will be filed as promptly as the \$300,000 was subscribed.

The Salem Push Club has a proposition relative to the building of an electric line of railroad from Salem to Silverton, which was made by Col. W. H. Burghard, who exhibited letters from eastern capitalists showing that there will be no trouble in financing the enterprise if the requirements are complied with. They demand a bonus of \$20,000.

MUST SERVE MUCH LONGER

LOST CREDIT OF 22 MONTHS
BY ESCAPING FROM PRISON.

Charles Webber Taken Through Pendleton to Return to Walla Walla Penitentiary.

Warden Catron, of the Washington state penitentiary at Walla Walla, passed through here yesterday with Charles Webber, an escaped parole convict, who had been captured at The Dalles.

Webber was paroled last Saturday morning and Jap Scott, of Walla Walla county, became his "first friend." Scott secured a position in the Walla Walla hospital for him, where he had a good room, board and lodging and \$18 a month salary. He had only a month more to serve, and now he will lose the time cut off his sentence for good behavior, which was twenty-two months, and this he will have to serve in addition to the one month remaining from the original period. He was sentenced from King county for six years for robbery.

WEBBER IS CAPTURED.

Warden Catron Took Him from The Dalles to Walla Walla.

Walla Walla, Wash., Dec. 5.—Superintendent Catron of the penitentiary is at The Dalles, Ore., today, receiving Charles Webber, the fat German convict who broke his parole last Sunday, and made his escape from this city. Webber is but 5 feet, six inches high and weighs 250 pounds, hence a description of him soon brought capture. He was making for Portland, and Sheriff Kelly located him at the Dalles. Tonight Mr. Catron will return and tomorrow Webber will begin a 22-month term at his old home. When paroled, Webber had but nine months to serve. He will now be required to wear a red striped suit as a mark of incorrigibility, and lose all the good time gained in his five years' incarceration.

Improving Water Service.

Walla Walla, Dec. 5.—The city of Walla Walla is negotiating with J. C. Thomas for two acres of his land lying several miles above the city, up Mill creek. The land is wanted for the large springs which are located on it, and the city wants to secure them for an additional water service. Mr. Thomas wants \$6000 for the land, and the city council are figuring on making the purchase.

Whitman Gets New Clock.

Walla Walla, Dec. 5.—Whitman college has been presented with a \$1,000 clock to be placed in the tower of the new Memorial building in the near future. The donor's name cannot be had at present. The clock will have four faces, and the time of day can readily be seen at a distance of several blocks. At night electric lights will be used to illuminate the faces. The clock will be in memory of Mrs. S. B. Linnard, of Philadelphia.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WHERE IS FRED WILLIAMS

MRS. M. B. WILLIAMS
WANTS HER SON, FRANK.

Thought to Have Come to Pendleton During Fast For Months.

The whereabouts of Frank Williams is unknown to his mother, Mrs. M. B. Williams, of whom the Wilbur, Wash., Register makes the following mention:

"A lady named Mrs. M. B. Williams arrived in town from Monfama a few days ago, in very bad health and in rather straightened circumstances, financially. She came in the hope of finding her son, who worked in harvest somewhere near Wilbur. She failed to locate him, though very fortunately, though quite unexpectedly, she found an old friend in the person of Mrs. Files, with whom she is stopping. Her son Frank came from Athena, Ore., and was in this vicinity during harvest. Anyone knowing of his whereabouts can confer a great favor on Mrs. Williams by informing her, or letting him know that she is here. Other papers are requested to make mention of the foregoing request."

POLE AND WIRE SETTING

PHONE LINE WORK
BEGUN ON BUTTER CREEK.

Ranchers Soon Will Be Talking Over the Wires.

Work commenced yesterday on the new private telephone line from out of Echo to the Sloan Bros' ranch on Butter creek. S. W. Wellenby and Clarence Biggs have the contract for setting the poles and stretching the wire, and yesterday morning they put a force of men at work digging the holes for the reception of the poles.

W. C. Minns has the contract for furnishing the poles and a carload is expected to reach Echo from Meacham tomorrow. The promoters do not expect to let the work drag until the line is finished and the farmers and stockmen have 'phones in their homes and are able to converse with the outside world. Those to have the benefit of the 'phones are jubilant over the proposition.

Food Changed to Poison.
