Select them now and have them laid away. You will thus avoid the rush of the last moments.

THURSDAY, DECEMBER 12 1901.

IT PAYS TO KEEP ACCOUNTS HOW HE FED GRAIN TO TO FATTEN HIS HOGS.

J. N. B. Gerking, of Athena, Gives Some Figures as to Cost of Putting Flesh Rapidly Upon Porkers.

J. N. B. Gerking, of Athena, gave the East Oregonian some figures as to the manner in which he put on the finishing touches getting the hogs ready for sale. From them he argues that it pays to raise hogs for the fat-pork market.

Mr. Gerking has 77 in the lot which he was preparing for the delivery at Athena, where he could get 5 cents a pound on the hoof. He fed them rolled wheat.

During the last 12 days of the time he was feeding them, Mr. Gerking kept careful account of the expense, and also of the quantity the hogs gained. He weighed them at the beginning, and, of course, weighed them when they were sold. The result was:

Net gain per day per hog two pounds; total gain per day, 77 hogs, 154 pounds; total gain 12 days, 77 hogs, 1848 pounds; value added weight at 5 cents, \$92.40; value of amount fed 12 days, \$48; net profit, 12 days' feeding, \$44.40.

Mr. Gerking states that he believes it pays well to devote attention to the feeding of livestock, and to keep account of the cost and return from the feeding. In this instance, he knows that profit arose from the transaction. By the keeping of accounts thus said he, one can tell accurately when he is following a profitable course in the handling of his stock interests.

APPEARANCE OF A WISE WOMAN

Attracts Attention Because of the Standing of the Actors.

The apparent interest with which the engagement of Wilfred Clarke's comedy success "A Wise Woman" at the Frazer Friday night is fraught is not to be wondered at, when one stops to consider the personnel of the company and the reception accorded to Mr. Clarke's play on its original production at the Strand theatre, London. "A Wise Woman" proved itself one of the most remarkable comedy successes ever produced at that theatre, from both a box office and artistic standpoint, and the

PIMPLES PREVENTED BY Cuticura SOAP

The most effective skin purifying and beautifying soap, as well as purest and sweetest, for toilet, bath, and nursery. It strikes at the cause of bad complexion, red, rough hands, falling hair, and baby blemishes, viz., the clogged, irritated, inflamed, over-worked, or sluggish pores.

Sold everywhere. **PUTS DEAD AND CURS, CUTICURA SOAP, LONDON, U. S. A. BROAD STREET, NEW YORK. HOW TO CURE PIMPLES, Free.**

- Mirrors** Elegant French plate mirrors, enameled mirrors and triplicates. Just the thing for your dresser.
- Albums** An assortment of forty different albums at various prices. You cannot help being pleased.
- Stationery** We claim the swiftest line of fancy stationery ever exhibited in the city.
- Pictures** Beautiful pictures framed and unframed, black and white and in colors. Must be seen to be appreciated.
- Boys wagons, sleds and coasters; footballs, handballs and return balls; pocket knives, razors, gold pens, fountain pens, brushes, combs, etc., etc.**

tour of the play so far in this country has sustained the splendid reputation that preceded it. Miss Lamour, who is being strongly featured, has been prominently connected with a number of well-known metropolitan attractions. The supporting company includes Frederic Murphy, for a number of seasons a prominent member of the Julia Marlowe company and an actor of rare capabilities.

ANOTHER WONDER OF SCIENCE.

Biology Has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam delved the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the roots of the hair, where it saps the vitality, causing itching scalp, falling hair and finally baldness. Without dandruff hair must grow luxuriantly. Herpicide at all drug stores. It is the only destroyer of dandruff.

PROFIT IN HORSES.

Roach Brothers Have Found Ready Sale at Good Prices.

The Roach brothers were in the city yesterday from their stock ranch on McKay creek. They are dealing considerably in horses as well as cattle, having 200 head of the former and 150 head of the latter. They have sold some horses, the prices ranging from \$25 to \$50 for small ones, and from \$50 to \$100 for draft horses. At this price they say there is some money in horses, but the best profit is in cattle, for they do not take the care that horses do.

A Raging, Roaring Flood.

Washed down a telegraph line which Charles C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha, said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for coughs, colds and all throat and lung troubles by Tallman & Co. Price 50c.

Wheat All Right at Wallula.

M. O. Rose, a young farmer from near Wallula, was in the city last night. Mr. Rose sold last year's crop of wheat early and will have in 400 acres for next year. He says that very little, if any, wheat in his immediate vicinity will have to be resown on account of the dry fall.

Notice to Contractors.

Notice is hereby given that the common council of the city of Pendleton will receive bids for the grading of Turner street, between the west line of Mission street and the eastern boundary of the city of Pendleton.

All bids to state the price per cubic yard. Grading to be done in accordance with the profile now on file in the city recorder's office.

Bids must be filed with the city recorder on or before the 19th day of December, 1901. The successful bidder to look to the property-owners for his pay. The common council reserves the right to reject any or all bids.

Dated this 9th day of December 1901.

By order of the common council.
Attest: **J. E. BEAM,**
Recorder.

THE SWEET MAKERS

UNION COUNTY BEET SUGAR FACTORY'S 1901 OPERATIONS

Produced 32,000 Sacks Valued at \$5 Each—\$25,000 Paid out to Labor—2000 Acres Cultivated—Profits to One Farmer.

Business men of La Grande believe that the beet sugar factory has justified its establishment. They look for continued development, unless the complications in connection with the sugar trusts should cripple the institution. A representative of the East Oregonian recently called on a number of La Grande citizens, and asked them about the concern. The figures and facts given were gratifying to one who takes pleasure in seeing industrial advancement in Oregon. Apparently, the beet sugar factory has done much for La Grande, and will do more as the years pass. No one there regrets that he lent encouragement to the enterprise. All are loyal to it, and depend upon it for substantial benefits to the town, and its contiguous territory.

The Output.

The output during 1901 was 32,000 sacks of sugar. This is valued at \$5 wholesale, or a total of \$160,000. The sugar has found ready sale in the markets of the country, and there is nothing to indicate that many times that amount would not go as readily, unless it be that the complications of the trusts alter the market conditions, and put it into the power and make it to the interest of the combinations to attempt to crush the beet sugar concern operated outside the pale of the central combine.

These 32,000 sacks of sugar were produced from less than 2000 acres of land. Putting it at 2000 the result shows at 1600 tons of sugar, and, at the \$5 wholesale price stated there as the average, the average production to the acre of sugar actually sent to market is \$80. It is hoped that the area of land will be increased next year.

J. L. Caveniss' Operations.

John L. Caveniss has demonstrated to the farmers of the Grande Ronde valley, that it pays to raise sugar beets, and to devote all one's time to that sort of culture. Mr. Caveniss has 115 acres devoted to the culture of sugar beets. Last year he realized \$5000 from his land, and this was net profit after expenses had been taken out. Mr. Caveniss spends much of his time, all, practically, and resorts to all of the devices of the eastern farmer, in the form of enriching the soil, and preparing it for the coming crop. He believes the culture of sugar beets is to be a good thing.

Electric Road Proposed.

It is understood in La Grande that the proposition for an electric road from La Grande to Cove, in the same county, Union, is backed by the sugar factory people, and that it has as its object the connecting of the factory with certain lands at and near Cove upon which it is proposed to raise sugar beets. The company owning the factory has about 2000 acres of excellent sugar beet lands at Cove, and they believe it will be profitable to construct and operate the electric road, with the beet tonnage as a basis for the road's business. The expense will not be heavy.

Would Run Sixteen Miles.

The road would run for 16 miles through a region that is famed for its productiveness, and that is susceptible of further development through the means of better transportation facilities. M. L. Causey, of the Oregon Sugar company, is the promoter of the plan, and seems to have the confidence of the La Grande business men, who believe he will carry the project to completion. The sugar company people have ample funds at their disposal, and seem to be solid and substantial citizens.

Want Others to Raise Beets.

It is a part of the policy of the factory to encourage the people in other localities to cultivate sugar beets. In some parts of Umatilla county beets have been produced, containing a high per centage of saccharine matter, and it is hoped that the farmers of this region will not abandon their intention of experimenting thoroughly with the raising of beets to supply the demand that has been created by the La Grande factory.

Paid \$25,000 to 115 Persons.

One feature of the industry that is vital, is the return the factory makes annually to their employees. It was stated to the East Oregonian that 115 persons were paid \$25,000 during the year, many of them being permanent residents of La Grande, and receiving high salaries. This money remains largely in Union county, although it is the impression that it goes mostly to transient persons who come in for only the beet pulling season, and then leave. The distribution of the wages is not a small element in the business growth of La Grande.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence this 6th day of December, A. D. 1886.

A. W. GLEASON,
Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, Ohio.
Sold by druggists, 75c.
Hall's Family Pills are the best.

BARGAIN DAY!

Subscriptions to the
Daily,
Weekly,
or **Semi-Weekly**

On Saturday, December 28
